

FOR SUPREME JUDGE, WILLIAM A. PORTER, OF PHILADELPHIA.

FOR CANAL COMMISSIONER, WESTLEY FROST, OF PAYETTE COUNTY.

On or outside, this morning, may be found an admirable original diary to the "Smo-Key." Read it.

The annual meeting of the Pennsylvania Editorial Union, which was to take place in Philadelphia on the 10th of June, has been postponed till October 2nd.

THE REPORT OF THE TARIFF INVESTIGATING COMMITTEE.

The New York Herald publishes this report at length. The object for which the committee was appointed was to inquire into certain alleged expenditures of money to secure the passage of the tariff bill of 1857.

The report, says the Herald, briefly but clearly sums up the reason for the objects of the committee, and the developments made by the investigation; but the committee have no further action to recommend on the part of the House, inasmuch as they have elicited no evidence incriminating any member of the body.

The Clerk of the Standing Committee on Finance has received a letter from a thousand dollars, but having resigned his post in the House, no further action was needed in his case.

Of the \$80,000 expended by the Massachusetts wool manufacturing firm of Lawrence, Stone & Co., in behalf of the tariff bill of 1857—and in view of the abolition of the protective duties levied upon the raw materials imported from abroad, but indispensable in the manufacture of woolen goods—this hands some of \$80,000 thus expended by the firm, the committee, with all their diligence, have failed to account for more than \$15,000.

The balance, \$75,000, more or less, which was put into the hands of the confidential agent of the firm, Mr. Wolcott, for lobby purposes, they traced to the pockets of Wolcott, where the investigation stops. The committee believe, however, that he was authorized to pledge any amount of money, however corruptly, to secure the great object of the firm; but while they believe this, they also believe that Wolcott appropriated the money to his own use, and that it forms a part of the capital of the new Boston banking firm of Gardner, Wolcott & Co.

The committee pronounce the evidence of the man Wolcott as "wilfully and corruptly false," and regret his discharge (discharged on bail) for the very satisfactory reason that this discharge at once frustrated the objects of the investigation.

Among the ascertained lobby money paid out by the firm of Lawrence, Stone & Co., the following items appear: J. N. Reynolds, of New York, \$1,000; Mr. D. M. Stone, of New York, \$1,000; Mr. Corbin, House Clerk Committee of Claims, \$1,000; Mr. Bliss, of New York, \$1,000; A gentleman lecturing among the members of the House, \$1,000; Mr. H. H. H. of New York, \$1,000; Geo. Abner, of Massachusetts, \$1,000; Theodore Wood, from Ezra Lincoln, \$1,000.

Then, it appears that Matteson (Thomas Beahm) made application for a small lobby fund of \$25,000, to be deposited in the hands of Horace Greeley, and to be used in the way of solid arguments for "free wool" among some twenty-five available members of the House. This money was not granted, however; nor was the application of the Chevalier Webb for the rent of his house and the lobby expenses thereof in Washington, because the firm "had no funds to devote to that purpose."

The granting of the Chevalier Webb's application would have amounted, perhaps, to a bill of \$25,000. It follows that if the firm did not actually give \$50,000 in rejecting the application of Matteson and Webb, the result was at least a saving of this amount to the lucky Wolcott.

Philadelphia Street Medical Society. The annual session of this body commences on Tuesday last. Dr. John L. Atlee, Sr., President, delivered the annual address, in which he alluded to the benefits of medical education and the progressive improvement in treatment. A committee was appointed to nominate officers for the ensuing year. Dr. Kennedy, of Philadelphia, being chairman. Reports were read to the effect that the medical profession in Lehigh, Northern-Lehigh, Bucks and All other counties, were not in a very good condition; some, in fact, being almost disbanded. Dr. La Roche presented a memorial from the Philadelphia Medical Society, asking to be allowed to read a lecture on the Hygienic Medicine. On this a long and able discussion was had, and the President, in a very able and interesting manner, proposed a resolution, to the effect that a general meeting of the Association, to be held in the city of Philadelphia, on the 10th of June, to discuss the question of the extension of the profession shall have the privilege of bringing to the attention of the Association, and that two societies for every 200,000 inhabitants. The attendance at the convention seems to have been very limited.

Extending the Session of Congress. The 7th of June is the day fixed for the adjournment of Congress, but a great effort will be made to extend the session to the 21st of June. Mr. Seward proposed it in the Senate on Thursday, and Mr. Smith, of Indiana, intends to propose it in the House. It is not improbable that such a proposition may prevail. Should the session be extended, it is understood that the Committee on Territories of the Senate will propose the admission of Duochat and Arizona as organized Territories.

Rev. Dr. Brewster followed by a most touching and beautiful prayer, which was followed by a prayer for the sick and suffering, and a prayer for the souls of the departed. The National Guards fired their usual parting volley, and the cortege returned to the city.

VARIOUS THINGS.

Last Monday week the quarantined by master departments at Philadelphia were commencing to get on their feet, and every description of the Government had been fitted out for the Coast army, and which have been long delayed for the purpose of the De-Sciency. The amount to be disbursed was about \$200,000, which was to be paid in installments upon the bills of exchange of Kansas and Missouri.

The Cincinnati Independent has published a list of 75 names of the members of the Bank of Cleveland since its re-organization. The list is a long one, and shows that the bank is now in a very flourishing condition.

The Charleston Democrat has published a list of the names of the members of the Bank of Charleston since its re-organization. The list is a long one, and shows that the bank is now in a very flourishing condition.

The experiments of Mr. Hingle will be the Atlantic cable was suspended, and the most sanguine hopes of a complete success of the enterprise are extinguished.

The Bureau of Census, Prof. P. Smith—An interesting article on the census of 1880, and the progress of the population of the United States.

The report of the Massachusetts wool manufacturing firm of Lawrence, Stone & Co., in behalf of the tariff bill of 1857—and in view of the abolition of the protective duties levied upon the raw materials imported from abroad, but indispensable in the manufacture of woolen goods—this hands some of \$80,000 thus expended by the firm, the committee, with all their diligence, have failed to account for more than \$15,000.

Rev. Dr. Brewster followed by a most touching and beautiful prayer, which was followed by a prayer for the sick and suffering, and a prayer for the souls of the departed. The National Guards fired their usual parting volley, and the cortege returned to the city.

The Episcopal Convention.

This body adjourned on Friday last. The next meeting is to be held in St. Andrews Church, Philadelphia, on the fourth Tuesday of May, 1887.

The choice of the Rev. Dr. Bowman, of Lancaster, as Assistant Bishop of this diocese, is a most happy one in all respects. He is a sincere Christian, a learned divine, and a man whose many virtues are well known to all who have the honor to know him.

The new Telegraph Loan. The Philadelphia Ledger has more justly in relation to the financial condition of our city than our New York contemporaries. In reply to a querulous communication from "An unfortunate bond holder" to its previous notice of the proposed new loan of \$500,000, the Ledger writes:

Without pretending to justify the city of Pittsburgh for the suspension of the payment of interest on the debt, we do not believe that any person inside of the city would wish to see a new loan of \$500,000, which would be a heavy burden on the city, and which would be a heavy burden on the city, and which would be a heavy burden on the city.

The Bureau of Census, Prof. P. Smith—An interesting article on the census of 1880, and the progress of the population of the United States.

NEW ADVERTISEMENTS.

GRAND RIVAL OF SPEED.—On Philadelphia, Pa., there will be a grand race of speed on the 15th of June, 1887. The race will be held on the Philadelphia Race Course, and will be a grand event for the people of Philadelphia.

HOUSE OF REPRESENTATIVES.—About twenty private bills were passed by the House of Representatives on Friday last. The bills were of various kinds, and included bills for the relief of various individuals, and bills for the amendment of various laws.

Further news from California.—New York, May 29.—Advice from California river confirms the recent accounts of the extraordinary amount of rainfall which has been reported from all parts of the State. The amount of rainfall is said to be the greatest since the year 1857.
