BRLF ABUSE is another formidable enemy to health, for nothing class in the dread extelogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of sufering down to an antimaly grave. It destroys the nervous system, rapidly westes away the energies of life, causes mental derangement, provants the proper development of the system, disqualifies for marriage, seciety, business, and all carthly happiness, and leaves the engineer wretched in body and mind, prodisposed to Consumption and a train of evils more to be dreaded than seath itself. With the fullest confidence I assure the unfortunate eletims of Solf-Abuss that a permanent and speedy cure can be effected, and with the abandonment of rainous practices my patients can be restored to robust, vigorous health.

The afflicted are cantioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to eaten and rob the unwary sufferers that millions have their constitutions rained by the vilo compounds of quack dectors, or the equally poleonous nestrums woulded as "Patent Medicines". I have carefully analysed many of these called Fatent Medicines and find that nearly all of them contain Corneive Sublimate, which is one of the strougest proparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

The treatment they adopt is the result of upward of thirty years' extensive and successful practice in London.
