Barometer 29 2.10. Loss of the Steamer Edwin Manning. We clip the following account of the loss of the steamer Edwin Manning, with her entire cargo, by fire, on the Mississippi, from the St. Leuis Democrat:

The steamer Edwin Manning, while lying at Alton, twenty-five miles above this city, took fire at one o'clock yesterday morning, and was soon enveloped in a mass of flames, from which it was found impossible to save her. The fire originated in the cook house, and spread rapidly, the wood work of the boat

being as dry as tinder.
Capt Sam. G. Cabbell, the mate, watchman and two deck hands, suddenly aroused from their slum-ber, were soon exerting themselves to the utmost in endeavers to subdue the flames, and the citizens, with three fire engines, were soon on the spot, but as all efforts to save her were evidently useless the

Capt. Cabbell and his four men stuck to the boat as long as possible in order to save what they could and subjected themselves to great danger while on the boat, and in escaping from her. The yawl was lowered, but being old and leaky, all hands bailing and were presented by Mrs. George S. Selden, of could not keep it clear of water. Finally they gained this city. The new rector of this church, the Rev. the shore in safety, the captain being minus hat, Mr. Levis, will take charge of the parish about the shoes and stockings, and a pair of pantaloons, in the middle of the present month. pockets of which was a sum of \$200.

The Edwin Manning was bound to this city from the Upper Mississippi with the following cargo, which was insured for \$6,000: 141,200 feet dressed lamber, swned by Capt. Cabbell, and 11,000 lath, swned by Blansett, of Fontenelle, N. T. The boat was built one year ago at Marietta, on the Ohio, and was a stern wheeler. Her value was \$11,000, and abe is insured for \$7,000 in two Pittsburgh offices— Her value was \$11,000, and the Eureka and Monongahela—equal amounts in each. She had just been repaired and refitted at a cost of \$1,500. Bost and cargo are a total loss.

Blackberries .- The yield of blackberries this season is very abundant, and the ladies will exhaust their ingenuity in preparing them for use for winter in every conceivable shape. As there is no wine equal to blackborry wine, either in flavor or for medicinal purposes, when properly made, we subjoin "Measure your berries and bruise them; to every gallon adding ore quart of boiling water. Let the mixture stand twenty-four hours, stirring occasionally; then strain off the liquor into a cask, to every gallon adding two pounds of sugar; cork tight, and let it stand till the following October, and you will have wine fit for use, without further straining or

Blackberry jam, of very excellent quality, may be made as fellows "Gather the fruit in dry weather; allow half a pound of good brown augar to every pound of fruit; boil the whole together gently for an hour, or till the blackberries are soft, stirring or mashing them well. Preserve it like any other jam, and it will be found uteful in families, particularly for children."

The nicture is not at all gratifying nor encouraging, yet, strange to say, nine-tenths of those who use the weed are cognizant of its per-nicious effects, but still they are such slaves of habit that they persist in its use.

----One of Uncle Sam's Servants on a High .- A Germen recruit named Henry Beck, somewhat under the influence of liquor, created quite an excitement in the vicinity of Wood street and Virgin alley yes-terday afternoon. A number of boys had gathered about him and were plagueing him, when he seized a huge boulder, weighing two pounds, and throwing it at them, struck a little fellow named Anderson, only twelve years old, on the head, injuring him seriously. Several citizens attempted to errest him, when he struck Mr. W. W. Wallace in the fece several times, and tore a coat off Mr. William M'Pherson. He was finally arrested, after considerable lifficulty, by four police officers, with the assistance of citizens, resisting desperately all the time. He was locked up in the watch house, and will doubtless be sent to jail for his very disorderly behavior.

Robbery for Fun.—On Saturday evening last some fellow or fellows entered the store of Mr. E. S. Butler, on Walnut street, and helped himself or themselves trance by first passing through the store of Mr. Joseph C. Batler, which abuts the store of E. S. Butler on an area, and then breaking open an iron shutter, which let them into the store of the last-named gentleman. We have been informed by both of the gen tiemen Butlers, that they have missed nothing but liquors, when at the same time there was a plenty of valuables the thieves might have taken. —We clip the above from the Cincinnati Enquirer.
The thieves of that city must be the same to the same than the sa ever as the Messrs. Butler are both Pittsburghers,

we congratulate them on their good luck. Wolves .- For some time past a pack of wolves has infested the neighborhood a few miles North of Ebensburg. They have been amusing themselves by disturbing everybody's slumbers with their howls, and attacking everybody's sheep. Considerable damage has been occasioned by their fondness for mutton, and great efforts were unsuccessfully made to capture some of them. On Thursday night, Mr. 1 John T. Williams succeeded in catching one of the varmints" in a steel trap, on his place, four miles North of town. He is still alive, and represented as

Alleged Mail Robbery.—The Indiana Independent says that a young man named Milton Henderson on of Mr. Joseph A. Henderson, of Indiana, was arrested on Thursday, the 5th inst., at Eldersridge, charged with having robbed the mail. It appears that the Post Masters both at Indiana and Eldersridge have suspected him for some time, and on Wednesday, J. E. Coulter, Esq., after having delivered to him the mail at his office in the former place, fellowed the boy to Eldersridge, and upon examination of the mail matter that arrived there, it was found that a large majority of the packages mailed at Indiana had not arrived at their destination, and after some search were found in the buggy in which | Etore of the boy had carried the mail.

Madame Harper .- This lequacions female was beford the Mayor yesterday, trying the virtue of her art on him, but all to no purpose. He was inexorable, and will send her to jail to-day if she does not liquidate the claim against her, which she has promised to do at ten o'clock this morning.

The publication of a new daily paper, called the Bulletin, has been commenced by Messrs. E. White & Co., of Eric, in that place.

Attempted Suicide.—A son of Mr. G. W. Stewart, Jacksonville, Indiana county, attempted a few days since to take his life. He had been ill for some time, and rising from his bed went into the kitchen and cut his throat. He was soon afterwards discovered and the wound stannehed in time to save his life.

After going a short disance both gentlemen were thrown out and the carriage upset. Judge Davis was thrown some distance and is considerably bruised. Judge Derickson was thrown under the carriage and was more seriously injured, having been since confined to his bed.

A Failure.—One night last week, the prisoners in the Indiana county jail made an attempt to free themselves from "durance vile," by attempting to go through the floor, and then dig a hole through the wall into the cellar of the jail. They were prevented, however, by the vigilence of Sheriff Smith, who was unwilling to part with his boarders so sud-

PITTSBURGH, PENN'A.

A S AN EFFICIENT, safe and convenient tonic, catuartic and anti-dyspeptic medicine, those Pilis are recommended to the public by the fermer proprietor, (DR. WILSON, with a confidence such as a long continued and careful trial of them in an emple practice warrants. In their operation as a cathartic, they influence there is most an any other combination in common use.

AS A TONIC—They agree with the most delicate stom sch, removing nausea pain, and debility from that organ, and through it impart tone and vigor to the whole system.

AS AN ANTI-DYSPEPTIO—They neutralize and interrupt the formation of acids, check fermentation, and prevent the elimination of gases from the food in the stomach,—the direct consequences of chemical action,—an action which should never exist in the human stomach. From these peculiarities in the Pills, a person taking them may expect a free, full and natural evacuation of the bowels, without pain, nausea, local or general debility, or that disgusting sickness or costiveness—the usual effects which at tend or follow the use of other purges.

for "nick headache," with which I suffered beyond description; I am happy to say, that they entirely cured me. Since

Messes. B. L. Faunessock & Co—I have had considerable experience in the use of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which you are now the proprietors, and have often felt their bonign influence in my own case for "nervous headache," arising from a disordered condition of the stomach. I have likewise prescribed them for others, in cases of "bemicranis" and other fryms of headache depending on a deranged and irritable condition of the stomach and digestive organs, of which they seem peculiarly adapted, being entirely free rom any griping tendency. ly adapted, being entirely free from any griping tendency I regard them as a very valuable Pill, and one that purges vithout at all debilitaring. DEAR MADAH,—The reputation of the Medical Discovery, in curing all kind of humors, is so well established by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skilful physicians and the most careful Drugglists in the country are unanimous in its praiso. onains and the most careful proggiss in the country are an animous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of the curative power. in relieving all, and curing most of those diseases in which you are unfortunately so liable. That most excruciating disease to an architecture mother. mother, NURSING SORE MOUTH,

ANN ARBOR, November 5, 1856.

PROF. O. J. Again, very respectfully and truly, yours,

SOLOMON MANN,
ORKITS, Ill, June 23, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative, and gentlemen can always find an abundant supply of FRESH CONFECTIONARY, FRUITS, IOE CREAM, tive it has resumed its original color, and, I have no doubt, permanently so.

Friend Wood: It was a long time after I way you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
