Charge of Murder. Robert Arnold, who, it will be remembered, was the principal witness in the case of Henry Moore convicted of counterfeiting, on Wednesday, in the District Court, was arrested, yesterday morning, by Constable Clark, of the Second Ward, on a warrant issued by Alderman Steele, on a charge of murder. Mrs. Maria Moore, wife of Henry Moore, states that she believes that Arnold poisoned his mother-in-law, Mrs. Walker, who died during last winter or spring An examination was had before Alderman Steele the afternoon. She asked him if he, being a church member and to not in that manner, to which he replied that he did Allegheny County, Pennsylvania, and has been re-echoed es good a Christian as he professed, was not ashamed not care a d-n for the church; he only went there from one end of the Union to the other as orthodox by pa for a sham. He said he would soon have anothe out of his way; that was his wife; for he did not like her and never would; he said he wanted to get | Saturday, the 11th inst, at the usual places of holding pririd of his family entirely; he did not want to be bothered with them.

On being cross-examined by Thomas B. Hamilton Eq., counsel for the accused, she said she had been acquainted with Arnelds about a year—she never was introduced to him-he came to the house. He first spoke to her about his mother in law being sick in March, 1858. No one but her little boy was ever present at their convergations. She laid this information on the day her husband's trial commenced. She was at Thomas Arnold's, brother to accused, en Tuesday evening. On being asked the ques-tion she denied having told Thomas' wife that if Arnold did not leave the city and not appear against her husband as a witness, she would have him arrosted for poisoning his mother-in-law. The conversation which did eccur she detailed as follows: I asked if Robert Arnold was in ; Mrs. Thomas Arnold said he was not; I asked her when he would be in: she replied probably not before dark; she wanted me to ome in; I told her no, my sistor was lying sick and I could not wait: I told her to tell Robert to come down to my sister's, as I wanted to see him; she

He said he would kill her dead on the spot He then asked her to take a walk up the cancal, which she refused, saying it was too late, being then nine o'clock, and that she did not make a practice of going out so late; besides, her sister was fick, and she next go in. He then said, "You are just talking; the scythe accidentally inflicted a severe gash in his arm near the wrist, outting an artery. Fefore medical what you have told me." He cursed the boy and said to he at him go, that I should never want while he had at tything. I told him he had his own family to supp ort. He said, "D—n the family; I don't care for them." Then he added, "You are mad now: I "li see you to more and now in the family to some weeks since. "You are mad now; I 'll see you to-morrow." He then went away, and I have had no conversation with him since. As ne ar as I can recollect, this was on Friday night. It ains that was all he said.

Dr. J. D. Baldwin, jail physician, testified that he had been Robert Ar mold's family physician for more

than three years, and attended Mrs. Walker in her last illness. He first called on the 3rd of January, and concluded his visits on the 12th of the same Conth. Sine died three or four days after he last called. Hoknows Henry Moore, the husband of Mama Mossire. On last Friday evening Moore went to pitm in the jail; asked if he attended Mrs. Walker.
Dr. replied that he did, when Moore told him the reclied that he did. when Moore told him that wife had cald she was poisoned, and asked him bout it in the United States Court-room on Monday. Moore told him that Mr. Swartzwelder wished to see him. He stated that Mrs. Walker was about seventy years of age, and quite feeble. He thought her disthought she died of inflammation of the bowels, produced by vitiated bile in the stomach, from the liver. Mrs. Weiker and Mr. Arnold were on the best of terms. He had conversed frequently with Arnold,

and never heard him use such language as had been attributed to him by Mrs. Moore.

During the illness of Mrs. Walker, there was much indammation of the stomach. Left proper remedies for this, and was surprised to see that they he effect. He afterwards ascertained that she refused to take the medicine left, as she had an idea she would die, and did not wish to live. He had a conversation with ner, when she said she wanted to die. Hethen offered her some medicine, which she refused to swalouered her some medicine, which sho refused to swal-iow, until Robert Arnold asked her to take it, which she then did readily. Finding that his prescribed directions were not followed, he gave up the case, slying he would not return, and did not.

On cross-examination the Dr. stated that corrosive priscus, such as corresive sublimate, arsenie, or preprations of lead, would produce the same effect as bile from the liver. Any of these poisons could be detected ten years after death, as they were mineral and could not be destroyed. At the time of Mrs. Walker's death it did not strike him that she died by poison; there was a possibility, but not a probability

of it.

Mr. Arnold was very attentive to his mother integrand Dr. Beldwin had often seen him throw his gruns around her neck and kiss her, during her illegrand was unusual.

We, the subscribers, Ministers of the Gespel, and members of the Pittsburgh Annual Conference of the Methodist Episcopal Church, having each and all of us, during the past the character of Dr. R. A. Wilson's Tonic, Cathartic, and Anti-Dyspeptic Pills, are prepared to, and now state with pleasure, in this communication, that we know them to be an excellent medicine, and, as such, recommend their use to our friends and acquantances, not only as a specific for Sick-Headache and Dyspepsia for which they are recommended, but as a safe family remedy among children, and for the prevention and removal of Billous attacks, etc.

My experience is not as extensive as the expression in the above certificate; but as far as my opportunity of testing the virtues of Dr. Wilson's Pills has occurred, I cheerfully endorse the sentiment of their superior value.

Dis Wilson:—I feel myself a thousand times chilged to you I have for some years been afflicted with the dyspepsia and, from the good effects already produced by your pills in my case, I am persuaded that the continued use of them will finally effect a thorough cure; I therefore, wish you to send me four boxes by the bearer of this, and oblige yours, etc.

medicine.

I do most carnestly hope that you will adopt some plan of suppry us with your most excellent Anti-Dyspeptic Pill. Late been in the selft of using it myself, and in my family, (r.m. ii) then you first brought them into use in our set, heart, if and upon all occasions have found them to has a very much afflicted with sick-headache, and by using one-half of one of the pills, has uniformly found relaf. I think it superfluous to enumerate the different complaints for which I have administered these pills. Suf it to say that, so far as the numerous complaints set out the wrapper have fallen under my notice, the pill has had e desired effect in removing the same; and so far as my off have been concerned, I can may that they leave the lowels in botter order than the use of any other cathartic that I have used,
