THE TONNAGE TAX. On Thursday of this week a committee the Board of Trade of the city of Philadelphia is expected to be in Pittsburgh, to confer with our Board of Trade, the City Councils and the citizens generally, relative to taking action for a repeal of the Tonnage Tax: This movement at the present time we consider a wise and judicious one. The Legislature is not in session, and the subject can be fairly and calmly discussed. To our mind there is no doubt that the imposition of the Tonnage Tax is a serious injury to the commercial interests of Pennsylvania. It is discrimination against our own, and in favor of rival roads, and should be repealed. A consultation like that which is now proposed will have the effect of producing a fair understanding between our citizens and those of the East, not only in relation to the Tonnage Tax, but in regard to the necessity of the alleged discriminations against Pittsburgh freight by the Railroad Company. The principal difficulty upon both these questions consists in the fact that they are not well understood, and the present investigation and interchange of opinions will, no doubt, do great good. Last winter there was a great its influence upon the commerce of the State,

Harris, of Illinois, and Hughes, of Indiana, explicitely doubted each other's veracity in the House of Representatives, one day last week. We do not think anybody will be badly hurt. The weather is unwholesome for gun shot wounds.
