THREE-FIFTHS REPRESENTATION-

THREE-FIFTHS AN ANSWER.

A misprint in our yesterday's issue renders it necessary to present this subject again in order to make the case we simed to state understood. We undertook to prove that the Plain Dealer was right in stating that the South lest instead of gaining by the three-fifths rule of representations. The proposition is of course based upon the assumption, which the republicans will of course as a this time, or did so very assumption, which the republicans will of course assumption.

The Assassination of Paschal D. Craddoock.

This individual had been for many years us peoted of crimes against the laws of society. He had been arrested and tried, but had always escaped any penalty. He was a man of property; had a beantiful farm and residence in the country, some ten miles from Louisville, and was a man of energy and sagacity. The losses of property suffered by his neighbors were ascribed to him, and they were highly exasperated that no justice, as they believed, could reach him. concede, that the negroes of the South are human beings, and, therefore, a part of the basis of repesentation. Do our neighbors of the Journal and Gazette deny that the slaves are persons, and

not properly a part of the basis of representation? then, that they ought to be considered, and in part, at least, counted in regulating our representative system. The framers of the Constitution evidently thought they should be so considsubject when the Constitution was framed. At representation. To this some Nothern members hiected. The three fifths rule of count was the mpromise: and this is not the only compromise our federal Constitution. At any rate such is and only three-fifths of the slaves shall be count . We submit to the Constitution our fathers gave to us. Our neighbors quarrel with it. Observe, then, the Journal and Gazette are us. And hence it is that we are justified in charging that the direct tendency of their docatrines and party is not only to the destruction of the Union, but to the subversion of the Constitution also. We submit to the Constitution as it is, satisfied that a better one can never be framed and adopted. They make war upon the Constitution and would subvert it because their "bully Burlingame has said, "We must have an anti Stavery Constitution, an anti-Stavery Bible, and an anti Slavery God." We take the Constitution

is it is, and find that it recognizes the black people of the South as a part of the basis of our "FROM MY SOUL RESPECT THE LABORING MAN. representative system. On that Constitutional LABOR IS THE FOUNDATION OF THE WEALTH OF basis it is perfectly easy to show, by figures that EVERY COUNTRY, AND THE FREE LABORERS OF THE | cannot lie, that the South loses by the threefifths rule. We will re-state the case, and try and make the types express it right this time. Supposing the slaves in the South to number three millions, which is too low. In every Congressional district there must be 93,713 persons. At that rate the 3,000,000 blacks would give just thirty two members of the lower House of Congress But, according to the Constitution, but three fifths of that 3,000,000 slaves are counted. Three-fifths of three millions is but 1 800 0000 This but number will give but nincteen member of Cougress The difference, or loss by exclud ing the two fifths, is thirteen members of Congress. That is what our Constitution does. Shall it be destroyed?

To state the case in another form. there are as many slaves as white people, and we believe there are such districts. In that case there must be just 118,000 people to form a Congressional district, instead of 98,713, as in the North Of the 118,000 in the case supposed, 9,000 are blacks. Two-fifths of that number, fr. in the 118,000 and you have very near the 63. STATES IS EFFECTED! 70" We have adopted whole numbers which HENRY BELTZHOOVER, Branch (2 hour) procludes exactness, but they show the princi-

where one third of the population is negroes Every one of those negroes is counted in making un the requisite population to form a Congres I sional district. It is not so in the South. Such , the operation of the Constitution.

One other fact. It is not true, as is frequently isserted, that the slaveholder casts more than 100 slaves, casts more than one vote; and his W. Patrick poorest neighbor may neutralize that by voting the other way

One thing more. By a glance at the Constitu tion it will be seen that the three-fifths ratio of rule is adopted as a basis not only of representation but of taxation also. At the time of the adoption of the Constitution every one supposed that the government would have to be support ed mulaly by direct taxation, and the slaveholder

Now, we have stated in this article what the PITTSBURGH, ON WEDNESDAY, THE TEATH elitor of the Journal knows to be facts. Will be from the stump where he is to be found when become and made strong, and your life will be saved ceive his readers if he can? Will be slander his neighbor, or admit the unquestionable truth?

DISCHARGED.

The laborers and mechanics at the Arsenal, at Lawrenceville, we are told, were all discharged | To the Editor of the N. Y. Daily News esterday. Some hundred laboring men are hus thrown out of employment because the "black republican rascals" in Congress refuse to pass the army appropriation bill. The government is compelled to discharge them for want of money to pay them their wages. DAVID RITCHIE, the member from this district, working men out of employment, and cheat them

out of their wages. More than a thousand people in this county are directly and indirectly interested in the large sums of money dishursed here by the government for work, materials and stores. And be it lowing gentlemen have been invited as remembered that the very same Congressmen speakers, and many of them will be pie. who have thus compelled the discharge of laboring men without their pay, have just passed a bill to give themselves \$6000 each for twelve MONTHS SERVICES, and get mileage besides. The working men will punish the rogues.

J. Morris Thorreson, Se. y.

This is to certify, that I have critically, and by a personn
examination of the books, capital, assets and securities of
the Alliance Insurance Company of Philadelphia, invests
gated the etanding and responsibility of said Institution,
and I do find, and am entirely clear in my convictions, that
said Company has a good minipaired Capital in Mortgazeon unincombered Real Estate, worth double the amount
for which the same is mortgaged. My investigations have
been regorous and searching, and are, I to his reliable.

ENNJAMIN H. AUSTIN.

I take pleasure in saying that I have been acquarate
with Benjamin H. Austin for several years, and bave entir
confidence in his integrity, cape by and shifty, and would
place full reliance upon his statements or legal opinion.
