One day last week, an Irishman named Michael Gribben. appeared before Mayor Weaver and stated that he desired to make an information against a person for assault and battery with intent to kill. The Mayor took the information, which stated, in substance, that on Tuesday morning, the 25th of May, about midnight, he went to the Railroad depfor the purpose of taking passage on the Pittsburgh st Cleveland Railroad for Wheeling, where he resides. On a tiving there be found that the train did not leave for a hour or two, and concluded to go back to his brother-in-law's coalded to, in the Fifth ward. He started, and observed that the was followed by a colored man whom he had seen leite .eg about he dep t, and on reaching Zog & Painter's rolling mill. he was stunged by a heavy blow from a stone or slying shot in the hand of the black man. A man coming up at this time, his assailant ran, and he managed to get up and make his way to the house of his brother-in law. He was much injured, and it is thought his skull is fractured. warrant for his arrest was issued, and yesterday officers Reed and Knox succeeded in arresting him. He was er andried before Mayor Weaver yesterday afternoon and committed to juil to answer a charge of assault and battery His name is Edward Brown.

The Minsteris.—It is rather singular that in this city. where it is difficult for any company, however good, to draw full houses for more than six consecutive nights, the Morris. Pell and Trowbridge Minstrels should be able to perform here succeasfully for so long a time. This is their fourth week, and their houses are almost as full as when they first opened. On Monday evening, on the occasion of Mr. MBride's bouefit, the boxes were full, and last night Johnny store comprise 862 bbis. at \$3,021/4 for superfine, \$406,64,121/4 Pell had a good house. This evening a change of program we is announced, introducing several novelties, among which are "The Lost Child," "Jenny Lane," and "The Gladiator, They will also introduce a new Ethiopian medley, in which Il the company will take a part. The trained dog will also be on hand, with his master, Dick Sliter. Billy Morris, the tambo, takes his beneat on Friday evening, when a good bill will doubtless be presented. This week will, we believe conclude the season. On Saturday afternoon an entertainment will be given for the benefit of the ladies and children. when the prices will be reduced. THE WEATHER.-The EE'y to-day gives promise of fai weather, but we, in common with the rest of mankind, mave been so frequently deceived of late by appearances. that we cannot calculate with any degree of certainty on the state of the weather a few hours ahead. The clerk of the weather, we imagine, has been "on a spree" for the last few weeks. The following description will apply very well

It shines, it rains, Then shines again; What does the weather mean? It hangs in doubt,
The sun comes out,
It's drizzling mists between. Now dark, now light,

We know nothing of the merits of this case, but we do know that such cases are becoming entirely too frequent in our city, and that offenders who wilfully maltreat

Cony and Turner took a benefit last evening, and closed their brief engagement by playing to a good house. The performances of these gentlemen and their dogs are wonderful, but the must give way to a greater attraction this evening in 5the engagement of Mr. and Mrs. W. J. Florence, who will make their first appearance this season. They are great favorites here, and we have no doubt but they will be warmly welcomed. The bill for to-night consists of the drama of "Bryan O'Lynn," in which Mr. Florence sustains the leading character, the farce of "A Lesson for Husbands," in which they both make their appearance, and the farce of "My Precious Betsey." We think the house will be better filled

to-night than it has been for some time. HELD TO BAIL.—A man named George Barciay made information some days since, before Alderman Donaldson, against officer M'Combs and several other members of the night police, charging them with assault and battery, while taking him to the watch house, some ten days since. An examination was entered into yesterday morning, and the officers were all held to ball to answer a charge of assault SILK AND BUNTING FLAGS MADE TO ORDIGE

and battery at the next term of Court. CROSS SUITS .- At the Mayor's office yesterday afternoon, cross suits for assault and battery were entered by a cour tryman named Dillon, seventy years of age, and George Aurentz, proprietor of the Mansion House on Liberty street. A difficulty originated from Dillon driving a cart against a

wagon belonging to Aurentz, and a quarrel ensued. Both parties were held to bail to answer the charges. PERMANEST. -- Drs. C. M. Fitch and J. W. Sykes, who have been practising here with immense success during the past winter, in diseases of the bronchial organs, have, at the urgent solicitation of their numerous patients, decided on locating permanently in this city. Those afflicted with con-

sumption, or any similar affection, wishing to consult a physician, will do well to sall at their office on Penn street, opposite the St. Clair Hotel. TERRIBLE TORNADO.

WASHINGTON CITY, June 1 -The President sent to the Senate, in response to resolution, documents in relation to the Pauachita case. Among the letters is one from Mr. Dallas to the Earl of Clarendon, of Sept. 16th last, in which he says: "Against cach leading feature characterizing this transaction, the visit, search and seizure, the government of the United States has uniformly on all appropriate opportunities, for more than fifty years, oponly and of-fectually protested, as inconsistent with the law of nations, sanctioned by no treaty, subversive of the separate rights, and derogatory to the honor of independent communities. It was not the exercise of any fancied privilege of war, for a profound peace prevailed, and yet without pretence of beligerent necessity in respect to contraband or blockade, the property of the citizens of a friendly power was invaded and arrested, and the protection of their national symbol irreverently slighted. Captain Morsely's conduct, it appears, was disclaimed and censured, and he was withdrawn from the African station as unfit to be trusted there, and express orders were given by the Admiralty, which Mr. Dallas says must

prevent the repetition of such acts. The response of the President to the resolutions of the House calling for information relative to the outrages committed by British cruisers in the Gulf. is similar to that of the Senate, with a few additions verification of the visitations. It appears that where there is a newspaper or other tangible report in such cases, the State Department immediately writes to the Collector of Customs most likely to procure reliable information, for a sworn statement of the facts.

Lord Napier has desired that his desputches to
