THE POLITICAL DUEL. Ever since the celebrated debate between Webster and Havne in the Senate there has been a sort of rivalry between South Carolina and Massachusetts, and it has for many years past degenerated into a malignant and bitter hostility. Mr. Hoar was sent by Massachusetts to South Carolina to try the validity and constitutionality of one of her laws. On arriving at Charleston he was ordered to leave immediately and left. This affront has never yet been avenged. During Mr. Webster's life he was able to keep the peace between the belligerent States But Massachusetts had resolved on vengeance, and Mr. Sumner's most abusive speech was the first instalf South Carolina, and Massachusetts 🕏 now more enraged and ferocious than ever. To find a recreant son of South Carolina willing to run supposed would be particularly offensive, and the institutions of the country. this no doubt in part accounts for Fremont having been the choice of the Massachusetts delegates in the nominating Convention. They dissolve the Union would be glorious revenge. Thus the whole northern States are to be dragged into a political duel between Massachuignored. No matter if he is a cashiered and tive State. No matter if he is a cashiered and overthrow all the native armies of Central Americans of Central A dishonored soldier. No matter if he is a dishon- les, and probably will do it. est cattle dealer. No matter if he did defraud the government and people of this country. No matter if he did assail the freedom of debate by beating an old gray baired Senator at the door of the Senate. No matter if he is guilty of bribery. No matter if he is a conscienceless land monopolist. No matter if he is a duellist. No matter if his only trial in the civil service proved a disgraceful failure. No matter if his election would destroy the Union. So that he is a recreant son of Bouth Carolina, and will head

And never before were the indications so now and ever did dislike. strong that the people would crush so corrupt and malignant and dangerous a conspiracy to accomplish State revenge.

It has been charged by many of the fusion

presses that Mr. Buchanan is the enemy of the avowed that enmity. This charge is so grossly false that the New York Tribune, knowing that can party, has declared its lack of truth. The nees of the Cincinnati Convention Boston Chronicle, another prominent Free Soil paper, speaks of the accusation as follows: "To represent Mr. Buchanga as having made the remark attributed to him, in the absence of all proof is knavish. To represent him as having said that the very people whom he now expects to elect him their chief magistrate, should be reduced to a state of unparalelled pauperism, is foolish. A charge into which knavery and folly both enter can never hard those who make it, and those only ought to be in ured by it. We believe Mr. Buchanan would bear tily rejoice to know that every working man in the world was earning enough to live comfortably, and to place something aside every week. We believe too, that he would be as ready as any man to do

The following is an expression of sentimen from Mr. Buchanan himself: "From my soul I respect the laboring man. Labo is the foundation of the wealth of every country; and the free laborers of the North deserve respect both for their probity and their intelligence. Heaven for bid that I should do them wrong 'Ut all the countries on the earth we ought to have the most consieration for the laboring man.

Mr. Buchanan is the friend of the laboring man, and the laboring men will rally to his sup port, in spite of the mendacious statements of such small potatoe fusion presses as the Pittsburgh Gazette.

"If I were asked to name the fundamental prin ciples which lie at the basis of our government, and on which our free institutions have been built, as a house upon its foundations, I should answer, the equality of the States which compose the Union, and the equality of the citizens who constitute the States. The first of these principles is denied and assailed by the Black Republicans; the second, if not openly controverted, is at least insidiously at tacked by the Know Nothings. The errors of thesparties, then, (if the terms be not too mild,) are errors of fundamental and vital principles, menacin in the one instance, the civil privileges and the religious liberty of the private citizen; and in the other, the sovereign rights of the States and the ex-ietence of the Union. The Democratic party alone of all the organizations now in the field, maintain, and defends both of these essential principles, and thus, in my humble judgment, entitles itself to the

cordial support and co-operation of all national mer of every section and party.
