Ventilating Railroad Cars. A car has been fitted up on the Pennsylvania Rail road with a ventilator, patented by Mossra. D. H. Fox and John Fink, of Reading, and on Wednesday morning it was tested by a number of gentlemen, the cor-being run from Philadelphia to Paoli and back. The windows and doors of the cars were closed tight, the only air getting into the car being through the ventilating apparatus, placed under the floor. Of course no smoke or cinders could annoy the passengers, while the temperature was agreeable when the car was in quick motion, and rather more comfortable than ordinary cars are on a hot day. The apparatus is simple, and easily attached to the cars. Beneath the floor of the ear is a driving pulley, attached to one of the axles, from which a belting run to a fan pulley fastered under the centre of the car. A double fan is placed on a single shaft, with the fan pulley between each fan, and having two outlets. One of the fans draws fresh air from the top of the car through a broad tube running down one side of the interior of the car, and communicating with the fan, which passes the air each way through a tank of water, and drives it into the car through registers set in the floor. The air is purified of dust and sparks by means of spray wheels in the water tanks, which are kept in constant motion. Fresh air is also supplied by this part of the apparatus. On the top the car a long, shallow tube is fastened, which communicates with the ventilater in the roof. This tube is connected by several branches, with the tube running down inside the car, and which enters the inlet the exhaust fan underneath, and thus allows the feul air to escape. This also performs a powerful suction inside of the car, and carries off rapidly all vitiated air. In fact, a dezen persons may smoke cigars without the fames being offensive to the most tidious. The experiment gave entire and decided Satisfaction to all who enjoyed the trip, notwith-standing the speed was reduced below that for which

Confidence Men.—Two sharpers, who gave their names as Hiram and Thomas Lilly, of New York, have been victimizing the good citizens of Washington county. Upon their first appearance in the neighborhood they represented that they owned a throshing machine, and wished to engage threshing. After getting the confidence of the farmers in this way, machine, which was to be shipped from the east, and succeeded in buying upon credit one horse from Mr. Aaron Gamble, two from William Jones, of Notting-ham, one from Mrs. Murray, and one from D. Rial, of Carrell. After manœuvering for some days the scamps succeeded in getting their purchases collected together, leaving their valuable "paper" in the hands of the daped, and took their departure to parts unknown with the horses. They left one of Mt. Jones' horses with him in pledge of their good faith to puy for the other! Some other of the citizens of the neighborhood hold the "promises to pay" of these fellows.

People know very well that a violation of the common law involves a penalty, and yet utterly ignored the fact that Nature is still more inexorable Man the Legislature, and visits with corresponding punishments every transgresson of her laws. 🥕

----Rats.-When a house is infested by rats which rafuse to nibble at roasted chees, and the usual baits, a few drops of the highly eco ated oil of rhedium, poured on the bottom of a cago trap, will almost inviriably attract is full of the "nischievous little residents" of or ore merning. We have known this to be tried with the most extraordinary success. Where a trap, baited with all manner of edibles, had failed to attract a single rat, the oil of rhedium caused it to be completely crowded night after night, until the house was cleared of the noisome visitors. So says one of our exchanges.

---Fayette County Railroad .- The letting of this road was awarded to F. Baldwin, C. Snyder & Co., on the 11th inst. This road is ten miles and three quarters in length from its intersection with the Pittsburgh and Connellaville Railread, one mile and quarter south of the latter place, to Uniontown The contractors are energetic and reliable men, and will push the work rapidly to completion. Already arrangements are being made for the construction of the bridge over the river above Connellsville; the balance of the read will be commenced immediately

Fatal Accident .-- A molancholy and fatal accident occurred in Saltlick township, Fayette county, on Monday last, by which an estimable citizen, Mr. Christian Bungard, lost his life. He was standing close by a tree which his son was felling, with an axe on his shoulder, when the tree fell in a contrary direction to what either of them expected, and striking Mr. B., crushed him to the earth, breaking his legs, and sinking the axe into his head and shoulder, causing almost instant death.

Coal Mine on Fire .- The coal mine of the Belmont rolling mill, in Centre Wheeling, eaught fire on Tuesday night of last week, and burned with great rapidity. A short distance from the mouth of the oal bank, a pit is sunk to admit air From this the firmes streamed brilliantly some fitteen feet, from the combustion of gas within. Three streams of water were poured into the pit all day of the 12th, without drowning out the fire. It caught from the furnace used to expel foul air and gases.

The True Press, of this city, stated that Horace Greeley was to deliver the address before the Fayette County Agricultural Fair, to be held at Connellsville next month. The papers in that vicinity say they have received no information of the fact. Where did the Press get the information?

AUGUST 20, 1858. Singer's Sewing Machines.—We have heretofore neglected to refer to the advertisement of R. Straw, No. 32 Market street, in another column. He is the agent in this city for Singer's Sewing Machines, one ---of the oldest and best now in use. It combines many advantages which are not found in the cheap machines which flood the country. Mr. Straw has received a full supply of the new Family Machine, which is highly ornamental, besides being light, compact and durable, and doing its work fully as well as the larger machines.

The Custom House .- In our notice of the illumination on Thursday night, we neglected to mention that the Custom House and Post Office building was appropriately and tastefully decorated. From every window an infinity of candles poured forth a dood f light, and from the window of the office of R. Biddle Roberts, Esq., U. S. District Attorney, was suspended a large and beautiful flag. The display vas highly creditable to the officers who have charge of the building.

Pickpockets.—On the evening of the illumination Fifth street presented a fine field of enterprise for this clars of operators. We heard of several persons by were relieved of small amounts of cash, and a gontleman from Crawford county lost a valuable gold watch while looking at the illumination of the Post watch while looking at the illumination of the Post building. The police have not, we believe, made any arrests. The crowd was so dense that the adroit rascals had an excellent opportunity of making their escape.

Suspected Thieves .- For some days Mayor Weaver they next said they wished to buy horses to run their and his police have been on the look out for a man machine, which was to be shipped from the east, and ramed Kinkerbaum, who is charged with stealing sixty five dollars from a person in Philadelphia They were, however, unable to get sight of him until Thursday, when officer Moon found him in company with another young man named Manypenny. They were both arrested and locked up for hearing. Mayor has received a despatch from Philadelphia requesting that they should be detained in custedy.

Obscenity.-Three young man, whose names we will suppress this time, were arrested and taken be fore Mayor Weaver, yesterday afternoon, charged with indulging in the grossest obscenity on Wood street. Hydrophobia.-On Thursday two of the Allegheny police officers killed a large dog in the First Ward, Allegheny, supposed to be mad. The vicinity of Water street was much excited by the event. The Greatest Bargains of the Season, in Furniture

Bedding, etc., are now being given at the St. Clair. All our readers, in want of the above articles, should attend the sale this morning at ten o'clock.

Indeed, no remedy, perhaps, in the same period has attained such an extended popularity as Dr. Barrows, President of the Pittsburgh Female | the Poctor's Bitters, which are ever regarded as a certain cure for distress of stomach. AS AN ANTI-DYSPEPTIC—They neutralize and interrupt the fermation of acids, check formentation, and prevent the elimination of gases from the food in the stomach,—the direct consequences of chemical action,—an action which should never exist in the human stomach. Extract of a letter from G. W. Irwin, Nathville, Tennessee, February 16, 1868.

MESSES. B. L. FARNESTOCK & Co.—Dear Bir: I have seen Dr. R. A. Wilson's Pills used for the ague with good effect; I have used them myself, and believe them to be the best Pill in use I have no doubt they will cure many other complaints when properly used, and I cheerfully recommond them to the public. Respectfully, yours, G. W. IRWIN.

From Colonel Wm. Hopkins, late Canal Commissioner. Washington, Pa. January 8, 1858—Dear Doctor: I have been using your "Anti-Dyspeptic" Pills, when occasioned required, for many years, and can truthfully say that I have never found any medicine equal to them in relieving me from affections of the stomach and head. They have never failed to relieve me from headache, and have always left my system in better condition they found it. I must confidently recommend your Pills as a safe and highly valuable medicine. Messes. B. L. Farenessour & Co—I have had considerable experience in the use of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which you are now the proprietors, and have often felt their benign influence in my own case for "nervous headache," arising from a disordered condition of the stomach. I have likewise prescribed them for others, in cases of "hemicrania" and other forms of headache depending on a deranged and irritable condition of the stomach and digestive organs, of which they seem puculiar. tomach and digestive organs, of which they seem peculiar y adapted, being entirely free from any griping tendoncy, regard them as a very valuable Pill, and one that purges without at all debilltering.
