Wood, Silk, Merine and feavy Cotton Under Shirts and Drawers—a fresh supply received st HORNE'S, del0 7 Market street. THE CHEMICAL OLIVE ERASIVE A SOAP, manufactured by B. C. & J. II. Fawyer, receives the preference over all other kinds ever offered for family use.

Its advantages over other Soaps are:—Ist. It is cheape family use.

Its advantages over other Sorps are:—lst. It is cheaper to use, one pound being equal to three of common rosin Scap. 21. Haif the time need only be occupied in washing when this Sonp is used in place of other Soap. 3d. Laber in washing can be nearly d spensed with, as the clothes will require little if any rubbing, thus avoiding their wear on the wash-board. 4th. Polling the clothes is unnecessary when this Sonp is used, and hard or salt water answers equally as well as soft. 5th. Printers, Machinists, Painters and others, and it far sup rior to other Soaps. It speedily removes grease, tar, paint, printers' ink and dirt from the hands, leaving the skin soft, and free from chapping.

To avoid the labor of rubbing the clothes, and the use of the wash-board, the following directions should be followed:

For the washing of eight or ten of a family, take one pound of Soap, cut it into shavings, and dissolve in one gallon of hot water; put the clothes into a tub containing about ten gallons of warm water; pour in the dissolved Scap, and stir thoroughly. Let them soak twenty to thirty minutes, wring out, and rinse in warm water once, cold water twice. A very dirty wrist-band, or seam, or grease spects, may require a slight rubbing, but otherwise the clothes will come out clean and white, without rubbing or boiling. Cold water may be used in place of hot, requiring about double time in soaking.

In attributing such valuable properties to this remedy, no resh or unwarrantable assertion is made, but is simply stated a fact; provon undeniably and conclusively by the extraordinary cures, and benefits derived from its use, under the direction of its illustrions originator, Dr. Hoodiand, among all chieses of European seciety, and from the immense mass of testimony, from all pairs of the American continent, accomminated during the lest ten years, in the hands of the present proprietor. The prevalence of diseases to which the German Bitters are adapted, it is with sorrow we say it, is almost aniversal; indeed there is scarcely a family throughout the whole extent of our country in which there cannot to found among its members that peculiar sallow and langual appearance denoting a diseased Liver, or an emeciated and suffering Dyspeptic.

It matters not from what cause the disease originated, nowever long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all the r means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me ip promising to the afficted, who may place themselves under my care, a perfect and most speedy care. But should the disease and the treatment not cause death speedly, and the victim marries, the disease is entailed upon the child on, who are born with feeble constitutions, and the current of life corrupted by a viries which betrays itself in Serodius, Fetter.
