LIGHT FOR WEST EYES-A DIFFER-ENCE DISTINGUISHED. There are some papers which are either strangely obtuse, or else guilty of a deliberate purpose to confound the most glaring distinctions. Since Mr. Fillmore's speech at Albany certain journals have been seeking to convict him of inconsisten cy, though there is not the slightest conflict in principle between his conduct in one of the cases ited for the purpose and the sentimen! Jeclared by him in the other. In the New York Courier and Enquirer of Friday we find the following: "Mr. Fillmore is reported to have said as Albany on the occasion of his public reception

We admit, though we do not know, the fact, that ult., for members of the legislature, the vetoon the several occasions named, Mr. Fillmore stood: voted for the Presidency and Vice Presidency selected from free States of the North, and Wm. Stewart, K. N. 49 and against others chosen from slave States of the Steph. Cook, woolly, South. But does it follow that what he did then without besitation, he should do to-day, regardless of the striking difference in the circumstances of the times? It is necessary to remark here that the objection expressed in his speech at Albany lately, was not to the more local status of nominees for the office named, dissociated from other considerations. There would be nothing exceptionable in that, were it not con nected with such a division of the people of the Union, on a grave political question, as to involve the possibility of an election of the two highest Cheap and Kligtble Building Lots at Pul officers of the National government by the vote:
