The following letter from Toronto, Canada, is one of the many propriese have received; TORONTO, April 27th, 1854.

Messes, Flowing Bres - Sire: I take this of portunity of informing you of the benefits I have derived from Dr I hands valuable Pills. I have for two years post been afthe test with a service pain over the eyes, accompanied with revolutions and a sense of dizziness; a malady beyond the power and skill of our physicians to relieve and cure used, as far as I myself could judge, by a diseased state of the liver and stomach. Some of the doctors tried bleeding, not various other remedies were tried, but all in vain, for the deep-rooted disease still stuck fast. At last I procured a ox of your valuable Liver Pills from a druggist here, and feel, after taking a portion of them, that the disease and minful sensation over the eyes has almost entirely left me. I will close by advising all those afflicted as I have been, to procure the valuable medicine at office, and save much time and pain, with little expense. With sin are gratitude and respect, I remain yours, respectfully,
