Towardings 7, 8, 9, 10, and 11, and fractional townships 12 The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions rained by the vile compounds of quack dectors, or the equally poisonus noturns would as "Patent Medicines." I have carefully analyzed many of these called Patent Medicines and find that nearly all of them contain Cerrorive Sublimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regard.
