It matters not from what cause the disease originated, however long standing or obstinate the case, recovery it certain, and in a shorter time than a permanent care can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all the r means of care. The medicines are pleasagt without oder, causing no sickness and free fracts increave or belease. During means of cure. The modicines are pleasant without odor, causing no sickness and free from moreury or belram. During twenty years of practice, I have received from the jaws of death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a porfect and most speedy cure. Secret discoss are the greatest enemies to health, as they are the first cause of Communiquion, florefula and many other diseases, and should be a terror to the human family. As a permanent cure is reactedly ever effect. human family. As a permanent cure is scarcely ever effect ed, a majority of the cases falling into the hands of incom petont persons, who not only fail to care the diseases but rain the constitution, filling the system with mercury, which, with the disease, heatens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed the children, who are born with f

and the current of life corrupted by a virus which betrays itself in Gorofula, Tetter, Olcers, Emptions and other affec-tions of the skin, eyes, threat and lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enomy to health, for nothing else in the dread catalogae of human diseases causes to deatractive a drain upon the spatem, drawing its thousands of victims through a few years of suffering down to an untimoty grave. It destroys the norvous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wretched in body and mind, predia presed to Consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a permanent and speedy cure can be effected, and with the abandonment of rainous practices my patients can be restored to robust, vigorous health.

The affilience are cautioned against the use of fatent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions rained by the vile compounds of quack dectors, or the equally poisonous nestrums vended as "Patent Medicines." I have carefully annived many of these called Fatent Medicines and find their nearly all of them contain Corresive Sublimate, which is one of the strongest proparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nestrans now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equality as destitute of any knowledge of the human system; having one object only in view, and that to make money regardless of consequences.
