The prevalence of diseases to which the German Bitters are adapted, it is with sorrow we say it, is almost universal; indeed there is scarcely a family throughout the whole extent of our country in which there cannot be found among its members that pseuliar sallow and languar and and reliable remedy should be placed withit their reach; one in which no baneful or injurious drug enters into its composition; a remedy on which the patient can rely with the utmost condence and certainty, and be assured rom actual and tangible proofs that the article he is using feally possesses the virtues attributed to it. Such a remedy as "HOOFLAND'S GERMAN BITTERS." Thousands o dollars have been exponded in its manufacoure and diffusion throughout all parts of this continent, and the proprietor feels the greatest satisfaction in stating that there is no state, county, or even villa state, county, or even village, where the Medicine has be introduced, that there cannot be found numbers willing

introduced, that there cannot be found numbers willing testify to its virtues.

It is used constantly in the practice of a large number of the most prominent Physicians in the country, who have also added their written testimony in evidence of its great virtues. In conclusion, then, we would respectfully ask of all those afflicted with any of the above disasses to give the Bitters a trial, and rest assured, it will never be regretted. In proof of the statements above made, all are invited to read attentively the Almanac published annually by the proprietor, for Farmers and Families, containing a great number of useful receipts, in addition to the testimony in favor of the Bitters, from the most prominent and well-known individuals in all parts of the Union. All Agents for the Bitters are authorized to distribute the Almanac gratuitously. Principal Office and Manufactory, 98 Arch street, Philadelphia, Pa.

weakness, dimness of vision with peculiar spots appear in
before the eyes, loss of sight, wakerulness, dysperais, liver
diseases, cruptions upon the face, pain in the back and head,
female irregularities and all improper discharges from both
sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is
certain, and in a shorter time than a permanent cure can be
effected by any other treatinent, even after the disease has
baffied the skill of eminent physicians and reasted all the r
means of cure. The medicines are pleusant without odor,
causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the Jaws
of death many thousands, who, in the last stages of the
above mentioned diseases had been given up to die by their
physicians, which warrants me in promising to the afflicted,
who may place themselves under my care, a perfect and
most speedy cure. Secret diseases are the greatest enemies
to health, as they are the first cause of Consumption, Scrofuta and many other diseases, and should be a terror to the
human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompotent persons, who not only fail to cure the diseases but
rain the constitution, filling the system with mercury,
which, with the disease, hantons the sufferer into a rapid
Consumption.

But should the disease and the treatment not cause death speedily, and the civame and the treatment not cause death speedily, and the victim marries, the disease is ontailed upon the children, who are born with feeble constitution, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other after tions of the skin, eyes, threat and lungs, entailing agent them a brief existence of suffering and consigning them to a party care.

The treatment they adopt is the result of upward of thirty years' extensive and successful practice in London. The most inveterate cases of venereal Diseases eradiated in eight or nine days, and cases of a slight nature in two or three days, at a moderate expense. The cure effected without confinement or hindrance from business; also, nodes and pains in the bones and limbs, effectually eradicated.

Dr. AMOS & SON have devoted their attention exclusive ly to this peculiar class of maladies, and the relief they have consequently been enabled to render to their fellow-creature fully testified and greatfully acknowledged by convales centpatients and others daily arriving in town from all part of the country, for the express purpose only of consultations while their exertions have been crowned with the most deningerous and inveterated) they have experienced inquiring into the causes of these infections Complaint (from their most simple condition to that of the most deningerous and inveterated) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the most horrible and mangmant forms of disease could almost always be traced to

SON have succeeded in discovering, in the selection of the romedies, a safe, effectual, and cautious course; omitting at combination of romedies which bear an equivocal character as well as those whose premature or injudicious application might be productive of bed consequences in the hands of private individuals. In short, the laudible end of their remedies is the lessening of a great mass of human misery by the atleniation, relief and provention of those grievous affections that are in reality the secret fee of life, and which, while they so extremely surround us, call aboud for our skull and interference for their extermination.
