The Pittsburgh Post.

JAMES P. BARR, Editor and Proprietor.

PITTSBURGH:
TUESDAY MORNING, JANUARY [illegible]

FOR ASSEMBLY.

JAMES SALISBURY.

Candidate for Treasury, subject to the decision of James R. Hay's friends.

☞ The DEMOCRATIC COUNTY COMMITTEE of the [illegible] Districts of the [illegible] County of Allegheny, are requested to meet at the several Committee Rooms in their respective Districts, on SATURDAY EVENING, January 29, 1859, between the hours of 7 and 9 o'clock, P. M., for the purpose of electing a Committeeman to represent each District in the County Committee, to serve for the ensuing year.

JAMES A. GIBSON, Chairman.

JOHN LAYTON, Secretary.

The following named gentlemen compose the above Committee, viz:

J. S. McCleary,	James A. Gibson,
H. B. Sheafer,	Thomas Farley,
Joseph Birmingham,	D. D. Imbrie,
L. B. Patterson,	A. B. Patterson,
Charles Bryson,	Jas. Wm. M'Farren,
L. B. Patton,	S. B. Gilfillan,
Robert Morrow, of Ross,	S. C. Wilmarth,
John Layton,	[illegible] do.

☞ The STATE COMMITTEE of the members of the Democratic State Committee are requested to meet at Bowman's Hotel, Harrisburg, Pa., on TUESDAY, the 8th day of February, 1859, at 6 o'clock, P. M.

C. E. BUCKALEW, Chairman.

J. N. BUCKALEW, } Secretaries.
R. J. HARDMAN, }

NINETEEN YEARS AGO.

The parade and bustle at Harrisburg to-day, attendant upon the inauguration of another of the long and almost unbroken line of Democratic Governors of Pennsylvania, awakens many and varied reminiscences. The notices in the papers that a very large number of volunteer companies from the counties around the seat of government, would parade in Harrisburg, calls to mind the infamous attempt, made nineteen years ago, to defeat the will of the people, just then so plainly and nobly expressed in the election of David R. Porter to the office of Governor.

After frightful and unexampled frauds on the popular franchise, perpetrated by the corrupt officials of Ritner, the Democrats still showed a majority of the popular vote. It was then that Stevens & Co., declared their intention to "treat the election as if it had not been held," and finding their rascally projects would be resisted, even unto blood, they filled the town of Harrisburg with twelve hundred volunteers, under the impudent pretence of putting down "rebellion." There will probably be more men in military garb to-day at Harrisburg than there has been since the memorable effort of Ritner and Stevens to usurp the government of the State in December, 1838.

But how different the display of to-day, when all will be joyous gratulation, and peaceable interchange of friendly greetings, from the loud disputes, the frowning faces, and the bitter revilings which distinguished and saddened the period named above.

Although but a youngster at that time, (we are not old yet, though our hair is not very luxuriant) we well remember the terrors of the time. The first intimation of the purpose of the antimasonic conspirators, was the threat that they would "treat the election as though it had not been held." Then the organization of the House of Representatives, then the attempt to invalidate, mutilate, and finally reject the returns of the Governor's election. Then the call of Stevens and Ritner on the President for troops to put down rebellion. Then the assembling of twelve hundred volunteers about the capitol to intimidate the Democratic representatives, who met and elected Wm. H. Hopkins speaker. This branch of the House numbered nearly sixty out of the hundred of which the House consists—yet Stevens called them rebels, and wanted to make a "House" out of the other thirty or forty of the fag-ends of parties.

Throughout the Commonwealth you might have seen knots of Democrats, awaiting the slow and tedious coach that was to bring tidings of new villainies and usurpations of Stevens and his tools. The determination to resist their traitorous attempts to the last extremities, filled all Democratic hearts, and was manifest in the demeanor of all. After many days of patient, weary waiting, causing intense and painful anxiety to all the honest citizens of the Commonwealth, the news came that the cowards and would-be traitors had succumbed and retired. Then Governor Porter was duly sworn in, members of the Stevens "Rump" representatives came into the legal House, and the public business went on.

And where are the political bandits who organized this vile conspiracy against the rights and liberties of Pennsylvania? Many of them have gone to dishonorable graves, many others still linger, in shame and disgrace, beneath the glimpses of the moon. But all are remembered only to be execrated by honest men.

And still, despite such desperate attempts to overthrow the great old Democratic party of Pennsylvania, it moves on in the majesty of truth and strength. Another of its favored disciples is sworn in to day as our governor, and will quietly put aside the weakness and imbecility which for three years has dimmed the bright escutcheon of the Keystone State, and have done their poor endeavor to mar our "First Liberty and Independence."

Health and success to WILLIAM F. PACKER.

Prospects for a Crop of Ice.

While it is a matter of congratulation that the present winter has been so unusually mild, thereby preventing much suffering which must have ensued to the poor of our city had the weather been severe, it is a subject of considerable anxiety to quite a large number of our citizens, that it is possible the mild term may continue so long as to render doubtful the obtaining of ice in sufficient quantities to supply the demands of the community. The winter has been unusually mild. For years we have not had so long a continuation of spring like weather. Our ice dealers and others begin to be alarmed at the prospects of empty ice-houses next summer, and the ice attendant thereon. Our fast young men, too, begin to think anxiously of the probability of their being obliged to forgo the luxury of sherry-cobblers, mint juleps and other fancy summer drinks. Nearly all our exchanges are complaining of the same misfortune, and it seems probable that during the sultry days of next summer we may be deprived of many of the conveniences to which an abundant crop of ice is absolutely essential. But we must not yet despair winter—cold had gone as yet, and we may reasonably expect that through the supplications of the abundant than usual, and the price in consequence enhanced, we will still have sufficient to supply our absolute wants.

A few days of cold weather at present would not be likely to cause much distress among the poor, yet it would be sufficient to put at rest anxiety on this subject, and give us enough of the "cold crystal" to keep us cool during the dog-days next August.

LADY SKATERS.—Among several hundred skaters on the Canal basin at Portland, Maine, a few days since, were more than fifty girls, and a more beautiful and graceful exercise for ladies does not exist.

The New United States Supreme Judge.

HON. NATHAN CLIFFORD, of Maine, has been appointed and confirmed, as Associate Justice in place of Benjamin R. Curtis, resigned. This distinguished gentleman has held many positions of responsibility, and in all he has discharged the duties with singular ability, and an uprightness of purpose which won for him the esteem and confidence of all those with whom he was associated. Justice Clifford was a member of the Twenty-sixth Congress, and by his master speech in the Newark-New Jersey contested election case, placed himself at once in the front rank of American Statesmen. As Attorney General under President Polk, and Minister Plenipotentiary of the United States to the Government of Mexico, he added to his already high fame, and established his reputation on a sure and permanent foundation. In the full maturity of his intellect, Mr. Clifford has been selected by President Buchanan to fill a vacancy on the Supreme Bench of the United States. The clear, calm judgment, the keen analytical powers, the stern, inflexible purpose, the innate love of truth, the holy reverence for justice which combine to make up the character of Justice Clifford, fit him in a pre-eminent manner for the high position to which he has been appointed. The country will be benefitted by the labors of such a man in connection with the administration of justice.

Oregon.

By the last arrival of the California steamer we have the following returns of the election in Oregon as far as heard from:

Counties.	Constitution		Slavery.		Free Negroes.	
	Yes.	No.	Yes.	No.	Yes.	No.
Multnomah	453	250	70	627	122	385
Washington	268	226	18	80	89	7
Clackamas	220		11	24	24	55
Wasco	55	59	5	5	78	122
Marion	1,004	252	20	1,092	82	1,142
Linn	1,111	176	198	1,092	113	1,095
Clackamas	359	206	98	466	115	584
Umpqua	147	32		204	19	160
Yamhill	377	71	176	272	85	373
Tillamook	62	22	71	25	26	65
Polk	542	188	261	484	55	684
Lane	200		20	180		
Douglas	220			140		
Total	5,008	1,872	1,146	5,597	727	6,329

Majority on constitution, 3,136; majority against slavery, 4,602; majority against free negroes, 1,682.

The few additional returns to hear from will, it is thought, increase all the above majorities.

The Leviathan

The melancholy position of the Leviathan is a subject of considerable interest among the scientific men of England. A popular theory is that she might be floated out by enclosing her in a water tight wall so as to form around her a reservoir large enough to contain a sufficient quantity of water to float her. That the depth need not be very great, for the hull being empty, the draft of water would be slight, and that her specific gravity might even be lessened and her floating rendered more easy by attaching to her sides a number of lighters. We seem a Philadelphia paper that a gentleman of that city has forwarded a proposition to launch her, by a late steamer. It would be quite a triumph should Yankee ingenuity succeed in doing, what, apparently, English science cannot accomplish.

VARIOUS THINGS.

—The Metropolitan police of New York have added a new article to their duties. When we it come to the knowledge of the Superintendent (as it is pretty sure to do through some of the secret lodges) that a new counter feit is to be sprung upon the public, word is at once sent to every member of the department, and he then warns every shop-keeper within his beat, giving them the name of the bank, &c., and thus putting them on their guard. In this manner several extensive arrangements for putting counterfeits into circulation have been "nipped in the bud."

—The New York *Sun* says that Messrs. Hoe, the inventors of the "Lightning Press," are building for them a new press which, in power, rapidity of execution, and completeness in all its arrangements, will far excel anything of the kind ever proposed, and will print both sides of a sheet at the same time.

—In laying a submarine cable for a telegraph between France and Algiers, it has been discovered that in some places the Mediterranean is 2000 fathoms deep, or nearly two and a half miles.

—It is understood that the venerable Josiah Quincy is writing a life of John Q. Adams, and that all the voluminous papers left by the latter have been placed in his hands for that purpose. It is thought that part at least of the work will be ready for publication in February.

—Lucien Bonaparte, nephew of the late Emperor, after several years' apprenticeship as a sexton, has just been promoted to priestly orders in Rome, and it is thought that he aspires to the triple tiara.

—The census of the United States, shows that we have over two millions and a half of farmers, one hundred thousand merchants, sixty four thousand doctors, and nearly two hundred thousand gentlemen. We have fourteen thousand lawyers, to make our broad, twenty-four thousand lawyers to set us by the ears; four thousand doctors to kill or cure," and fifteen hundred editors to keep their motley mass in order by the power of public opinion controlled and manufactured through the press.

—The Academy of Science, in New Orleans, La., has received a paper, purporting to demonstrate the fact that the waters of the Gulf, on the borders of the southwestern Louisiana, and thence to Texas, are the richest which have been submitted to scientific tests, and that by the process of evaporation in tanks, salt of a superior quality, equal to Turk's Island, may be obtained.

—Alexander Dumas receives twenty cents a line for his romances. One of his constant readers estimates that he has received twenty-five thousand francs for the single line, "A cold perspiration stood upon the forehead of the Comte de ——," which occurs in most of his stories.

—Two arrivals at Philadelphia, last week, from the Western coast of Africa, brought nearly seven thousand bushels of pea or ground nuts. It is said that fifty or sixty thousand tons a year are shipped from Africa to this country, and to Great Britain and France.

—Col Lemanhosky, a native of Poland, who served under the great Napoleon during the time of the Republic and Empire, died, near Hamburg, Indiana, a few days since, aged 98 years. He was in the Italian and Egyptian campaigns, was imprisoned for his adherence to the Empire in his fallen fortunes, and was finally exiled from his native land.

—Twelve pictures, representing the Biblical history of Joseph, and by the original Titians, have been discovered in Paris by a young author named Alcan. But little doubt is expressed as to their genuineness. If so, they are certainly valuable curiosities.

—A sword worn by Lieut. Col. Napoleon, a British officer, at the celebrated battle of King's Mountain, was presented to the Tennessee Historical Society, at its last meeting, by Captain Elmiston, of Davidson county.

—They have a "Mutual Aid in Detecting Thieves Society," in Worcester, Mass., which at their annual meeting on Tuesday evening last, chose officers, including a "pursuing committee" of twelve. The association numbers 134 members.

—A young lady committed suicide by drowning, at Pottsville the other day, because her parents would not consent to her marriage with the person of her choice. Her name was Miss Rosa Sheely, about 17 years.

—A London periodical states that nearly all the English clergymen living between 200 and 600 years ago wore the mustache.

Pittsburgh, Fort Wayne and Chicago Railroad.

It requires no prophet to anticipate the day when its bonds will be a favorite investment and its stock will not go begging in the streets.

If these things are true, why not investigate them, and lend the road a helping hand; if they are not so, contravert them.

CIRCUMSPICE.

Cost of the British Government

Of the total income of the British Government last year, amounting to about $355,000,000, the amount received from customs was $115,000,000; from excise $85,000,000; from stamps $38,000,000; land and assessed taxes $15,000,000; income tax $75,000,000; and post office $15,000,000.

The principal expenditures were $140,000,000, for interest on the national debt; $70,000,000 for the army, and $50,000,000 for the navy. The total expenditure was about $350,000,000. About $21,000,000 was applied to the salaries, &c., on the revenue department; $10,000,000 to redeem exchequer bonds; and among the charges on the consolidated fund is one of about $5,000,000 being the compensation to His Majesty, King of Denmark, for the abolition of the Sound Dues, or tolls on ships. The balances remaining in the exchequer on the 30th of September amounted to the sum of $40,000,000.

The Last Blow to Filibusterism.

According to the Washington correspondent of the *Herald*, Mr. Clingman, from the Committee on Foreign Affairs in the House, will report in favor of sustaining the views and policy of the President's Message upon filibustering. Mr. Mason, from the Senate Committee, will do the same thing. This will put a decided damper on the "grey eyed man of destiny's" prospects, not only as to his being sent back by a national vessel, but as to him going at all. "Uncle Billy" has indomitable obstinacy, no doubt, but as a filibuster his occupation is forever gone.

Surplus Wheat in Canada.

The Toronto *Colonist*, in a statistical article on the grain crops of Canada West, states that the surplus wheat on hand is not less than 8,000,000 of bushels, and that no facilities exist, unless they are afforded by the Grand Trunk Railway, for the exportation of this produce. Hitherto, Canada has had purchasers for its surplus wheat in every frontier town of the United States, and, indeed, purchasers in the New England States and New York have regulated prices in Canada; but this year the United States itself has a surplus crop, probably better saved than that of Canada. This occurrence, so fortunate for the United States, is the means of locking up in Canada for the present some two millions sterling worth of produce, for which there seems to be no outlet.

Cost of Maintaining Public Schools.

A writer in the Cleveland *Plain Dealer* has collated from the reports on public instruction the cost, per scholar, of maintaining the public schools. He gives the following table:—

Cleveland	$16 45	New York	$12 92
Baltimore	21 50	St. Louis	12 57
Philadelphia	15 83	Brooklyn	12 76
Boston	15 73	Buffalo	11 61
Roxbury	15 03	Oswego	10 01
Chilicothe	14 83	Bangor	9 76
Cincinnati	14 16	Indianapolis	9 71
Chicago	14 00	Springfield, Mass.	9 23
Zanesville	13 64	Rochester	8 87
Dayton	13 57	Danvers	14 32
Providence	13 02		
Total average			$11 41

Rochester, it will be seen, presents the lowest figure in the list.

GEN. JOHN CALHOUN, President of the Lecompton Convention in Kansas, is a native of Boston, and brother of Wm. B. Calhoun, of Springfield, Mass., formerly a strong anti-whig member of Congress from Massachusetts. He went to Illinois in 1820, when 23 years of age, was a volunteer in the Black Hawk war, and was afterwards elected Major of Springfield, Ill. He was a presidential elector of that state in 1852. He was appointed by President Pierce surveyor-general of Kansas and Nebraska, and has resided in the former territory above three years.

THE DIVORCE BUSINESS IN OHIO.—In the Court of Common Pleas, Cincinnati, on the 8th, there were on the docket no fewer than one hundred and fifty-seven applications for divorce. The newspaper reporter says:

"Early in the morning the court room was thronged with these ill-matched pairs, who looked anything else than lovingly toward one another. Frowns disfigured the faces where smiles should have been, and those who should have walked hand in hand adown the pathway of life until they reached the shores of eternity, took seats as far removed from each other as possible. They thought it contamination even to sit in the same room together, and whenever their eyes chanced to meet they flashed—not forth fire fire of love, but that of a hate, deep and lasting."

Harrison Accident.

Don Pedro Accident.—In the naval workshops of that town there is a foundry for the manufacture of heavy cast iron castings. An immense crucible, hung over the furnace, and when the [illegible] fusion, this crucible is run [illegible] by means of [illegible] workmen were engaged in the operation of running off the [illegible] which held the [illegible] the pot gave way, and in a moment the liquid metal filled the workshop like the [illegible] volcano. Terror-stricken were [illegible] and legs liberated from their fetters. Some of the [illegible] were to fortunate in their flight as to escape [illegible] the [illegible] were [illegible] from their fellows, and [illegible] by climbing upon the frame, which supported the roof, where, safe [illegible] they beheld the fearful race between their unhappy [illegible] and the molten iron, which overtook the wretches, shrivelling up their limbs with its fiery touch. A subscription was opened for the poor [illegible] while waiting [illegible] the hospital at Vercueil to receive them. The Russian officers at Cherbourg, in honor of whom the authorities were about to give a ball, subscribed liberality for the support of the victims and their families.

GREAT RAILWAY ENTERPRISE.—The *Abeille du Nord*, of St. Petersburg, discusses the advantages of a communication around the world by a railway crossing Siberia, in the direction of Irkutz, and which, in the opinion of that journal will be constructed sooner or later. It points out the utility of such magnificent communication which would unite to Europe, by the Russian railways, the countries of Central Asia, China and Japan. The Englishman's line and that of Suez are says this journal, only useful to England, and the Panama route does not offer the advantages to be expected from a railway in Siberia, which would be in the power of Russia.

THE WARM WEATHER EXPLAINED.—The *Spiritual Telegraph* says that a person connected with that office, while in apparently spiritual vision of the night, found himself proclaiming in a very oracular and impressive manner, that the outpourings from the spiritual world, which are now going on, would not produce spiritual changes in the minds of men, but would produce changes in the air, and apparent changes in the sun, moon and stars." It adds that "the impressions now rests upon his mind that the extraordinary weather of the present season is "a commencement of the verification of his nocturnal prediction, in spiritual causes resident in some newly and divinely energized condition of the spiritual spheres enveloping our world and acting upon it as a whole."

THE "UNDERGROUND RAILROAD."—Frederick Douglass' paper report the arrival at Rochester, N. Y., within sixty days past, of fugitives from slavery, who have been cared for during their halt and sent forward to the Queens dominions.

NEW YORK NAVY YARD.—The work of equipping the frigate Savannah is nearly completed. This vessel has been cutting, refitting, nothing but her original frame remaining. Her battery is to consist of 20 8-inch guns on the gun deck, and 2 10-inch pivot Dahlgren guns on the spar deck. When fitted she will be one of the strongest and most effective ships in the service.

The frigate Niagara is having a thorough overhauling, recoppering, &c. Her steam machinery is to have a thorough examination and refitting. She will be placed in dock as soon as the Savannah is ready to come out, which will be in ten or fifteen days; three or four days will be required to lay new blocks. She is to have a Kingston valve put in her bottom, from which to supply the boilers with water.

—Dr. Peabody, formerly of the Cincinnati *Chronicle*, has been appointed by Gov. Stewart, of Missouri, his private secretary.

—A tablet to the Memory of Emanuel Swedenborg was erected on the 8th of December in the Swedish Protestant Church, Prince Square, Ratcliffe Highway, in which he was buried eighty-five years ago.

—The leading partner of a financial firm in New York that was forced to suspend during the panic, lost all his property, and, having since died, his family, consisting of a wife and a number of children would have been left entirely without means, but for the happy discovery of life policies to the amount of $20,000.

—The act in relation to dueling, recently passed by the Legislature of South Carolina, provides that magistrates may issue a warrant to prevent persons from going to fight a duel, and compel them to enter into bond with sureties to keep the peace, and not go beyond the limits of the State.

A WONDERFUL REMEDY.—Mr. B. D. Woods, late Justice of the Peace, East Birmingham, Pa., says: "I have been afflicted with a disease of the stomach, palpitation of the heart, and nervous headache, for nearly fifteen years, and have spent some hundreds of dollars in order to effect a cure, but to no purpose. After having used three bottles of Dr. Holland Bitters, I feel myself entirely restored. I can eat and sleep well, attend to my business with pleasure, and would recommend it to all those who are similarly afflicted."

Caution!—Be careful to ask for *Benbaur's Horsound Bitters*. Sold at $1 per bottle, or six bottles for $5, by the Proprietor, Benjamin Page, Jr., & Co., corner of Third and Smithfield streets, and Druggists generally.

☞ **White Teeth, Perfumed Breath, and** soft and beautiful complexion, can be acquired by using the "Balm of a Thousand Flowers." Every lady or gentleman would readily know the cause of a disagreeable breath when by using the "Balm of a Thousand Flowers" as a dentifrice, would not only remove it at once, but leave the teeth white as alabaster. Many persons do not know their breath is bad, and the subject is so delicate their friends would never mention it. Beware of counterfeits. Be sure each bottle is signed FERRIDGE & Co., N. Y.

☞ **"Woodland Cream"—A Pomade for** beautifying the hair—highly perfumed, superior to any French article imported, and for half the price. For dressing the hair it is unequalled, giving it a bright glossy appearance. It causes gentlemen's hair to curl in the most natural manner. It removes dandruff, always civilizing the hair the appearance of being free from grease. Price only fifty cents. None genuine unless signed

FERRIDGE & Co.,

"Proprietors of the Balm of a Thousand Flowers."

For sale by druggists and fancy goods dealers, No. 59 Wood street; R. E. Sellers & Co., corner Wood and Second; W. A. Gilmore, opposite the theatre; Joseph Fleming, corner Market street and Diamond; Brant & Black, corner of Liberty and S. Clair; W. J. Montgomery opposite Post office; Hunt & Miner, Monongahela House. jan21:eodw

☞ ASTONISHING EFFECTS OF ONE BOTTLE IN AN AGGRAVATED CASE OF DYSPEPSIA.

PHILADELPHIA, March 20, 1856.

Dear Sir:—During the last five years I have been afflicted with *Dyspepsia*, in its most aggravated form, and have used, without receiving any benefit therefrom, every remedy recommended for that disease. In fact, I was afflicted so badly that my neighbors knew it was a *great danger of dying from exhaustion*, in consequence of the rise of matter in my throat, and all my efforts for relief were in vain. I was at last induced, through the recommendation of several of my friends, to try "Hoofland's German Bitters," and I assure you the amount of relief I have received, from the use of only one bottle, is astonishing, and compels me to say that I would not be without the Bitters for any money, as I am now, through their use, enjoying better health than I have known for many years.

Very respectfully yours, ELIZABETH CADY.

To Dr. C. M. JACKSON. No. 13 Carter's alley.

See advertisement.

For sale by PREMIUM [illegible], No. 639, H. S. SYERS, Pittsburgh. janlw&ew

☞ THERE ARE HUNDREDS OF REMEDIES SOLD at every Drug Store, purporting to be and they are miserable, [illegible] advertising of the very best sort. Known, still we feel [illegible] faith in them all, for there is one exception.

We speak of Dr. Sanford's Invigorator, which is come to be recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and from our own observation find it to be one of the greatest blessings ever given to Dyspeptics, for it makes a complete cure before the first bottle was taken, and as it is a medicine that never can do anything except without trouble, while before nothing but the tightest kind would digest, and from that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this the greatest remedy in the world. jan14:lwdaw

Balance remaining with Company

The ASSETS of the Company are as follows:

Bonds and Mortgages, Ground Rents, Bank and other Stocks

Trust funds in N. Y. York

To defend Payment on Stock

Real Estate (cost)

Cash on hand and due from Agents

Premium on Policies recently issued, and debts due the Company

The officers and Directors, of this Institution, feel a pride in laying before the public the above Statement, with a view of re-calling their attention to the great importance of insuring their property.

The Company has entered upon the third year of its existence, during which period the receipts have amounted to *eight hundred and fifty thousand dollars*, and have paid *losses over one hundred thousand dollars*, which is equal, in respect to character of business to the very best and oldest offices.

We append the names of a few large and influential Merchants of Philadelphia, who patronise the Company by giving it a large amount of their Insurances, and to whom we respectfully refer, and any gentlemen who may wish to insure with this Company.

M. Baldwin, Steam Engine Manufacturer; David S. Brown Merchant; John H. Brown, Merchant; Thos. Sparks, Merchant; T. L. Thompson, Merchant; Faust & Wunderlich, Merchants; D. F. Dolbrich, Gum Elastic Manufacturer; Richard Bonner, Merchant; Butcher & Bros, Merchants; J. Gay Brunt, Wall Paper; Wm. Rogers, Comb Maker; Goldsmith & Co., Opticians; S. Bowers & Co., Wm. F. Hugh & Brown & Davis, D. & C. Kelly, Manufacturers, Charles L. Bird, Sugar Refiner.

☞ The Company have discontinued the [illegible] Marine business since August last, but continue themselves as [illegible] to fire and Inland Insurance.

THOMAS CRAVEN, President.

EDWARD S. SHERWOOD, Secretary.

JOHN THOMASON, General Superintendent.

THOS. J. HUNTER, Agent, Pittsburgh.
