The cats are ripening fast, and will be fit to cut in a few days. Corn is coming on finely, and the warm weather and occasional rains we have had the past month have pushed it ahead

Perhaps the bottleholder editor wants his pass renewed or railroad advertising. If he don't get them it won't be for want of whining and toadying.

Public Drinking Fountains.- In the ancient city of Chester, in England, Peter Eaton, Esq., the late Mayor, has presented to the public a beautiful granite fountain. If the chief magistrates of our own city would leave behind them such valuable and enduring mayoraltyship memorials, the heartfelt thanks of thousands of the working classes would be secured by them. In Pittsburgh, there is not a solitary water fountain for the people. Is there no liberal Mayor, no wealthy Alderman, no merchant prince, no successful manufacturer, who will immortalize his name by erecting the first public fountain in the Iron

MEDICAL. DR. R. A. WILSON'S Tonic, Cathartic, and Anti-Dyspeptic PILLS.

PREPARED AND SOLD BY WHOLESALE DRUGGISTS.

PITTSBURGH, PENN'A

S AN EFFICIENT, safe and convenient tonic, cattartic and anti dyspeptic medicine, these Pills are recommended to the public by the former proprietor, (OR. WILSON,) with a confidence such as a long continued and careful trial of them in an ample practice war-

cor. (bl. WILSON), with a confidence such as a long continued and careful trial of them in an emple practice warrants. In their operation as a cathartic, they influence more the motory and less lhe secenting power of the bowels than any other combination in common use.

AS A TONIC—They agrie with the most delicate stom ach, removing nausea, pain, and debility from that organ, and through it impart tone and vigor to the whole system.

ANTALYSEPPTIC—They neutralize and interrupt the formation of acids, check formentation, and prevent the elimination of gases from the food in the atomach,—the direct consequences of chemical action—an action which should never exist in the human stomach. From these peculiarities in the Pills, a person taking them may expect a free, full and natural evacuation of the bowels, without pain, nausea, local or general debility, or that disgusting sickness or costiveness—the usual effects which attend of follow the use of other purges.
