SPIBITS.

In attributing such valuable properties to this remedy, no
rash or unwarrantable assertion is made, but is simply stated
a fact; proven undeniably and conclusively by the extractionary curves, and benefits derived from its use, under the direction of its illustrious originator, Dr. Hoodand, among all
classes of Languan society, and from the immense mass of

dinary cures, and benefits derived from its use, under the direction of its illustrious originator, Dr. Hoofand, among all classes of European society, and from the immense mans of testimony, from all parts of the American continent, accumulated during the last ten years, in the hands of the present proprietor. The prevalence of diseases to which the German Bitters are adapted, it is with sorrow we say it, is almost universal; indeed there is scarcely a family throughout the whole extent of our country in which there cannot be found among its members that peculiar sallow and languid appearance denoting a diseased Liver, or an emaciated and suffering Dyspeptic.

Then of what immense importance to this class of invalid that a certain and reliable remedy should be placed within their reach; one in which no baneful or injurious drug enters into its composition; a remedy on which the patient can rely with the utmost confidence and certainty, and be assured from actual and tangible proofs that the article he is using really possesses the virtues attributed to it. Such a remedy as "HOOFLAND'S GERMAN BITTERS." Thousands of dollars have been expended in its manufacture and diffusion throughout all parts of this continent, and the proprietor feels the greatest satisfaction in stating that there is no state, county, or even village, where the Medicine has been introduced, that there cannot be found numbers willing testify to its virtues. Introduced, that there cannot be found numbers willing testify to its virtues.

It is used constantly in the practice of a large number of the most prominent Physicians in the country, who have also added their written testimony in evidence of its great virtues. In conclusion, then, we would respectfully ask of all those afflicted with any of the above diseases to give the Bitters a trial, and rest assured it will never be regretted. In proof of the statements above made, all are invited to read attentively the Almanac published annually by the proprietor, for Farmers and Pamilies, containing a great number of useful receipts, in addition to the testimony in favor of the Bitters, from the most prominent and well known individuals in all parts of the Union. All Agents for the Eitters are authorized to distribute the Almanac grantitionsly, Principal Office and Manufactory, 96 Arch street, Philadelphia, Pa.

A OURE WARRANTED.

Dr. AMOS & SON-have devoted their attention exclusive ly to this peculiar class of maladics, and the relief they have consequently been enabled to render to their fellow-creature is fully testified and greatfully acknowledged by convalescent patients and others daily arriving in town from all parts of the country, for the express purpose only or consultations while their exertions have been crowned with the most argual advantages; yet from what they have experienced inquiring into the causes of these infectious complaint (from their most simple condition to that of the most dangerous and inveterated) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the most horrible and manganat forms of disease could almost always be traced to one of the following causes:—Ignorance, neglect, or the ill effects of unskifful and improper treatment; therefore, Dr. AMOS & SON have succeeded in discovering, in the selection of their remedies, a safe, effectual, and cautious course; omitting all combination of remedies which bear an equivocal character, as well as those whose premature or injudicious application might be productive of bad consequences in the hand; of private individuals. In short, the laudible end of their remedies is the lessening of a great mass of human misery by the atleniation, relief and prevention of those grievous at flictions that are in reality the secret foe of life, and which, while they so extremely surround us, call aloud for our skill and interference for their extermination.
