Improvement in Book Binding.
THE UNDERSIGNED HAVING obtained Letters Patent for Improvement in BOOK BINDING, is prepared to furnish the churchmen to do it now in use, or to apply the same to new Books, and to for which no respectfully solicits a share of patronage. Book Binders and Blank Book Manufactory, southeast corner of THIRD and WOOD Streets.
The above improvement consists: First—of a Metallic Spring clasping the back of the Book, and the Leaves, so as to prevent the leaves from snapping when the book is standing in a vertical position. Second—The carriage consists of Metallic Grooves, on which are inserted Rollers, which will effectually prevent the Book from working or coming to place during the same in its resting place.
