An Important Improvement in Railway Cars.

We had an opportunity, yesterday morning, of observing the practical utility of a new railway car called "Woodruff's Patent Scat and Couch Car," during a very pleasant excursion to Sewickley, in company with other members of the press and some cent citizens, by invitation of Mr. George J. Voodruff, son of the patentee.

each side, each containing four scats, which are at night, readily convertible by a simple arrangement into comfortable election apartments, with pillows, curtains, &c. The car is of the ordinary eize, for y-five feet long, and will accommodate fifty-six persons, or if three-fifths only of the passengers desire to eleep, it affords ample room for seventy. Each compartment is distinct and separate, the inmates being secured from the scrutiny of their follow travelers. A curtain is also extended across the car, thus forming a separate apartment for ladies, should they desire it. Immediately under the windows, between the two seats, is a table, very convenient either to rest a book on for reading or to serve as support for the erms or head. The car is supplied with patent vontilaters, by which the draft can be turned in or out of the car, or closed altogether. Some of the out of the car, or closed altogether. Some of the seats are arranged for families, one seat accommodating four grown persons and two children. The arrangements for lighting are also new, being suspended in the middle of the car, over the isle, enwho have occasion to travel by railroad will appre-

This valuable invention was patented December interest in the patent to 0. W. Childs, of Syracuse, N. Y.; J. S. Miller, Litchfield, Ill.; and George R. Dykeman, Alton, Ill. The car now here was built by Wason & Co., of Springfield, Mass., in Novemher, 1857, and has been in constant use ever since. repaid by a charge of fifty cents to persons who wish to eccupy the night car.

The following roads have adopted them and will

scen run them regularly on all night trains: Michigan Central, Michigan Southern, Lake Shore, Cloveland, Columbus and Cincinnati, Galena and Union. The Ohio and Mississippi Road have purchased the right to manufacture and are now building six of theso improved cars. The car we speak of will be run on the Pittsburgh, Fort Wayne and Chicago Railroad as far as Fort

Wayre, for ermo weeke, to test it, after which it will be transferred to the Pennsylvania Central. We both roads, as their increased comfort to passengers cannot fail to commend them to the favorable notice of the officers of the roads. Country Items,

We learn from the Sunbury American that on Thursday last William Conrad was arrested for placing obstructions on the Northern Central Railroad track, telow Shamokin creek bridge. Mr. Conrad cwas a farth on the hill, and complained that the company had rendered the wagon read up almost There were several persons with him, who kicked off the obstruction, which he replaced, shout which time the watchman came up. He now says that he did it in fun, knowing that the watchman was near. But as the road had been obstructed before at that point, and as Mr. Conrad had said some hard things of the company, he was bound over in the tum of one thousand dollars to appear at the

Lithographing. Within a few years past this branch of the printing art has grown into considerable importance. In Pittsburgh very great changes have taken place both in the quality and quantity of the work executed. Yesterday morning we had the pleasure of looking through the ertensive establishment of William Sokuchman, Equ., corner of Third and Market streets, who stands preminent among our lithough graphers. His work is well known throughout the United States, and is acknowledged to be equal to the finest specimens exhibited anywhere. He exeentes everything in his line of business, from the largest sized map to the smallest label. Visiting cards are furnished of very superior finish.

Mr. S. omploys about thirty hands in the various

departments of his business, and he informs us that a good engraver on stone is paid from \$25 to \$30 per week; a good letteror gets the same wages.

The manner of printing by lithegraph is very simplo, though it requires skillful artists. The design, whatever it may be, is cut on a piece of limestone, with a smooth surface, by means of a sharp instru-ment called a graver. The stone is then dressed being placed on the press a wet spongs is passed over the surface, which does not affect the greasy parts. The roller with ink is then passed over, the wet stone preventing the full from adhering to it, while it takes hold of the remainder. of the best quality, invariably fresh, well kept, and at as reasonable rates as they can be had any place in the city. The teas sold here have a well estab lished reputation, and we know no one who patron izes this house can ever have cause to complain either of the quality or price of goods. Colling Park.—Rare sports may be expected at Colling Park to day. The ball opens with a mule race, four in the field, mile heate, which will doubtess be very amusing. This will be followed by a foot race, in which none but amateur runners will be allowed to take part, thus laying the ban on Mr. Good, who has already won two races this season.

The troiting match for a purzo of one hundred dellars will then come off. Several horses have been entered and it promises to be an exciting race. The managers of this course seem determined to keep up the interest throughout the sesson. During a trip to Sewidaley yesterday, we observed a pic nic at Killbuck station. The participants

seemed to erjoy themselves hugely in the cool grove between the river and the railroad.

Silver Plated Ware this Morning.—At ten o'clock, this morning, Mr. Davis will sell, on the second floor of his new auction house, Fifth street, a rich variety of beautiful silver plated ware for family table use. As the sale is without regard to prices, all housekeepers, desirous of furnishing themselves with choics ware, should attend.

A Disappointment.-What prevented Mr. Smith from lecturing on capital purishment? Why, he had the Bronchitis so severely that at the appointed time he could scarcely speak. If he had gone the previous morning to a drug store and bought some of Bowman's Compound, and taken it, he would have been able to deliver his lecture; and still better, if he continued to use it, he would soon he permanently cured.

Improvements on Fifth Street. We have several times spoken of the fact that in the matter of building improvements Fifth street

was going far shead of any other part of our city.
The new Odd Fellows Hall, a grand and imposing atructure, is now completed; the Allegheny Bank Block, adjoining our office, which will be, when completed, one of the greatest ornaments of the city, is picted, one of the grant and the title title is going ahead finely; several smaller buildings are in progress of erection; and now, we learn that our neighbors of the Dispatch are about to erect another first-class building for the purposes of their business. The ground they occupy was purchased for \$14,500 when property on Fifth street was much lower than it can now be brught for, and their improvements (created and in | no changuisines last week, there being an abundance for all contemplation) will cost nearly twenty thousand the wants of the business community. Burglary .- A German, named Gottleib Brodt, was The cost of this car over the common ones now in use is about three hundred dollars. Mr. Woodruff has several cars running over different rosses, and is some two weeks since a man was found in the house of Joseph Jacobs, on Ohio street, Allegheny, and allowed to leave quietly. The next night the same house was entered, and several pair of shoes carried off. Information was made at the Mayor's office, a description given, and as both depredations were supposed to have been committed by the same indiridcal, a warrant was issued for his arrest. On last Monday night a man named Pepper was robbed of some clothing, and suspicion falling on Brodt, he was arrested. A search warrant was issued, and the house of a Mrs. Vills, where he lived, was searched; the clothing was not found, but the shoes stolen from have not the least doubt the cars will be adopted by them as the property of Mr. Jacobs, and another Mr. Jacobs were. The maker of the shoes identified person swore that he saw Brodt come out of Jacobs' house with a knife in his hand the morning the shoes were missing. The Mayor discharged him on the

Weekly Review of Pittsburgh Markets.

Pittsbungu, July 21, 1858. During the past week business has not perceptibly improved; but little produce is coming in, and farmers are so busily engaged at home as to prevent their visiting the city. In prices there has been but 1 ttle change; Flour, Whisky and Sugar have advanced some, though the increase in the speculative feeling in Oats, but the quantity in market is very small.

No new Wheat has as yet been offered, though it is nearly all cut, in this vicinity. The crop is a fair average, and stock & Co., corner of Wood and Fourth streets, Pittsburgh, prices will not materially change during the summer. The demand for Pittsburgh manufactures is, as usual at this season, but trifling. Most, if not all, of the glass man nfactories have ceased operations, and will not resume dur ing the remainder of the heated term. Until we have a bet ter stage of water, our manufacturers will not be pressed

Messes. B. L. Fainlesson's a Co.—Dear Sir: I have seen Dr. R. A. Wilson's Pills used for the ague with good effect; I have in good they my self the public. Respectfully, yours, G. W. IRWIN.

From Colonel Win. Hopkins, late Canal Commissioner. Washington, Pa. January 8, 1858—Dear Doctor: I have been using your "Anti-Dyspeptie" Pills, when occasioned required, for mary years, and can truthfully say that I have loved for the semach and head. They have never failed to relieve me from headache, and have always, left medicine.

**Washington, Pa. January 8, 1858—Dear Doctor: I have been using your "It is since 1840, and to decidedly say they are the best Pill in use, or that I have any knowledge of. I first used them from slick headache," with which I suffered beyo

ctors, and have often falt their benign influence in my own case for "nervous headache," arising from a disordered condition of the stomach. I have likewise prescribed them for others, in cesses of "hemicrania" and other froms of headache depending on a deranged and irritable condition of the stomach and digestive organs, of which they seem peculiarly adapted, being entirely free 'rom any griping tendency, I regard them as a very valuable Pill, and one that purges without at all cobilitating.
