covering the loss when it occurs In all kinds of commerce and trade the idea of chance is a prominent element. The merchant sends his well-stored ships to sea, and takes the chances of air and ocean and piracy and war and mutiny and the fluctuas tions of foreign markets, all into his calculations. If luck attends, if fortuce favors, if a good Providence smiles upon his ventures, he gets a good profit—if all these things work against him, he loses. . Nothing venture,

nothing have," is his motto. The banker lends his money upon the b st security he can get, and takes "for a consideration" the risk of his client's honesty and ability to meet his promises to pay. The buyers and sellers of stocks take the risk of a rising or falling market; the wholesale dealer in flour or becom or iron lays in his stock, and takes the chances of improved prices; the farmer casts his seed into the earth, and takes the chance of the season for his crop-a to life, our duty requires the use of judgment, prudence, care, consony, foreth aight, all the beyond and above them all
