Work of an Incendeary. On Saturday morning, about three o'clock, the large caw mill of Michael M'Cullough, Esq, situated on the bank of the Allegheny, in the borongh of Lawrenceville, was destroyed by fire. The larg is estimated at thirty-five hundred dollars, upon which IST J. M. OLIN'S CFLEBRATED STOMACH BUT-there was no insurance. Fortunately none of the lomber in the vicinity of the mill was burned. The are all they are recommended to be. The proprietor dors mill had not been in use for some time, and the fact not protend to say that they will cure all the diseases flesh that the boller was open prevented an explosion. The fire is supposed to have been the work of an incendiary. For some time there have been lurking that they are all they are recommended to be, and far anabout Lawrenceville a number of vegabonds and vagrants, committing potty entrages of various kinds. The people were afraid-of them, and declined to make complaint and have them arrested for fear of their revence. Four of these vagabonds were nogrees, who appeared to have no habitation-sleeping in onthenses, wherever they could. On the day previous to the fire a white ragaband, who had been ac-customed to sleep in Mr. M'Cullough's mill, named Jumos Davis, was, on his complaint before Alderman Parkinson, strested, bat made his escape. This man is suspected of having fired the mill, as he had made it his sleeping place for a number of nights previous. Warrant has been issued for his arrest. Several others of these vagabonds are also suspected of having bion concerned in the incondiarism.

In their operation as a cathartic, they influence more the motory and less the secenting power of the lowels than any other combination in common use. AS A TONIO—They gerse with the most delicate stom-act, removing nausea, pain, and debility from that organ, and through it impart tone and vigor to the whole system. AS AN ANTI-DYSPEPTIO—Thoy neutralize and inter-rupt the fermation of acids, check formentation, and pre-vent the elimination of gases from the food in the atomach, —the direct consequences of chemical action,—an action which should never exist in the human stomach. From these peculiarities in the Pills, a person taking them may expect a free, full and natural evacuation of the bowois, without pain, nausea, local or general debility, or that dis-gusting sickness or costivenees—the usual effects which at tend or follow the nae of other purges. **CERTISICATES** of Communition is based upon the fact that the discase early Warohouse, No. 27 Wood Street. January 8, 1865. Hear Dr. Keyter. MESSES, B. L. FARMESTOOR & CO-I have had considerable experience in the use of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which yon are now the propri-etors, and have often felt their benign infuncace in my own case for "nerrous headache," arlsing from a disordered con-dition of the stomach. I have likewise prescribed them for others, in cases of "hemicrania" and other forms of head-ache depending on a deranged and irritable condition of the stomach and digestive organs, of which they seem peculiar-ly adapted, being entirely free rom any griping tendency.
