THE REASING BILLEA CONCREMENTE. CORMPTER AGREED TO BY THE LOUSE

Yesterday, the resolution of the Senate in sisting upon a committee of conference was communicated to the House, and Mr. Mont_ gomery moved that the House insist upon its motion to adhere, and moved the previous question, which was lost by a tie vote, the Speaker voting in the negative. Mr. English then moved that a committee of confers ence be appointed on the part of the House, and the vote being taken stood 108 to 108. and the Speaker gave his casting vote in the affirmative. So the House agreed to a committee of conference. The committee is not given in our dispatches, and we take it for granted that it was not announced by the Speaker previous to the adjournment. The result of this conference will be looked for with the utmost interest and anxiety all over the country. We trust that their report will be of such a character as shall enable Con stance gress to fairly, honorably and finally settle the matter.

THE DAILY POST-OUR LEGISLATIVE NEWS, der

Since the present session of the Legislature commenced, the readers of the Post have been furnished daily with special telegraphic dis patches from Harrisburg, prepared and forwarded by a gentleman of thorough competency, and containing all desirable informa tion respecting all general bills which were under consideration, as well as all local matters in which our community had a direct interest. Every morning we have given to our readers the proceedings of the previous day at the State Capitol,-thus obviating the necessity of a regular Harrisburg correspondent. and giving the news a day earlier than could be done by letter. It has been excensive to us, for we have had to pay for this news in addition to the regular telegraphic dispatches of the associated press, but we are satisfied that the investment has been a good one.
