THE "DARK LASTESN" TO BE REVIVED.

Despairing of gathering their forces again by the cry of "Bleeding Kansas," which the Compromise Bill, passed on the 30th of April. has taken away from the nameless and unnameable party which is arrayed in o position to the national Democracy, the leaders of that party are desperately searching around for something, no matter what, to arouse their disheartened forces, and, if possible, to make them show some little evidences of vitality. Having no p.inciples upon which to reconstruct their disorganized elements into something which may pass for an independent existence, the indications are that the old game of addressing their efforts to the prejudices and excitable feelings of mankind, rather than their judgments and understandings will be resorted to. We shall not be in the least astonished if our opponents in their desperate strait should attempt to revive and use for another campaign the cabalistic, dark lastern, untruthful, anti-republican, riotous and murderous schemes of Know-Nothingism. We Pittsburgh, Fort Wayne and Chicago had thought that the patriotism and common sense of the masses had extinguished the vile these ignus fatuii lights to vanish into nothingness, but we find, yesterday, a couple of articles, one in the Journal, and the other in in their tenor and tendency, that we are com-
