## SIXTH ANNUAL EXHIBITION PENNSYLVANIA STATE AGRICULTURAL SOCIETY,

#### WILL BE HELD AT PITTSBURGH SEPTEMBER 30th, and on OCTOBER 1st, 2d and 3d, 1856.

BOBT. C. WALKER, Secretary. Great Excitement in Lawrenceville. Great consternation was caused in Lawrenceville yesterday, by the announcement that orders had been received at the Allegheny Arsenal for the discharge of all the mechanics, artizans and laborer employed there. The order was immediately complied with and 120 persons were suddenly thrown

action has been rendered necessary in consequence of the unprecedented and factious course of the to pass the military appropriation unless accompanied by an irrelayent and unconstitutional provise which usurps the Executive power and nullifies the Judiciary. Thus do the Black Republicans in Congress show their love for the working man. So intense is their admiration of the ne- of the Board that they had to be invidious in their gro race that they have no sympathies left for the poor white man who "earns his bread by the sweat of his face." The amount disbursed monthly for labor alone at the Allegheny arsenal is over \$4000-

the yearly disbursements, for labor, materials, &c., amount to about \$80,000. All this, in hard money, and dealers. But through the blind fanaticism and obstinucy of Black Republicanism, we are to be deprived of this herenfter. Truly, "whom the Gods would destroy they first make mad." Pittsburgh Democratic Grators .-- The speeches of

Cols. McCandless and Black, at the Waynesburg neeting, created a great sensation there. The speech of Col. McCandless occupied more than an hour in the delivory and was exceedingly well received. After passing over the salient points at issue between the parties, he made some very happy allusions to the fame of Washington, Fayette, Greene and Wayne, whose names had been given to the counties of the Col. Black, although not unknown to the citizens of perior effort on this occasion. Hitherto his ardent appeals to the Democracy of Greene, were sprinkled | future day. with mirth moving sallies and anecdotes; but or Thursday his aim was to show, by stubborn facts and rresiztible conclusions that the integrity of our gloous Union is seriously menaced by the wiles of an nsidious faction; and by way of glaring contrast to exhibit the impregnable position of the Democracy

n defence of the Constitution and the rights of every portion of the confederacy. His speech was declared by all who heard it, a most masterly effort. A Chance to make Money .- The Chronicle does not are a san whether Fremont be a Catholic or s Protestant, but as the subject has excited some de ree of interest in the public mind, it states on the authority of the Charleston (S. C.) Courier that testimony can be procured to prove that the Colonel has been a Catholic, and the fact is well known to Tribune proposes to pay \$1,000 to any one who and sleeves, and, as usual, cheap for cash. vill prove Fremont a Catholic. Experience has proved that the remedy will cure eighteen out of every twenty cases, and that most of the incurable cases were so because of causes which had destroyed the recuperative powers of the system, or of severs mechanical injuries which had ruptured some delicate membrance, and thereby rendered a cure impossible.

GENTIKETEN:—I observe an important emission in your list of symptoms. Marshall's Uterine Catholicon will in fallibly cure Neutralgia. This symptom more frequently as companies menstrual derangement than people suppose, and all females are so subject to it that they should always have a bettle of Catholicon on hand. They may rely upon is that if will work wonders, as I know from certain experience. The symptoms, when connected with the face, are toswell known to need description. When the etemach is affected there are contractions and shooting pains, some times extending to the cheek and back, and frequently accompanied with nanseau, fair ress, coldoess of, the extremities and addity. These symptoms will soon be completely controlled by the Catholicon.

Her case been cured by Marshall's Uterine Catholicon, and the lady is now able to walk ont and attend to her duite. Her case has long been looked upon as incurable, and the curais considered little less than a mirsele.

JNO. P. LAMBERT, M. D. Penna.
One of the severest case of uterino disease that I have met with in thirty years active experience as a practitioner of medicine was the ments of first calling my attention to the virtue of Marshall's Uterine Catholicon. The patient was a married woman, and the mother of two children. She had been occase anally troubled with a discharge similar to the whites, and had some trouble with her monthly periods, but considered herself in good beath. She was then take with shooting pains under the right shoulder blade, which aften ward extended along the spine. She was then two white and married with headache and great nervous debility. Cold. shuddering pains and flashes of heat would shoot over the whole body. The organic difficulty of the womb finally merged into compilete prolapsus, so that she could not evidence that controllable desire to lie on the softs all day. She had nausen, with hot and dry skin, and altogether was in a critical condition. Candor compete me to say that marry of those symptoms appeared after I undertook the case, and the beat skill I could command failed to avert them. I felt as if the temp-rashilly was almost too heavy, and a consultation with an eminent medical professor in New York city led me to the use of Marshall's Catholicon. The charge of symptoms to mider ones, and then again to a perfect state for health was gradual, but the whole process was as beautiful as the gradual development of a plant from the seed to the rise frauduct was called to the rise front. A constant use of it for six ments was a statement.
