MEDICAL AVER'S CHERRY PECTORAL,

This article is the product of a long, inborious, and, A beneve, successful endeavor to furnish the community with such a semendy. Ot this last statement the American peoplearen now themselves prepared to judge, and I appeal with confidence to their-decision. If there is any dependence to be placed in what men of every class and station certify it has done for them; if we can trust our own seemes, when we see dangerous affections of the thread and taugs yield to fit; if we can depend on the assurance of intelligent Physicians who make it their business to know—in short, if there is any relunce upon anything, then it is irrefutably proven that this medicine duck relieve and does cure the class of diseases it is designed for, beyond any and all others that are known to mankind. If this be true, it cannot be too freely published, not no whicely known. The afflicted should know it. A remedy that cures is prices less to them. Parents whould know it, their children are

true, if cannot be too freely published, nor too whicely known. The afflicted should know it. A remedy that cures is price-less to them. Parenta whould know it, for health can be priced to no one. Not only should it be circulated here, but everywhere, not only in this country, but in all countries, How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circles of the globe. The sum nover sets on the limits! No conthinnt is without it, and but few peoples. Although not in so general use in other nations as in this, it is employed by the more intelligent in almost all fivilized countries. It is extensively employed in both America,—in Europe, Asin, Africa, Australia and the far-off islands of the sea. Life is as dear to its possessors there as here, and they grapp at a valuable remedy with oven more avidity. Unilke most preparations of its kind, it is an expensive composition of costly material. Still it is a fifted at the control of the sea, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made horecofore, or as we are capable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce, flence the patient who procures the genuine CHERRY Perroraal, can rely on having as good an article as has ever been had by those who testify to its curos.

By pursuing this course, I have the hope of doing some good in the world, as well as the satisfaction of believing that much has been done already.
