A smaller gun was repeatedly fired from the bank of sulky; in descending the hill west of Jacktown

the Monongahela. During the afternoon the streets were alive with people, while many remained at home making preparations for the general illumination in THE EVENING.

As soon as the shades of evening covered the earth, the crowds commenced flocking towards Fifth terribly and spraining one of his legs in a serious street, which was soon throughd with a dense and bustling multitude. At half-past seven the illumination commenced, and in less than five minutes the entire strect was made brilliant by a perfect blaze of light. THE PROCESSION.

He is lying in a critical position, his life being despaired of. The murderous attack was made The procession was an exceeding lengthy one, the most striking feature of which was the Germans. We learn from "one of 'em" that the tall individual in the rear of the procession of the Sons of Ma'ta, was the Grand Commander of the Grand Commandary of the United States, from Boston. After marching through the streets for a couple of hours, the procession was dismissed, without anything having occurred to mar the pleasure of the

THR ILLUMINATION. All over the city numbers of houses, both public and private, were brilliantly illuminated and mcttoes and transparencies without number were displayed. Fifth street was an entire blaze of light. The Custom House, Old Fellows Hall, College Hall, the Part, Gazette, Chronicle and Dispatch buildings were illuminated from cellar to roof. The Post building, in particular, was the observed of all observers, which, with its broad front on Fifth street, is particularly calculated for displays of this kind. The fifth story contained the word-

Opposite the office of the Post, Eli Young exhibited a large transparency on which was represented a scene on one side of the laying of the cable in midocean, and on the other John Bull and Jonathan shaking hands across the water. Further up the street, Matthew's Billiard Saloon was also remarkable for the fineness of its display, n front of which was the motto

The Iron City College had the following motto POR CITY COLLEGE GREETING TO THE ATLAN. TIC TELEGRAPH. Elliott, the shirt man, had a characteristic display

The Court House was lit up from the ground to the uppermost window of the dome, and its light could be seen from any portion of the city, the top most lights being at such a heighth that they looked like distant stars. A fine band of music also kept playing during the whole evening.

The St. Charles Hotel was also illuminated, being of about eighly dollars. The thief was not known. the only hotel in the city, we believe, that was. The scene which it presented reflected great credit on S. Haven's extensive buildings on Market street were an excellent show. A transparency was stratched across the entire front with the following: "GLORY TO GOD IN THE HIGHEST."

In front of Weyman's Drug Store, on Smithfield street, was a transparency with this inscription : "ON EARTH, PEACE; GOOD WILL TOWARD MEN."

There was also a German motto, but our Teutonic reporter being engaged somewhere in discussing 'zweilager and ein pretzel," we are unable to give the

The Journal effice, on Third street, also presented fine appearance, the windows on the lower floor being covered with appropriate inscriptions.

Many of the houses in the suburbs were finely illuminated. Among them we observed the residence of Thos. Holmes, Esq., on Grant street, which made a display in every way creditable to its owner. The office of the Telegraph Company was also an entire front of light, the motto of which was an exceedingly appropriate one.

The Mayor's Office, Treasurer's Office, and the armories of the Blues and Greys, in the Wilkins building, on Fourth street, were brilliantly lit up, and a constant succession of fire works was kept up before the house for several hours.

In their operation as a cathertic, they influence more the motory and less the secerating power of the bowels than any other combination in common use.

AS A TONIC—They agree with the most delicate stometh, removing nausea, pain, and debility from that organ, and through it impart tone and vigor to the whole system.

AS AN ANTI-DYSPEPTIC—They neutralize and interrupt the formation of acids, check fermentation, and prevent the elimination of gases from the food in the stomach,—the direct consequences of chemical action,—an action which should never exist in the human stomach. From these peculiarities in the Pills, a person taking them may expect a free, full and natural evacuation of the bowels, without pain, nausea, local or general debility, or that disgusting sickness or costiveness—the usual effects which at tend or follow the use of other purges.

I first used them for "sick headache," with which I suffered beyon'd description; I am happy to say, that they entirely cured me. Since then I use them as a family medicine: if I am bilious, or anything alls me, and I require medicine, I take a Pill, and it cures me; they are my only medicine, and have been for the last seventeen years.

Hear Dr. Keyser.

Messes B. L. Fahnstronk & Co—I have had considerable experience in the use of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which you are now the proprietors, and have often felt their benign influence in my own case for "nervous headache," arising from a disordered condition of the stomach. I have likewise prescribed them for others, in cases of "hemicrania" and other forms of headache depending on a deranged and irritable condition of the actuach and digestive organs, of which they seem peculiarly adapted, being entirely free from any griping tendency. I regard them as a very valuable Pill, and one that purges without at all debilitating. Yours truly,

FREE O. J. Wood's Deer Sir:—I have heard much said of the wonder on effects of your Hair Restorative, but having lacen so often cheated by quackery and quack nostrums, hair dyee, &c., I wan disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack renedies, until I met you in Lawrence county is some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and ontrely white, and before exhausting one of your large bottes, her hair was restored nearly to its original beautiful brown color, and had thickned and become beautiful and glossy upon, and entirely yover the head; she continues—to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are uging your Restorative, with the happlest effects herefore, my skepticism and doubts in reference to its character and value are entirely removed; I can and do and most coidaily and confidentially recommend its use by all who would have their hair restored from white or gray (by reacon of sickness or ago,) to original color and beauty, and brall young persons woo would have their hair beautiful and res, No. 251
