Impertinence of an Official.-Constable Hague without any personal knowledge of the case, only basing his oath upon hearsay, has assumed to make Railread. During the affray, Gordon received two en information against R. H. Kerr, for the serious severe wounds which were inflicted with a knife in offence of assault and battery with intent to kill! An the hands of Smith. One wound is on the top of the assault and battery is an offense legality within the power of the parties to adjust without an information. What right, then, has an official to intrude himself into a matter of which he has no knowledge, in depth, penetrating the right lung. Dr. Cooper, and importinently take hold of an affair which does who examined Gordon's wounds, wes of epinion that not come within the line of his duty at all? The legality of such conduct is very questionable, and its the latter would prove fatal. Smith was arrested on unwarrantableness is quite clear. We trust he may have the privilege of paying the cost of the proceeding for his pains.— Union, of Saturday.

George Seigriet's Benefit -Foster's National Theatro closes the season this evening, with a benefit to of the institution. The bill offered is a combination which should attract a large audience. The per- Faucy & Plain Furniture & Chairs, formance commences with a grand overture by an orchestra of thirty musicians, under the direction of Professor Swab. Then the historical drama of Charles XII, King of Sweden, followed by several pieces by the German Musical Society, who have volunteered their services on this occasion, the whole concluding with "Ticklish Times." George is a clover follow, deserves a good benefit, and we heartily wish him a bumper.

To Experimenters .- It is too often the case that when afflicted by attacks of "cold," or diseases of the throat and lungs, men launch forth into a disordered system of experiments, trying this and that pretended curative, and getting worse as a general thing, in return for their trouble and expense. It gives us pleasure to recommend to all such "eases" the medicine known as Bowman's Vegetable Combound, which, we are well assured, is better calculated to effect a cure than any nostrusi with which we are acquainted. We presume it can be had of any respectable druggist.

Admitted to Buil.—On last Monday we alluded to a motion made by Mr. Schartzwelder, for the release of Isaas Anderson on bail. It will be remembered that Anderson is charged with being implicated in the killing of Tichiman, at Port Perry, last winter. On Saturday the application was renewed, and Andersen was admitted to bail in the sum of \$3000 for his appearance at the October term, William Danshoe and William Sill becoming security for him. A similar motion was made in the case of Jefferson Grady and John King, but in the absence of the District Ationney the Court refused to entertain the
