Chastributing such valuable properties to this remedy, no rash or unwarrantable assertion is made, but is simply stated a fact; proven undeniably and conclusively by the extraordinary curse, and benefits derived from its mae, under the direction of its illustrious originator, Dr. Hoodland, among at classes of European society, and from the immense mass or testimony, from all parts of the American continent, accumulated during the last ten years, in the hands of the present proprietor. The prevalence of diseases to which the Gorman Bitters are adapted, it is with sorrow we say it, is almost universat; indeed there is scarcely a family throughout the whole extent of our country in which there cannot be found among its members that peculiar sallow and languist owned among its members that peculiar sallow and languist suffering dyspeptic.

Then of what immense importance to this class of invalid that a certain and reliable remedy should be placed within their reach; one in which no baneful or injurious drug on test into its composition; a remedy on which the patient can rely with the utmost confidence and certainty, and be assured rom actual and tangulie proofs that the article he is using testly possensed the virtues attributed to it. Such a remedy as "HOOPLAND'S GERMAN BITTERS." Thousands of dollars have been expended in its manufacture and diffusion throughout at parts of this continent, and the proprietor feels the greatest satisfaction in stating that there is a stone, and is entirely free from dust, we can promise safety speed and comfort to all who may favor this head with their scale, county, or even village, where the Medicine has been introduced, that there cannot be found numbers willing testify to its virtues.

It is used constantly in the practice of a large number of the most prominent Physicians in the country, who have also added their written testimony in evidence of its great virtues. In conclusion, then, we would respectfully ask of all those afficied with any of the above diseases to give the Bitters a triat, and rest assured it will never be regretted. In proof of the statements above made, an are invited to feed attentively the Almanac published annually by the proprietor, for samers and Tamiles, containing a great number of useful receipts, in addition to the testimony in favor of the Bitters, from the most prominent and well known in dividuals in an parts of the Union. All Agents for the Bitters are authorized to distribute the Almanac gratuitously. Principal Office and Emufactory, 9d Arch street, Philadeiphia, Pa.

Secret diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrotula and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only tail to care the diseases but rain the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

SELF ABUSE is another formidable enemy to health, for nothing olse in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thomsands of victims through a few years of suffering down to an untimety grave. It destroys the nervous system, rapidly wastes away the energies of life, causes montal derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wretched in body and mind, predisposed to Consumption and a train of evils more to be dreaded than death itself. With the fullest confidence of transposed continuous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to eatch and rob the unwary sufferers that millions have their constitutions ruined by the viecus pounds of quack doctors, or the equally poissones notrums vended as "Patent Medicines." I have carefully analysed many of these called Patent Medicines and find that learly poisson, which instead of curing the disease disables the system for life.

Three-fourtns of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the maleria medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardies of consequences.
