an early grave. BHLF ABUSE is another formidable enemy to health, for nothing elso in the dread catalogue of human discasses causes so destructive a drain upon the system, drawing its thou-sands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, cause mental derangement, provents the proper development of the system, disqualifies for marrage, society, business, and all earthly happiness, and leaves the sufferer wretched in body and mind, prodis-posed to Consumption and a train of ovils more to be dreaded than death itself. With the fullest confidence I as-sure the unfortunet victims of Self-Abuse that a permanent of ruinous practices my patients can be restored to robust, by igorous health. The afflicted are cautioned against the use of Patont Medi-times, for there are so many ingonious sarres in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile trams vended as "Patent Medicines." I have carefully ana-trams vended as "Patent Medicines." I have carefully ana-trams of these called Patent Medicines and ind that his nearly all of them contain Corresive Sublimate, which is is on of the strongest preparations of moreary and a deadly publich. Three-fourths of the patont nostrums now in use are qual-if yas destitute of any knowledge of the human system, hav-timg one object only in view, and that to make money regard-ing one object only in view, and that to make money regard-ing and system, have differences.
