The prevalence of diseases to which the German Bitters are adapted, it is with sorrow we say it, is almost universal; indeed there is scarcely a family throughout the whole extent of our country in which there cannot be found among its members that peculiar sallow and languard appearance denoting a diseased Liver, or an emaciated and suffering Dyspeptic.

In proof of the statements above made, all are invited to read attentively the Almanac published annually by the proprietor, for Farmers and Families, containing a great number of nasful receipts, in addition to the testimony in favor of the Bitters, from the most prominent and well known individuals in all parts of the Union. It matters not from what cause the disease originated, nowover long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has bailled the skill of eminent physicians and resisted all the rimeans of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the juwa causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Cousumption, Scrofula and many other diseases, and should be a terror to the numan family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the lands of incompetent persons, who not only fail to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption. Consumption.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Serofula, Tetter, Ulcers, Eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering and consigning them to appearly grave.
