As a matter of course these parties seek the columns of the opposition press as the medium of their attacks upon us, knowing that whatever is an

ti-Democratic is welcome to these journals. In the True Press of Saturday, side by side with a leading article of the blackest Black Republican and rankest Abolition tendency, appears an article of a column, by the style of which we think we recognize the author.

This article is but a tissue of misrepresentations and falsehoods regarding the Post and its editor. Such attacks upon us fall harmless, so far as the Democracy is concerned, for they know the high Democratic | Hamilton county, put in nomination by the ground which the Post has taken, and approve | Convention, on Thursday: it, and besides the medium of publication reaches very few of the real Democracy outside the two cities.

In this article we are charged with favoring the call for a new convention. The writer in the True Press knew that this was untrue when he wrote it. He knew that, again and again, we had declared that the Post would support the ticket regularly nominated by the delegates of the party, on the 18th of August. He knew that when this new convention was first mooted, the Post at once and in set terms | cast overboard by the Democracy for incondenounced the movement as anti-Democratic sistency and treachery, has been nominated and useless. He knew that week before last by the Know Nothing and Black Republican we spoke of this convention in the following | party, of Erie county, for the State Senate. words, which we quote, and he also knows that the call for the convention appeared in our advertising columns without reference, note, or comment. When we first heard of this new conven-

tion movement, we said : The Convention of Wednesday last was the regularly called and regularly organized Con vention of the Democracy of Allegheny county. Its delegates were elected by the people, and rep. of the United States. It will be seen that resented the people. The ticket which it nom. inated, and which may be found at the head of the editorial columns of the Post, is the regular the whole valuation, equaling the combined Democratic Ticket, and as such we shall give it our most hearty support. We are not content that the Conventien should have ignored the great national principles of the party, and refused to endorse our Democratic President.-But this new movement is anti-Democratic, and factories, mills, gold and silver coin, and buls should be frowned down by every true Demo. enould be frowned down by every the crist. We support the ticket because it is a good one, and above all, because it is the Democratic ticket. The Post is not accustomed to get "screheaded," because it cannot have things its own way. It is a Democratic paper, and will support Democratic doctrines.

Any movement calculated to weaken the strength ject to the ticket. We support the ticket be-

nated, will meet with no favor from the Post. In the face of this the True Press writer, charges us with favoring the call for a new Convention. The lie is cut out of the whole phia, on Saturday, for the purpose of nomicloth, and betrays the character of the man nating candidates for Congress. The followwho wrote it.
