Report of the Visiting Committee of the Mercy Hospital. The undersigned committee, appointed at the instance of the Managers of the Mercy Hospital, to visit and examine that institution, take pleasure in expressing to its patrons, their approval of its general management, and their high opinion of its usefulness to the community. A thorough examination of the building and grounds satisfies us that its arrangements and situation are admirable for the purposes intended, and that perfect order and neatness prevail throughout its interior. The statistics, which are embodied in the general report, explain the extent of its operations, showing:

Total number of patients admitted from January, 1857. tc February, 1858..... Patients discharged cured during the same Remaining in Hospital Feb. 14, 1858.... 20 Of the above there were non-paying or char-Patients who paid about one third fees... 20

Patients who paid full fees...... 40 The number of non-paying or charity paients, as compared with the whole number received and treated during the year, establishes the character of this institution, as truly a house of mercy to those who have enjoyed its benefits. Referring to the statement, included in the report, of the receipts and disbursements of money during the period named, one fact arrested our attention most forcibly. It is the average cost of treatment of each patient per week or per annum, which is so small compared with the benefits received, of medical treatment, kind and constant nursing, food, medicines, washing, &c., and which so clearly shows the great claims this institution has upon the charitable and henevolent with whose contributions

to it so much good can be done at so small a The self-sacrificing spirit of devotion of the good Sisters in charge, to the care and attention of the sick without fee or reward, save that which they hope for in eternity-while it is but a part of the purpose of a life, withdrawn from the world, and devoted to charity, may be cited as one of the principal reasons why this institution may be conducted so economically. The medical attendance furnished the patients of this institution is certainly equal in point of cured anywhere, and a high meed of praise i

talent and experience to any that could be produe to Drs. Bruce, M'Meal Pollock and Shenck for their valuable and gratuitous aid to the Hos-The resident medical student, J. Campbell Shorb, has charge of the patients during the absence of the attending physician, and throughout the entire establishment the regulations and facilities to furnish the sick and suffering poor with proper treatment, nursing and care are For those who wish to avail themselves, when

are able to pay for the same, ample accommodations may be had in the Hospital, with private apartments, and separate attendance, at a moderate charge.

Believing that this and all kindred institutions have their origin in that spirit of charity which the holy teachings of religion inspire, and in the exercise of which all are brought together in at least one good work, we most cordially commend the Mercy Hospital to the benevolent and char-

itable, as one of the most useful and meritorious institutions in our midst. JOHN S. COSGRAVE, WM. H. SMITH, JOHN P. PEARS, N. GRATTAN MURPHY.

Row in a Beer Hall. night, during which a young man named William O'Rourk attempted to stab a German named George Denning. The parties were in the beer hall together and, from some cause, quarrelled and began to scuffe, when O'Rourk drew a knife and struck repeatedly at Denning, but did not succeed in wounding him. A constable was passing, who arrested O'Rourk and took him before Alderman Donaldson. Denning re fused to make any charge, having been intimidated, apparently, by the threats made by O'Rourk, who was fined five dollars for disorderly conduct, and in default committed ten days to jail. While in the Alderman's office the prisoner made an attempt to escape through the store in front, which was frustrated. On leaving the office he again made an attempt to evade the penalty by taking to his heels, and was nearly successful, the German who was assaulted aiding him by seizing the officer, and endeav-oring to hold him. He was secured, however, and safely lodged in jail.

Theatrical Benefit of Lucille. Great proparations, we hear, are making to give Miss Lucille, whose name is up for the evening, a benefit, and independent of her own claims, the "bill of fare" is uncommonly rich for the night. The ever attractive "Three Fast Men" presents ad ditionel attractions in songs and dances; and to add to the Minstrel scene, Miss Lucille has offered as a prize a silver cup to the author of the best original conundrum, to be decided by a competent committee of gentlemen appointed for the occasion. Undoubtedly this offer will bring out much that is witty and laughable, which will add much to the scene, that of itself is always laughable. Miss Helen appears in two new songs and dances, and the laughter-provok ing "Jerry" is sure to keep the people in a roar. As to-night for Lucille's benefit and to-morrow night for Helen's completes the time allotted for the Fast Men, we hope all will improve the occasion to give

Penn Street Crossed at Last .- The readers of news papers have for a long time been obliged to peruse numerons articles on the "Penn street Crossing." But this vexed question is now settled, for the present at least. A temporary track was completed across Penn street on Wednesday, and on the same night a train of care, drawn by the locomotive "Resolute," under the management of Mr. James Semple, ran over. Yesterday the passenger train crossed when necessary. No freight trains have as yet made the transit. As soon as ground thaws out sufficiently the present track will be removed, and a more permanent one will be laid. This will be done n the course of a month.

We observe by the Armstrong "Democrat" that the citizens of Kittanning, having become alarmed by the numerous fires which have taken place in their town and vicinity of late, have concluded to purchase a fire engine, and have appropriated \$2,000 for that purpose. A committee has been appointed to visit Philadelphia for the purchase of one. Had this measure been adopted a few months since, the Court House of Armstrong county, which was destroyed by fire a few days since, might have been saved. Perhaps our fire department would sell them an engine. Propositions have already been made to

Lecture by Hon. Joseph R. Chandler .- This distinguished gentleman will lecture in the basement of St. Paul's Cathedral on Wednesday evening, March 17th, (St. Patrick's Day.) From the high character of Mr. Chandler, we deem it unnecessary to urge upon our citizens the propriety of attending his lecture. Besides, the proceeds are for the benefit of the orphans, and we hope the lecture will be well attended. Price of tickets, twenty-five cents—to be had at Quigley's, Fifth street, and at the door.

Funcy Dress Party .- All who desire to enjoy themselves in good old fashioned style, by indulging in "the mazes of the dance," would do well to pay a visit to Neville Hall this evening. Professor Cowper gives one of his popular fancy dress balls. From what we hear among our young acquaintances, we anticipate a fine affair. Those gatherings are usually well attended, and those who go, always come away

MEDICAL. ONLY ONE BOTTLE

DR. SANFORD'S INVIGORATOR Is REQUIRED TO CURE ANY ONE troubled with tilver Complaints, unless the most desperate of cases, when the second bottle will, with searce a single failure, reskrive the patient to health and vigor. We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician who has used it in his practice for the past twenty years with a success almost credulous, that it is entirely vegetable, being composed wholly of girms.

Some intra of the strength of these guma may be formed when it is known one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

We know there is nothing now before the Americae public, prepared with such skill by a scientific man, particularly for disease of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attatued a reputation second to no other article in the world, simply because it rest on its own merit. To convince all by trial that it is all its proprietors claim it to be, if any of our readers are suffering from such diseases as are described in Dr. Sanford's advertisement, we know of know remedy that will so surely cure them as the Invigorator. TS REQUIRED TO CURE ANY ONE

The Invigorator cures Sick Headache. Take one or two teaspoonfuls at each attack and it will soon disappear. For an overloaded stomach, or when food rises or sours, take the an overloaded stomach, or when food rises or sours, take the Invigorator after eating, and it will not prove disagreeable or oppressive. For Hearthurn, Palpitation, or Difficult Breathing, take a tea-poonful once or twice daily. For Loss of Appetite, Languor or Listlessness, the medicine is invaluable. It will restore the appetite and make the food digest well. Nightmare, take a teaspoonful on retiring, and the demons of dream-land will all be fairles. After eating a heavy dinner, take a dose of Invigorator and it will relieve all oppression or fallness. In a Invigorator is a Liver Remedy of unequaled virtue, acting directly on that organ, curing Dyspepsia, Januilce, Billious Attacks, Dysentory, Piles, Worms, and all female Obstructions, for which it has no equal.

We know there is nothing now before the American putlic prepared with such skill by a scientific man, particularly for diseases of the Liver, as c.r. 8-mford's Invigorator, or
Silver Remedy. It has attained a reputation second to noother article in the word, simply because it rests on its own
merit. To convince all by trial that it is all its preprietors
claim it to be, if any of our readers are suffering from such
diseases as are described in Dr. Sanford's advertiseracht, wa
know of no remedy that will so surely cure theta an the
Invigorator.

There has lately been brought to our notice a medicine There has lately been brought to our notice a medicine that seems to possess wonderful, curative and healing properties in diseases of the Liver, Stomach and Digestive Organs. It came to us with so many testimonials in its favor that we have noted its effects is some of the worst cases of continual dibility, caused by deranged liver, and in every instance the effect was to relieve or give a permanent cure, Dr. Sanford's Invigorator, or Liver Remedy is what we refer to. We always have been creditious about cures by patent medicines, but we are convinced that this medicine, for family use, is not overrated by the heat of recommendation in this. Our advice is, for all troubled with Indigestion, Probility or Bowel Complaint, to get a bottle and try it; our bility or Bowel Complaint, to get a bottle and try is word for it, relief will be experienced.

BLESSINGS TO THE INVALIDS who use Dr. Sanford's Invigorator, for it will relieve them of their pains as soon as it is taken into their stomach. Pain and misery cannot exist when the Invigorator is used, for it will as surely drive them away, as daylight will banish darkness, of this there can be no doubt to these who try it, for it carries conviction with every dose taken. Another evidence is the thousands of certificates from those who are it or have been cured by rtificates from those who use it or have been cured by it 'ry one bottle, it it does not benefit, then we are mi PRIOR ONE DOLLAR PAR BOTTLE.
