We publish this morning our regular weekly report of family marketing, carefully corrected: DRS. C. M. FITCH & J. W. SYKES, Country Items. A descent was made upon the house of Henry Stetler, in McKean county, last week, resulting in the arrest of Stetler and his son, and the seisure of about \$6,000 in counterfeit coin, a large amount of metal for manufacturing bogus money, plaster paris for making moulds, chemicals, recipes, and directions for pursuing the work—in fact everything necessary for conducting a bogus mint on an extensive such The PITTSBURGH GOARD OF TRADE AND PITTSBURGH THEATRE. troubled with Liver Complaints, unless the most desperate of cases, when the second bottle will, with scarce a single failure, restore the patient to health and vigor. We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician who has used it in his practice for the past twenty years with a success almost credulous, and that it is entirely vegetable, being composed wholly of gums.

Some idea of the strength of these gums may be formed when it is known one bottle of the Invigorator contains as much strength as one hundred doese of Calomal without any of its deletrious effects.

We know there is nothing now before the American public, prepared with such skill by a scientific man, particularly for diseases of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the world, simply because it rest on its own merit. To convince all by trial that it is all its proprietors claim it to be, if any of our readers are suffering from such diseases as are described in Dr. Sanford's advertisement, we know of know remedy that will so surely cure them as the Invigorator. PILES. STEAMBOATS. SOAP, manufactured by B. C. & J. ii. Eawyer, re-SOAP, manufactured by B. C. & J. ii. Sawyer, receives the preference over all other kinds ever offered for tamily use.

It advantages over other Soaps are:—lat. It is cheaper to use, one pound being equal to three of common rosin Soap. 2d. Half the time need only be occupied in washing when this Soap is used in place of other Soaps. 3d. Labor in washing can be nearly dispensed with as the clothes will require little if any rubbing, thus avoiding their wear on the wash-board, 4th. Boiling the clothes is unnecessary when this Soap is used, and hard or salt water answers equally as well as soft. 6th. Printers, Machinitas, Painters and otners, find it far superior to other Soaps. It speedily removes grease, tar, paint, printers' ink and dirt from the hands, leaving the skin sot, and free from chapping.

To avoid the labor of rubbing the clothes, and the use of the wash-board, the following directions should be followed:

For the washing of eight or ten of a family, take one pound of Soap, cut it into shavings, and dissolve in one gallon of hot water; put the clothes not a tub containing about ten gallons of warm water; pour in the alissolved soap, and stir thoroughly. Let them soak twenty to thirty minutes, wring out, and rinse in warm water once, cold water twice. A very dirty wrist-band, or seam, or greases spr 1s, may require a slight rubbing, but otherwise the cooties will come out clean and white, without rubbing or beiling. Cold water may be used in place of hot, requiring about double time in soaking.
