

JAMES B. BARR, Editor and Proprietor.

PITTSBURGH: TUESDAY MORNING, MAY 25, 1888.

DEMOCRATIC STATE NOMINATIONS.

FOR SUPREME JUDGE, WILLIAM A. PORTER, OF PHILADELPHIA.

FOR CHIEF JUSTICE, WESTLEY FROST, OF PITTSBURGH.

THE FIRST PAGE.

The first page this morning contains some interesting reading matter, to which we direct attention.

The contents are: Letter of Col. J. J. Davis, on the Kansas Question; Brutal Murder; A Romance of Real Life; An Old Weapon, &c., &c.

An Afternoon Edition of the Post.

We shall commence today issuing a second edition of the Post in the afternoon.

We have for a long time contemplated doing this, and after mutual consultation we have decided that such an issue will be for the advantage of both the public and ourselves.

Our plan briefly is this: The arrival of the mails and the reception of the news by telegraph is so timed that we are in possession of much important news in the early part of the day, which in common with all the morning papers, we have heretofore been accustomed to hold over until the next day.

This course has proved unsatisfactory to ourselves and to the public, who always desire the news as early as they can possibly obtain it.

In issuing a second edition every afternoon, we shall in no wise interfere with our regular morning edition.

The afternoon issue will contain the matter of the morning paper, and in addition thereto, the telegraphic news of the day up to two o'clock, the local occurrences of the city up to that hour, and such news by the morning mails as we may deem interesting and important to our readers.

It is not our desire to initiate our scheme with promises. We simply wish to announce our intention, leaving the public to judge of our second edition for themselves.

We are furnished with newspapers and sold at two cents per copy, but as the matter contained in it will appear in the morning paper of the next day, we do not wish any other subscribers than those by the week to the carriers, who will furnish weekly subscribers at TEN CENTS A WEEK.

We do not wish to be considered as coming in competition with any established journal. It is our object to give all who may wish to purchase the Post in the afternoon an opportunity of obtaining it at the latest news.

The advertisements of the morning issue will have the benefit of the increased circulation of the afternoon edition, without additional cost to the advertiser.

The experiment will lay us under increased expense, especially for telegraph news, for which the Post will now pay double the price paid by any paper in the city, but we look to the increased circulation of the Post, and its increased advantages as an advertising medium to compensate us for this.

In other cities, the morning press issue second, third, and even fourth editions, with success, and we are determined to give the matter a fair trial in Pittsburgh. So be ready for the second edition of the Morning Post, to be issued at two o'clock today, containing all the latest news up to that hour.

The Remains of Gen. Persifer F. Smith.

We learn by special telegraphic despatches that the remains of Gen. Persifer F. Smith, who died on the 10th inst., at Fort Leavenworth, will reach this city on Wednesday (tomorrow) by the noon train of the Pittsburgh, Fort Wayne and Chicago Railroad, and that they will be taken hence for Philadelphia by the 9:50 o'clock express train of the Pennsylvania Railroad. This will give our citizens an opportunity of making a suitable demonstration of respect to the memory of this distinguished son of Pennsylvania.

It is eminently proper that the citizens of this State, and especially that our military companies, some of whom were compatriots with Gen. Smith in the Mexican war, should honor his memory by an appropriate ceremonial reception of his remains when they shall arrive here. In order that arrangements may be made for this purpose, the Mayor has issued a call for a public meeting of the citizens, to be held this afternoon at two o'clock, to which the military men of our city are respectfully invited. We append the call:

Public Meeting. Having received information that the remains of Gen. Persifer F. Smith will reach this city on Wednesday, the 26th inst., by the Pittsburgh, Fort Wayne and Chicago Railroad, and that they will not leave the city until 9 o'clock at night, an opportunity will be afforded to the citizens of Pittsburgh and the military companies of the city to make a suitable demonstration of respect to the memory of this distinguished son of Pennsylvania.

A public meeting will be held at the Mayor's Office this afternoon at 2 o'clock, for the purpose of making suitable arrangements for the reception of the remains and escorting them to some suitable hall, where the citizens may pay the last token of respect to the illustrious dead. The officers and members of the military companies are especially invited to attend.

HENRY A. WEAVER, Mayor.

The Dead Letter Office. During a single year in addition to some \$300,000 in money returned to its lawful owners, there have been found in the letters, and restored, drafts, checks and other valuable papers amounting to three and a half millions of dollars. In the greater number of instances dead letters which have thus been returned to the department, have failed to reach their destination in due course by reason of misdirection. This may doubtless be attributed to the hurry in which banks and large mercantile houses close up their correspondence for the day. One bank sends a letter containing \$100,000 in money returned to its lawful owners, inside the package is addressed to Nashville, outside to New Orleans. Another heavy remittance is directed to Troy, New York, without any address whatever on the inside. A third package was directed on the outside to Louisville, Kentucky; the inside direction to New Orleans.

Republican Nominations. The Black Republican papers still persist in denouncing Mr. English's Kansas Commission Bill as a "swindle," a "hoax," &c., &c. These papers should compare the documents before them making fools of themselves.

The Crittenden Amendment, which received the votes of the entire opposition to the President's policy in both Houses of Congress, donates precisely the same amount of government lands to Kansas as is offered by Mr. English's Commission Bill. Pick your bins and try again, Messrs. Republican Editors—your epithets stultify yourselves, and reflect upon your friends.

Widening Diamond Alley.

Messrs. R. E. McGowan, Andrew Fulton, Aaron Floyd, George Fortune and Christopher L. Magee, the viewers appointed to assess the damages likely to ensue to property holders by reason of the widening of Diamond Alley under an act of the last Legislature, met on Saturday last, and decided that the alley should be widened from Grant to Smithfield street, and appropriated fifteen feet at the Fifth street side. This will make Diamond street a thirty-five foot street to Ross street, being already of that width adjoining the Court House. The appraisers have assessed the damages for the property appropriated at \$1,500 over the benefits, which is to be paid by the property holders on the Fourth street side of the alley to the heirs of Thomas Liggett, Esq., who own the property there. This improvement will make Diamond street an excellent avenue to the Court House, and if the same width could be continued from Smithfield street to the Diamond, it would be one of the best cross streets in the city.

Acquitted. William Jones who was tried last week, at Washington, Pa., for the murder of Samuel H. White, was acquitted by the jury on Saturday last. He was defended by William A. Porter, Esq. of Greensburg, and James H. Hopkins and Jacob Siple, Esq., of this city. He was convicted upon a former trial, but the verdict was considered against the weight of the testimony, the court granted a new trial which has resulted in an acquittal. The mystery which hangs over this strange murder is still unexplained. The defendant is a brother of Charlotte Jones, who with Henry Wilson, was recently hanged in this city for the murder of a man. There is an old charge against Jones, and he was remanded to prison for trial for this offense.

The Monitor Iron Works, at Danville, Pa., were to have been sold by the Sheriff on Monday. Such facts speak louder than words of the necessity of better protection for the iron interests of Pennsylvania. The Monitor Iron Works are capable of employing twelve hundred men. Let us have some certain reliance for American labor. Senator Bigler and the Democratic Congressmen from Pennsylvania must attend to such facts as this.

Various Things. Two thousand dollars of Allegheny county Bonds issued to the Pennsylvania Railroad, were sold in Philadelphia on Friday at 45.

The clergyman who desired to convert the anti-slavery cause, are not disposed to settle down under the defeat they experienced at the last anniversary. They assembled on Thursday at the Church of the Puritans, in New York, and spoke of the necessity of a more vigorous effort to secure the abolition of the slave trade.

The Southern Pacific Railroad Company has exploded. It was purely a speculative affair, set up in New York City. Only ten per cent. of the \$3,000,000 stock subscribed, was taken up. The company was organized by Stollman, Allen & Co., New York, who, failing last fall, the company was forced to liquidate. The charter in Texas has been forfeited in consequence of the non-completion of twenty miles of road by the required period. A meeting of the stockholders has been held at New Orleans, at which the whole thing was exposed as a swindle.

From Washington. The special session of the New York Herald of Sunday, 23rd inst., is being written. The Secretary of the Navy has just issued orders to Commodore John Rodgers to proceed to the coast of Africa, to command the steamer Albatross, also Commander John Rodgers to command the steamer Albatross, and to proceed to the Gulf of Mexico, to command the steamer Albatross.

Another Alleged Swindle. The Southern Pacific Railroad Company has exploded. It was purely a speculative affair, set up in New York City. Only ten per cent. of the \$3,000,000 stock subscribed, was taken up. The company was organized by Stollman, Allen & Co., New York, who, failing last fall, the company was forced to liquidate. The charter in Texas has been forfeited in consequence of the non-completion of twenty miles of road by the required period. A meeting of the stockholders has been held at New Orleans, at which the whole thing was exposed as a swindle.
