PHILATELPHIA, 3d ma., 20, 1500. Respectat Friend-1 had for several years been afflicted with Dyspepsia, and occasionally a General Duility incidentally tried thy medicine, Hoofland's German Bitters, in the first place upon a daughter, she having a devere spall or sickness. Thy Hoofland's German Bitters had such offeet upon her general debility, that I was induced to my it my self. I then got a bottle, and used it according to the direct tions, and it relieved me more than anything I had before used, giving general tone and strength to the stomach and system. Last fall I had a very sovere spell of the Diarrheen, despaired of. Thy bitters again being used, acted very hoppily open the stomach and intestines, and soon relieved inc to the system. I consider it, doctor, one of the most valuable medicines I ever med, and shall take great pleasure in

many of our businers men who do not advertise. There are some, it is true, who advertise, and liberally too, but there are a great many whose names and papers. We ask why is this? and we make the inquiry not because it would benefit us pocuniarilynot to impress upon their minds the fact that it would be of incalculable benefit to them, but to remind them that by each and all of them advertising their business in one or more of the journals pub-lished here, those journals would be made a valuable city directory, to which reference con'd at all times be made to escertain the business of our citizens. Let your names appear in the public prints, and ere long you will reap the benefit of it; the artention of capitalists would be attracted towards us, and they would begin to discover the advantages which we possess. Business men who desire to build up a trade, and do not advertise, endly neglect their own interests. A liberal show of means in business as in social intercourse, goes tar towards giving a man importance in the eyes of the world. A liberal display of wares and merchandiae will always insure patronage at home, and those who expect to secure custom from abread, most inform strangers from abroad of what they have to sell, by keeping their business in the newspapers. Expensely is it important at this season of the year, just as the spring trade is opening, and now supplies of goods are om ing in Agula we argo it upon our business men to

LOCAL AFFAIRS.

Advortising.

The Infernal Machine Case. Aco, rding to promise, Judge M'Clure delivered his decision on the motion for arrest of judgment in the ease of the Commonwealth vs. William Smith, year terday morning. Smith was convicted of assault and battery with intent to kill, by means of an in-fernal machine. The decision read by the Judge was a short but able document. The Judge disposed of cach of the reasons set forth in the application reparately. He declared that the indictment was valid, and that the Court detected no irregularities in it which continued for some time. My life, for a a time, was the concluded the charge by replying to the plea for described of. The litters main being used, acted very hope morey in favor of Smith, reflected upon the enormity of the crime, and of the dreadful consequences which how the great pain I saffered, and gave me general health | might have ensued had it not been for the intervention of Providence. During the long time the torpedo remained in the shop before it exploded, he was not touched with remorse, and it would be only an abuse of the power of the Court to extend any mercy to such a man. Therefore the Court would not do it; indeed such a request should not have been made. The motion was overruled, and the prisoner sentenced to the Peritentiary for three years, the full extent of the law. Smith looked very feeble from ill health since his confinement in jail, and it is scarcely probable that he will survive a term of three years' solitary confinement in the Penitentiary. The crime might have been a terrible one, and the punishment is not any too severe.

The First Ward School Case. We have before referred to the petition which was recently presented to the Court of Common Pleas by Mr. Collins, asking for no order to be installed as School Director in the First Ward, an office to which his house repaired, and moved away temporarily, Deraugement of the Stornach and Liver, we can recommend | giving notice of the facts. During his absence, Mr. Collins (though whether he was aware of the circumstences or not we are unable to say) presumed there was a vacancy in the Board, and, ambitious of the honor, had tickets printed, ran for the office, and was elected. Mr. Murphy soon after the election returned, and the remainder of the Board would not recognize Mr. Collins as a member—alloging that Murphy was still entitled to his seat. Mr. Collins concluded to test the matter, and presented the petition as above stated. The matter was before the Court yesterday, the action of the Board of Directors was sustained, and the petition dismissed at the cost of the prose cutor. As the office is one purely of honor, no sal ary being attached to it, the payment of these exits

will be rather disagreeable to Mr. Collins. ----Fruit.-We learn that, as a general thing in this locality, the fruit is but little affected by the cold weather we experienced last February. It is said by these who have taken the pains to examine, that, un less hereafter destroyed, there will be an abundance Men, Boys and Youth's of every variety of fruit. The peach buds, as they swell, indicate that the trees will have as many blos soms as is consistent with the future growth of healthy fruit, should the tree be preserved. the weather is as delightful for out-door occupation as we could wish, yet it is quite cool enough to prevent the too rapid formation of the buds and blos soms. But we still have our fears. It is almost to much to expect that we should be favored with the tender delicacies in the shape of fine fruits, which we indulged in het year, in the same abundance and quality this year. A night but a little colder than Monday night would seen reader an abundant fruit crop doubtful, yet we hope we may have quite a sufficient for all demands.

A Perfect Hereutes. - I we men named Daniel Fee-cie and H. Ward got into a fight at a house on Washing. ton street, on Monday night; when the watchmen were called, Ferrio resisted, and it was with the atmost difficulty he was arrested. He was not secured until the services of six or eight watchmen were called into requisition. Ward was peaceable and went quietly. When Forrie got to the watch house, he refused to go into a cell, stripped himself to the shirt, tied his belt around him and defied the whole body of police. He was finally secured and locked up. Yesterday moraing the Mayor flued him ten dollars for disorderly conduct, which he was anable to pay, and was accordingly sout to jail. As he is such a troublesome customer, it might be well to de prive him of his strougth in the same manner has Sampson was treated—by clipping off his hair.

Assault and Battery.—A Gorman named Frederick Fishork, residing on Liberty street, was held to built by Alderman Parkinson, on Monday, charged with seault and tattery on oath of Dr. Ankrim assault was not a very aggravated one, as it seems Figherk was washing the window of a bar-room, and threw some water on the Doctor for sport, which he did not like, and a cordingly entered suit. Cases so tritling as this should be dismissed at once by the magistrate before whom they are brought up. The Court has enough important cases to attend to, without being annoyed with such trifles.

Enforcing City Laws .- As the season is now appreaching when the sanitary regulations of the city equires that the streets and sidewalks of kept clear. Mayor Weaver has declared his intention of having the city ordinances in relation to the cleaning of the sidewalks every Tuesday and friday mornings, strictly enforced. There is also another regulation concerning obstructions on the streets, dry good box es, &c., on the pavement, which will be rigidly car ried out. The Mayor is determined to punish all offenders against these regulations.

Walnut dall is the place for good things. Col. Fricker sees to it that his guests want for nothing Daily he receives all the delicacies which the hastern narkets can afford, by Adams' Express. If you want a good meal, go to Walnut Hall; if you want a fine fresh fat shad, go to Mr. Fricker; if you wish the finest pickles, preserved fruits and catsups, Wal nut Hall is the place to go to. It is a gem of an eating saloon, and in all respects is admirably served.

Fined for violation of a City Ordinance. - A cloth as morehant on Market stroot, named Henry Openheimer was fined two dollars and costs, by the Mayor yesterday, for violating a city ordinance, in pening and using a fire plug on Market street. The ordinance provides that no person shall open any fire plug, without first obtaining a permit from the Superintendent of the Water Works, which Oppen hoimer neglected doing.

Missing .- A boy named James M'Neal, only five years old, whose parents reside on Lacook street, Allegbeny, left home yesterday morning and has not returned. He was drossed in tweed pants, gingham apron, cloth cap, and had on a pair of boots. Any one seeing him will confer a favor by informing his parents, at the corner of Lacock and Federal streets. -----Sale of Stocks .- The following stocks were sold last evening at the Commercial Sales Rooms, No. 54

A Dangerous Predicament .- On Monday evening, a watchman was accosted by a gentleman standing at the Monongahela House, and informed him that there Advertising.

We cannot conceive why it is that there are so would be drowned. He went down and found James Doran and Benjamin M'Callister, both intoxicated in the river, between a steamboat and the shore They had been fighting on the plank of the boat, and places of business do not appear in any of the city had fallen off into the river, and were so much under the influence of liquor as to be anable to get out themselves. They were rescued, taken to the watch house dripping wet. Yesterday morning the Mayor committed thom for five days each.

Sheriff's Office, April 5th, 1858.—app:2td*1tw To Carpenters Wishing to Visit the West. GENTLEMAN, NOW IN WASHING TON, has sent to the Editor of this paper, the Plan and specifications for finishing a Church, in the town of Plattsburg, Misson, where he resides. Circumstances have prevented him from visiting this city, as he designed to do, the state of substitution the references and contracting with a view of submitting his references and contracting for the work. They may be seen at this office, however where proposals will be received for one week. The opp runity is deemed a favorable one—especially to any gord workman who may have an inclination to look at "the Great West," whom we will cheerfully recommend [apc.1w]

TEAMBOAT FOR SALE.

The steamboat GRAND TÜRK, has been thuroughly repaired and is in complete order, and is in every respect a B No. 2 boat; her class being the same as when now All contracts for repairs to the boat have required all work to be done in the best possible manner, subject to the approval or rejection of an exsible manner, subject to the approval or rejection of an ex-polenced steamboat builder. These contracts have been properly executed, and she is now offered for sale as com-plete and worthy of the attention of parties wanting a firstte steamboat.
She is 150 feet long, 33 feet beam, and 5½ feet hold—is

very well timbered and fastened, and sound and severy particular.

PowEe—Three boilers 24 feet long, 38 inches diameter cylinders 18½ inches diameter, with 5 feet stroke, and is known to be a PAST boat; is supplied with a nigger engine.

Capaciti—Will carry 550 tons.

Draws 26 inches water; has a very line cable.

Trems—Une-fourth cash; balance in good apposed endorsed paper at 6, 12 and 18 months, with interest; or more liberal if required, upon andoubted security. Apply to ap3:2w CAPT. MARK STERLING. THE CHEMICAL OLIVE ERASIVE SOAP, manufactured by B. O. & J. II. Sawyer, re-receives the preference over all other kinds ever offered for receives the preference over all other kinds ever offered for family use.

Its advantages over other Scaps are:—1st. It is cleaper to use, one pound being equal to three of common rosin Scap. 2d. Half the time need only be occupied in washing when this Scap is used in place of other Scap. 3d. Labor in washing can be nearly dispensed with as the clothes will require little if any rubbing, thus avoiding their wear on the wash-board. 4th. Rolling the clothes is unnecessary when this Scap is used, and hard or sait water answers equally as well as soft. 5th. Printers, Machinists, Painters and others, find it far superior to other Scaps. It speedily removes grease, tar, paint, printers' ink and dirt from the hands, leaving the skin soft, and free from chapping.

To avoid the labor of rubbing the clothes, and the use of the wash-board, the following directions should be followed:
For the washing of eight or ten of a family, take one To avoid the failor of rubbing directions should be followed:

For the washing of eight or ten of a family, take one pound of Soap, cut it into shavings, and dissolve in one gallon of hot water; put the clothes into a tub containing about ten gallons of warm water; pour in the dissolved Scap, and sir thoroughly. Let them soak twenty to thirty minates, wring out, and rinse in warm water once, cold water twice. A very dirty writer-band, or seam, or grease spots, may require a slight rubbing, but otherwise the clothes will come out clean and white, without rubbing or boiling. Cold water may be used in place of hot, requiring about double time in soaking.

OBS Observe our name on each bar.

For sale, in any quantity, at our warehouse, No. 47 Wood street, and at our works, opposite the Round House, Pennsylvania avenue.
