THE CHEMICAL OLIVE ERASIVE
SOAP, manufactured by B C. & J. L. Sawyer, re-
receives the preference over all other kinds ever offered for
family nee.
Its advantages over other Pospo are a lat It is cheaper
to use, one pound being equal to three I common roam
Some. 2d. Haif the that mood entry or a capied in washing
when this Soap is used in place of other Soap. 3d. Labor
in washing can be nearly dispensed with, as the clother
will require little if any rubbing, thus avoiding their wear
on the wash-board. 4th, Boiling the clothes is unnecessary

Somp. 2d. Haif the that head only on a capied in wishing
when this Soap is used in place of other Soap. 3d. Labor
in washing can be nearly dispensed with, as the clother
will require little if any rubbing, thus avoiding their wear
on the wash-board. 4th. Boiling the clothes is unnecessary
when this Soap is used, and hard or salt water answers
equally as well as soft. bth. Printers, Machinists, Painters
and others, find it far superior to other Scaps. It speedily re-
moves greese, tar, paint, printers' ink and dirt from the
hands, leaving the skin soft, and free from chapping.
To avoid the labor of rubbing the clothes, and the use of
the wash-board, the following directions should be followed:
For the washing of eight or ten of a family, take one
pound of Soap, cut it into shavings, and dissolve in one
gallon of hot water; put the clothes into a tub containing
about ten gallons of warm water; pour in the dissolved
Soap, and stir thoroughly. Let them soak twenty to thirty
minutes, wring out, and rinse in warm water once, cold
water twice. A very dirty wrist-band, or scam, or grease
spets, may require a slight rubbing, but otherwise the
clothes will come out clean and white, without rubbing or
boiling. Cold water may be used in place of hot, requiring
about double time in roaking.
Observe our name on each bar.
Observe our tisule on each but.

boiling. Cold water	r may ba usau in place of not, requirin
about double time i
