Its advantages over other Soaps are:-lst. It is cheaper to use, one pound being equal to three of common rosin Soap. 2d. Haif the time need only be occupied in washing when this Soap is used in place of other Soaps. 3d. Labor in washing can be nearly dispensed with, as the clothes will require little if any rubbing, thus avoiding their wear on the wash-board. 4th. Boiling the clothes is unecessary when this Soap is used, and hard or sait water answers equally as well as solt. 5th. Printers, Machinists, Painters and others, find if far superior to other Soaps. It speedily re-moves grease, tar, paint, printers' ink and dirt from the hands, leaving the skin solt, and free from chapping. To avoid the labor of rubbing the clothes, and the use of the wash-board, to the following directions should be followed : For the washing of eight or ten of a family, take one poand of Soap, cut it into shavings, and dissolve in one gallon of hot water; put the clothes into a tub containing about ten gallons of warm water; pour in the dissolved Soap, and stir thoroughly. Let them soak twenty to thirty minutes, wring out, and rinso in warm water once, cold water twice. A very dirty wristband, or seam, or grease spots, may require a slight rubbing, but otherwise the clothes will come out clean and white, without rubbing or boiling. Cold water may be used in place of hot, requiring about double time in soaking. *Are* Observe our name on each bar.
