New Yeards of Fortsmoerin, Eventue, Caro, Caro, Verborg N. M., Boston, New York, Philadelphia, Gosport, and Pensa-NAVY DEPARTMENT, July 26, 1858. YEALED PROPOSALS, endorsed "Proposals for Sleam Machinery for Seren Propeller Sloops, of War," will be received at this department until 3 o'clock P. M., of the 8th of September next, for the complete construction of the 8 cam machinery and appendages, and placing the same on boars, for each at the sciew sloops of war building at the U. S. navy-yards as Fortemouth, N. H., New York, Philadelphia, and Gosport in accordance with the following conditions: and all points in Central Kentucky owing conditions:
The offers must be for a specific sum for putting the whole The ouers must be for a specific sum for putting the whole in nuccessful operation, must include all patent less, and the department will require a release from the proprietors of any patented article or arrangements used in or about the machinery, and must state that time in which the machinery. machinery, and must state the time in which the work will be completed, and must be accompanied by the usual guarantee required by law.

The name of the establishment in which the work is be executed must be stated. The details of the design and arrangement of the machinery will be left with the party whose proposition may be excepted as combining the greatest number of advantages, keeping in view cost, simplicity of construction, readiness of access for adjustment whom in operation, and not being subject to derangement in the working parts, it being subject to the cepartment to produce the finery which can develop great power when required so as to insure high spaed for as many days as positive, while at the same time they will be able to propol the vessel at a moderate speed with great occomy of itsel, so to guaranty the results proposed to be accomplished by their plans, and to specify those results under the following their plans, and to specify those results under the following heads?

Ist. The amount of horso power which the engines and bollow will be able to develop for five days consecutively when driven up to their highest capacity, to be measured on board the reasol by the indicator, at the rate of \$3,000 periods lifted one foot high in a minute and to be not less than 1000 horse power, and at least 80 revolutions per minute.

The consumption of coals per horse power per hour must be stated. The pressure in pounds per square inch on the piston increasity to work the engines at the above velocity, the errow being disconnected and the engines without a load, except the line of shafting, must not exceed 216 pounds per square in 100 piets in 100 pi quired.

The propeller with the connexions for heisting it will be of composition, to be properly proportioned for at least 30 revolutions per minute and for the immersed amidship section of the vessel. revolutions per minute and for the influences almosting section of the vessel.

The pumps, apparatus for ventilating, and appurtenances of all kinds necessary for the perfect working of the whole to be of the most approved kinds.

The coal bunkers, shaft passage, two atwartship iron bulk heads, a distilling apparatus for fresh water, trem which can be made not less than 500 gallons per day, and the tools and duplicate pieces necessary and satisfactory for an efficient cruising steam sloop-of-war, must be included in the proposition, and a list of them will be furnished.

The wood and carpenter work, except the boring out the deadwood for the shaft necessary to adapt the vessel for the reception of the machinery, boliers and appendage will be provided at the expense of the Navy Department, and it will permit the use of such facilities as it may have for hoisting the hea y michinery en board.

For the accommodation of the entire steam machinery and fuel there will be allowed in the body of the ship, the entire space under the spar deck commencing at 15 feet abaft the main mast, and thence extending forward a distance 2,240 pounds.

The distance from the after side of the mainmast to the after side of the forward stern post will be about 80 feet, and the distance between the forward and the after stern posts will be seven feet. The depth from the load water line to the top of the keel under the propeller will be 12 feet 1 inch.

The proposal must be accompanied by full specifications and general drawings, having the position of the centre of gravity of the machinery, boilers, &c., marked on them, giving also the capacity of the steam cylinders, pressure of steam, area of foot and delivery valves, and of air pump and outboard delivery valves, space for eteam above the water line of the beilers, the fire and grate furnace, also the diameter, pitch, surface, and kind of propeller and other principal points, that comparisons can readily be made.

The terms of payment will be that, when one-half of the materials and labor provided for in the contract shall have been completed to the estisfaction of the department, there will be made; and when a entisfactory trial of seven consecutive days shall have been made, then a further payment of ½ part of the whole amount of the contract. When the whole shall have been completed and ready for erection in the ship a further payment of ½; and when the ship shall have performed satisfactorily at sea for a period of three months, the remaining sum shall be paid. The repairs necessary during this period from defective workmanship or materials will be at the expense of the contractor.

It is to be understood that if the weight and other conditions specified in the contract be not complied with, the de-partment is to be at liberty to reject the whole muchinery, the contractor to be at the expense of taking it out of the ship and refund whatever amount of the contract price may ship and retting whatever amount of the contact pitch may have been paid.

PROPOSALS will also be received at the same time and placing the same on board each of the screw sloope-of-war building at the navy yards at Boston, Philadelphia, and Pensacoia under the specifications and conditions above stated, with variations in the following particulars, viz:

1st. Horse power 750 at, at least, 80 revolutions per minute. 46 feet.

The distance from the after-side of the mainmast to the after-side of the forward stern post will be about 75 feet. The depth from the load-water line to the top of the keel under the propellor will be 9 feet 2 inches.

Steam engine manufacturers who desire to bid, can obtain a copy of the section of any one of the vessels upon making application to the department.

MEDICAL. DR. M'LANE'S CELEBRATED VERMIFUGE LIVER PILL

WE beg leave to call the atten tion of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public We refer to Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them at universal Cure-alls, but simply for what their name purports, viz.: THE VERMIFUGE, For expelling Worms from the human system. It has also been

administered with the most satisfactory results to various Animals subject to Worms. THE LIVER PILLS. For the cure of Liver Complaints, all Bilious Derangements, Sick

HEAD-ACHE, &c. In cases of FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure. As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS, PITTSBURGH, PA. to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough

A MOST SCIENTISIC INVENTION.

An instrument for the cure of Genital Deblitty, or Nocturnal Emissions, more properly known as Seminal Weakness, &c. Can be permenently cared in from fifteen to twenty days, by the use of this instrument, when used conjointly with medicines.

YOUNG MEN TAKE PARTICULAR NOTICE.

Dr. AMOS & SON take pleasure, r announcing that they have invented a meat important is air ument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London. Paris, Philadelphia and New York; it has been dediated the only useful instrument or yet invented, for the cure of Seminal Weakness, or any disease of the genital organs, caused by the secret habits of youth.

disease of the gonital organs, caused by the secret habits of youth.

Dr. AMOS & SOE, in order to estisity the most exceptical as to the merits of their instrument, pledge themselves that in any instance where they may prove unestisfactory after fair trial, the money will be refunded by returning the instrument in good order.

Persons wishing the above uneful Instrument will observe that the price, with the accompanying directions, securely packed and sont by express, is ten dollars.

NEW REMEDLES AND QUICK CUIRES.

Dr. AMOS & SON may lie consulted from eight o'clock in the morning until nine at night, in every stage ac d symplitom of the Venereal Disease, Gonorrheea, Gleets, comdary Symptoms, Seminal Weakness, Impotence and Strottres of the Urethrs, etc., with invicable secresy. The treatment they adopt is the result of upward of thirty years' extensive and successful practices in London. The most invelorate ness of Venereal Diseases cradisted in eight or nine days, not cases of a slight nature in two or three days, at a moderate expense. The curse effected without confinement or hindrance from business; also, nodes and pains in the bones and limbs, offectually cradicated.

A CURB WABRANTED.

Dr. AMOS & SON have devoted their attention exclusive by to this peculiar class of meladica, and the relief they have consequently been enabled to render to their fellow-creature a fully testified and greatfully acknowledged by convules centpatients and others daily erriving in town from all parts of the country, for the express purpose only of consultations while their exertions have been crewned with the most signal advantages; yet from what they have experienced inquiring into the causes of these infections complaint (from their most simple condition to that of the most dan gerous and invoterated) they have always entertained the possibility of their prevention and removal, and likewise invariably found that the ince therefore, Dr. AMOS & SON have successed in discovering, in the selection of their remedies, a safe, ef of youth.
Dr. AMOS & SOE, in order to satisfy the most skeptical

Persons in any part of the world may be successfully treated by forwarding a correct detail of their case, with a remittance for medicines, &c.
