Another—still another—added to the swul-

list of outrages in the first degree in Allegheny county. We blithely record

the dreadful tragedies, for which the commun-

ity now stands responsible. Fifes, Charlotte

Jones, Stewart, Lutz and Kelly, with the dis-

mal prospect of others being added to the column. We have no heart to enter upon

the discussion of the cause of the terrible in-

crease of the devil spirit of murder; neither

do we desire to reiterate the horrible delusion

this terrible result. It is enough to contemplate

that cold-blooded murder—total des-

regard of the value of human life, has been

considered trifles in this region, by buil-

ers and street Indians. The storm m-

ates of justice is only beginning to feel

The unremanned court and jury steps in,

to vindicate outraged justice, and whilst the

highest and severest penalty of the law is

visited upon the guilty, the whole community

shudders, that the necessity exists. We

can only hope that the speedy conviction

will deter others from the commission of crime, and pa-

rticularly for the time to come, the atmospheres

of Allegheny county.

HON. WILLIAM MONTGOMERY.

The Philadelphian Press makes no secret of his

hostile feelings toward our friend Montgomery;

we trust him, William Montgomery, the Rep-

resentative from the Greenback district of

the present Congress, and think him for his many and striking services

on Wednesday, January 16th, in the speech of

Opposition. Considering the arrest of Walker and

then it was a first-rate issue to open up

and we are surprised to hear from our cor-

spondent that your friend Montgomery

has attached to the present convicts, and com-

plained in the house of Representatives that

they have justly deserved a profound im-

pression.

The correspondent of the Pennsylvania

states:

"In concluding my letter of yesterday, I had

nearly time to refer to the speech of the Presi-

dent, and to the speech of the Speaker of the

House, and during last evening and this morning, it was the general subject of conversation in Congressional circles.

Montgomery was entirely

misled by the speech of the Speaker of the

House, and he has given a

most forcible and eloquent speech against

the Democratic party in the Old Keystone

state.

Death of Charles Avery, Esq.

We learn with deep regret of the death of this

well known and venerable citizen of Allegheny.

His death took place on Saturday evening.

Mr. Avery's loss will be deeply felt and regret-

ted, not only by those who were his personal

friends, but by the whole community.

VARIOUS THINGS.

The War Department has received despatch

es from Capt. Pope, of the Artillery well ex-

plained, stating that after overcoming various

difficulties, they are getting along finely, and ex-

pect to see water discharge from the surface

within ten days. They have experienced no

trouble with the Indians.

After the talk about the immense value

of Fremont's Marquette grave, it is about being

paid for unpaid taxes, amounting to \$12,000.

The fact that Donnelly, who was executed

last Friday in New Jersey for the murder of

Moses, at the Seewer House, was drunk at the

time of his execution, is causing some comment

in the eastern papers. He drank new glasses

of brandy just before going on to the scaffold,

and gave evidence of being very much intoxi-

cated, making his dying speech.

—Senator Tazewell, of Virginia, now an old

and infirm man of 80, is so weakly, it is said,

that he has been forced for twenty years that he had

\$40,000 in a certain bank.

In 1859, the population of France was at a

stand still, and there was that year a prepon-

derable excess of deaths over births to the extent of

90,000.

—France, in a postal treaty lately made with

Austria, has agreed to extend the minimum

weight of letters from seven to nine

grams to ten grammes—nearly twice the

sum required for the Mount Vernon \$2000.

—It is stated that upwards of \$15,000 have al-

ready been raised, and put into stores, of the

sum required for the Mount Vernon \$2000.

—Gov. Wright, of hydraulic iron works, and

now our new Envoy at Berlin, has disgraced

himself by his tempestuous principles.

—Gov. Wright, of hydraulic iron works,

and our new Envoy at Berlin, has disgraced

himself by his tempestuous principles.

—The County of Erie, in Ohio, has embraced the religion of

and entered a minority of Mayne.

—It is stated that upwards of \$15,000 have al-

ready been raised, and put into stores, of the

sum required for the Mount Vernon \$2000.

—Gov. Wright, of hydraulic iron works,

and our new Envoy at Berlin, has disgraced

himself by his tempestuous principles.

—The practice of selling out papers to the

lowest bidder—or rat or putting up at auc-

tion the undertaking for their supply—will

prevail, it seems, in some of the towns of

Maine. The *World Intelligence*, of Portland,

in that State, is set to the task of

overthrowing the *Advertiser*.

—Circumstances, according to an estimate of the *Advertiser*, have a population of 240,000 inhabitants, an

increase in ten years of over \$7,000.

The value of manufacturers and industry is set at

\$10,000,000.

—France, in a postal treaty lately made with

Austria, has agreed to extend the minimum

weight of letters from seven to nine

grams to ten grammes—nearly twice the

sum required for the Mount Vernon \$2000.

—On the 1st of January the Baltimore & O.

and Potowmack railroad began to

run its trains.

—The Kansas question will much agitate

at this time, this subversive business being

at the time at the rage.

Yours, M. D.
