expired some weeks since. ceived this appointment, and was confirmed by the Senate on Thursday of last week, but we preferred to await the official promulga-

tion of it before announcing it in our columns. This appointment is one which meets the universal and unqualified approbation of the Democracy both of the county and the State. Col. Gibson is a Democrat with a pure record -a personal and political friend of Mr. Buchanan for more than a quarter of a century and has always been a firm and honest advocate of the best interests of the people. His qualifications for the office are in all

respects such as the public interests demand. He is a gentleman of unswerving personal integrity, great practical experience in business, sound judgment, and universally popular not only with his own, but with all the sensible men of the opposition party. In the State no man could have been selected by the President upon whom this position could have been bestowed with more eminent propriety than Col. Gibson. Both as a tried and consistent advocate of the principles of Democracy for a long series of years, and as a warm and constant personal friend of the great Pennsylvanian who now occupies the highest position in the nation, Col. Gibson occupied a position among the Democrats of Western Pennsylvania which entitled him to public consideration.

This appointment, coming as it has done directly from the President himself, of his own voluntary motion, without solicitation on the part of either Col. Gibson or his friends. is an honor of which the recipient may well be proud, and a pleasant testimonial to the people that their Chief Magistrate, amid all the cares and turmoil and excitement which off to-morrow. attend the duties of his great office, does not forget his friends. The appointment of Col. Gibson to the Pittsburgh Custom House will tains an official list of appointments made by be most heartily endorsed by the Democracy | the President by and with the advice and

THE TUNNAGE TAX. The meeting last night of the Committees of the Board of Trade and the City Councils. to meet a Committee of the Board of Trade of Philadelphia who have visited our city for the purpose of conference relative to making effects to secure a repeal of the Tonnage Tax, was an interesting one. The plain and common sense remarks of the Philadelphia gentlemen upon the subject, and especially of Mr. Thomas, were of a character to convince Pittsburghers that they had at least an indirect interest in the repeal of this unjust imposition upon the trade of our State. We have given in our report of the proceedings of the meeting a brief abstract of Mr. Thomas's very able address. We have here. tolore given our own views of this impost, We believe it in all respects adverse to the inthrests of every catizen of Pennsylvania. We have long ago ceased to regard with respect that singular prejudice which exists in the minds of some of our citizens against rails roads. That they result in great general pubs lie good, and in the increased wealth of the state, is a fact which needs no demonstration. The policy of taxing their carrying trade we believe to be unjust.
