The Late Murder --- Further Developments. We stated yesterday that a female named Barbara

country in the same vessel with Jacobi, the supposed Yesterday afternoon she was taken before the Mayor, who efficited from her the following information:—She first became acquainted with the family at Mayerco, on the Rhine, in Germany—was introduesd to Jacobi by a tavern keeper, who told her duced to Jacobi by a tavern keeper, who told her that he was going to Pittsburgh, where she wanted to go. From that point they traveled in company, Jacobi and his wife treating her very kindly. They went to Retterdam, from there to London, and shipped for New York on the 15th of May. Her bunk was next to that of the Jacobi family. She thinks the woman's first name was Lena. She did not see Jacobi treat his wife badly on shipboard, nor pay particular attentions to the girl Barbara Satter. Jacobi wore a large leathern bolt, which apparently to contineed a large amount of money, and it was the contained a large amount of money, and it was the general impression on board the ship that he was wealthy. Mrs. Jacobi had thin black hair. Jacobi is a man about five feet seven inches in height, were no whiskers, and had dark hair. He had been a farmer in Germany. He told her he was going far-ther west then Pittsburgh. He paid the girl's fare on shipboard. They had four or five chests with

them; three of them were marked Christian Jacobi, and one Anna Satter.

They arrived in New York on the 1st of July, and put up at a hotel which she did not know the name f. It is believed from the description to be the Shakspeare House, corner of Ann and Chambers streets. Here she asked him to advance the money o bring her to Pittsburgh, which he refused to do, saying that he might not get it again. She then asked him to go to Troy Hill on his arrival here, and inform Balthazar Zang, her lover, that she was in New York distitute, and tell him to send her money to come on with. This he promised to do, saying that he had been in Pittsburgh eleven years ego, and knew all about Troy Hill and Zang. Sebastian Zang states that on Wednesday after-neer, the day of the supposed murder, Jacobi called at his house about two or three o'clock. He saked him if he had a brother who left a girl in Germany, to which he answered yes. He then made known his business, and was about to leave, when Zarg asked him where he stopped, as he wanted his brother to go and see him when he came home. Ja cobi said he was stopping at the Canal somewhere but it would be no use for him to call, as he would not be at home that evening. Zang then asked him if he would be at home in the morning; he said he did not know whether he would stay here; if he

stayed he would see him again. He spoke of going to Indiana to buy a piece of ground, and leaving hi wife behind. He left Zang's at three o'clock. Barbara Pfleister was examined as to the dress worn by Jacobi's wife, which she described accurate She described the ear rings, and, on one being shown her, declared positively that this was one of them. She was not positive about the shawl pin but know that Mrs. J. had one similar to the one shown her. She identified the shawl, and was so much effected on seeing it as to burst into tears. The shoes she also described minutely before seeing them when she identified them positively. A piece of the dress was shown her, when she said Mrs. J. had a frock like that on when she left the ship. She also said the weman and children were skirts, similar to a picce shown her taken from the corpse. She did not see any pistol with Jacobi on shipboard. Jacobi told Zang that the reason he did not pay Barbara's fare here was, that he had been in Pittsbeigh eleven years ago, and that he found it hard to

These circumstances seem to leave no doubt as to the identity of the parties, and if Jacobi is caught; there is already sufficient circumstantial evidence to Country Items.

-An old lady named Mrs. Lencher, living near Uniontown, came to a horrible death last Tuesday morning. She resided with her daughter, Mrs. Julia Mackey, who left her about half an hour, and upon returning found her lying in the kitchen fre-place, burned to death. Having obtained the consent of the owner, he took up quarters in the hay-loft, where he was found the following morning in a dying condition, with the blood gushing from his mouth and nostrile. Further aid was immediately summoned, but the unfortunate man expired before the proper restoratives could be applied. By request of some that the of his relatives in this place, his body was interred gust. near where he died. The deceased is represented as having been a man of very dissipated habits, and his frequent indulgence in the fatal draught doubtless led to his sudden and unfortunate death. -A storm of considerable violence passed over

Allentown, Pa., on Monday afternoon, displacing store boxes, awnings, and whatever other obstructions were upon the pavements. The wind swept with such violence up the river that it took off a part of the roof of the Lebigh bridge, and carried it a considerable distance above the dam. Fortunately, its course was up the river, and the roof fell in the water, where it did no damago in its fall. Several trees were twisted off in Lehigh Ward.

The Cork Run Murder .- Officer Moon has returned to the city from Chicago. He states that officer Hague is on the track of Jacoba, who left for St. Paul. Before leaving he had a conversation with the landlady of the house at which Jacoba stopped, with his family and the servant girl. She states that the girl Anna Maria Satter told her that Jacoba's wife had died while on their way to Chicago, and that she had since been married to him. It is not likely that we will hear anything further from the are now out of reach of the telegraph wires. It is to be hoped that the murderer may be overtaken. In addition to our report of yesterday, we have but little to say further than the report of the second innings of the Olympic Club which we publish below, together with the analysis of the bowling. The fine score of thirty-five, made by Byron, by a five, a four, four threes, five twos and singles, was deserving all praise and brought down the spectators in frequent cheers. Loomis was not in as good play as on the occasion of the first innings, but stood steadily at Pfleister had arrived in this city, who came to this his post with Byron for twenty-two overs, when he was called out for leg before wicket. Next to Byron, Jonkins made the largest score, gratifying his friends by his cool and steady play. Our young friend Laughlin carried out his bat with two twos to his

We will close after calling attention to the comparison of the analysis of the bowling of the Union Club for the two innings. On the first day the Olym-pic getting 70 runs from 108 balls, and on the second iay 65 runs from 253 balls. This not only shows the steady and perfect bowling of the Union Club, but the cool manner in which their balls were "blocked" by the Olympic, giving their friends great hopes of the match. But 92 was a little too much for them to overcome, and their manly opponents won the game and the ball by twenty-four runs.

DR. R. A. WILSON'S Tonic, Cathartic, and Anti-Dyspeptic PILLS.

PREPARED AND SOLD BY WHOLESALE DRUGGISTS,

No. 60 corner of Wood and Fourth Streets, PITTSBURGH, PENNA. S AN EFFICIENT, safe and convenient

S AN EFFICIENT, safe and convenient that tonic, cathartic and anti-dyspeptic medicine, these Pills are recommended to the public by the former proprietor, (DR. WILSON,) with a confidence such as a long continuod and careful trial of them in an smple practice warrants. In their operation as a cathartic, they influence more the motory and less the secenting power of the bowels than any other combination in common use.

AS A TONIG—They agr.e with the most delicate stom ach, removing nausea, pain, and debility from that organ, and through it impart tone and vigor to the whole system.

AS AN ANTI-DYSPEPTIO—They neutralize and interrupt the fermation of gaces from the food in the atomach,—the direct consequences of chemical action,—an action which should never exist in the human stomach. From these peculiarities in the Pills, a person taking them may expect a free, full and natural execution of the howels, without pain, names, local or general debility, or that disgusting stekness or costiveness—the usual effects which attend or follow the use of other purges.

Washington, Pa. January 8, 1858—Dear Doctor: I have been using your "Anti-Dyspeptie" Pills, when occasioned required, for many years, and can truthfully say that I have never found any medicine equal to them in relieving me from effections of the stomach and head. They have never failed to relieve me from headache, and have always left my system in better condition they found it. I must confidently recommend your Pills as a safe and highly valuable medicine.

Very respectfully, etc.,
Dr. R. Adams Whison.

From Thos. Blackmore, Esq., Treasurer of Allegheny Co., Pa.

To 1 n R. A. Whison.—Dear Sir: I have been using your Pills since 1840, and to decidedly say they are the best Pill in use, or that I have any knowledge of. I first used them for "sick headache," with, which I suffered beyond desoription; I am happy to say, that they entirely cried me. Since they I use them as a family medicine; if I am bilious, or anything alls me, and I require medione, I take a Pill, and it. cures me; they are my only medicine, and have been for the last seventeen years.

Misses. B. L. Fahnerton & Co—I have had considerable experience in the use of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which you are now the proprietors, and have often felt their benign influence in my own case for "nervous headache," arising from a disordered condition of the stomach. I have likewise prescribed them for others, in cases of "homoranis" and other forms of headache depending on a deranged and irritable condition of the stomach and directive organs, of which they seem possible. ache depending on a deranged and irritable condition of the stomach and digestive organs, of which they seem peculiar-ly adapted; being entirely free from any griping tendency, I regard them as a very valuable Pill, and one that purges without at all cebilitering. ANY ARBOR, November 5, 1856.

PROF. O. J. Wood—Deer Sir :— I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely die, whose hair had become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects herefore, my skepticism and doubts in reference to its character and value are entirely removed; I can and do and most cordially and confidentially recommend its use by all who would have their hair restored from white or gray (by reason of sickness or age,) to original color and beauty, and by all youn persons wou would have their hair restored from white or gray (by reason of sickness or age,) to original color and beauty, and by all youn persons wou would have their hair beautiful and your persons wou would have their hair beautiful and your persons wou would have their hair beautiful and your persons wou would have their hair beautiful and your persons would have thei Prices low, and work was NO. 282 IJERRTY STERROUNG

SOLOMON MANN. FRIEND Wood: It was a long time after I saw you at Elissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects. My hair was becoming, bell thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and, I have no doubt, permanently so.
