Reformation of Criminals. The reflection has frequently been forced upon us from observation, that our prison system is defective in one point, and a very material one. The difficulty lies in the fact that when the term of imprisonment of a culprit has expired, he is at once turned loose, and naturally seeks his old haunts and associates. man is guilty of some crime for which he is tried, western Ponitentiary. Especially, if confined in the latter establishment, he has time for reflection, and if there is any good in him, before his term has expired, he will have formed a resolution to do better

a future—to "turn from his wickedness and live -sincerely regretting his former evil ways. Yet, too often, when he is at liberty, he knows no place to go, except to those haunts where he will meet with the companions of his early crimes, who will soon have him back to the paths of vice. Very frequently, especially after a long confinement, he is destitute and without the means of obtaining an honest livelihood. Then the old temptations, the force of habit

and association, will strike on him with irresistible power, and reening some who should speak a kind word in the sum of two hundred dollars. lend a helping hand to again raise him to the evel of the human race, he is soon guilty of crime once more, and his name is seen in the police records, coupled perhaps with an allusion to his records, coupled potation and its cause.

Sut there are many cases in which the hardened criminal feel no penitence during his confinement. He has become soured at the world, and imagining that he has been most foully wronged, broods over

his imaginary wrongs, and taking up the highway-man's philosophy that "the world owes me a living," concocts now schemes of villainy and revenge to be Packer, on the 15th. consummated on his release. When he does regain and he was released. iberty, he seeks out others as hardened as himself and they go on in their old course, with the addiional advantages of experience in eluding pursuit, and in planning and executing villainy, gained by prison contact with others of their stamp. The effect of turning such a man loose on society is exceedingly SHAWLS AND CLOAKS, of turning such a man loose on society is exceedingly rately estimated.

Old philosophers, who have made the mind their study, tell us that crime is a species of moral insanity, and should be regarded as such. It would be proper, then, to treat criminals in the same manner s lunatios, viz : by breaking up old connections and associations, making an entire and therough change in their habits and employments, and also by following out the effective plan adopted by those entrusted with the care of the demented, of making kindness the principal element in their government, persuading rather than coarcing, and governing by love ather than force or power. By our neighbors over the Atlantic, the transportasystem has been adopted, and we must admit, that although from time to time, great fears have been entertained as to the result of the concentration INSERTINGS, ETC. of such a mass of criminals, the colony of Sidney, though at first composed exclusively of maiofactors from England, is now one of the most prosperous ourishing and moral sottlements in the South Sea Islands. It would seem as though these men were

made honest by the force of circumstances; being placed where they could only prey on each other, heir excesses corrected each other, and produced a healthy result. Yet this system has its objectionable features, as being not only unfair to the locality to which the criminals are transported, but from the fact that there is a possibility of its being carried on o such an extent as to form a society of criminals vert all law and order, take the law into their own ough renovation of their cotice system, should not fall to hands, and allow murder, rapine, and crime to run use the "Bittera" riot. Then to those strongly impressed with love of country, this banishment would be harrowing in the

extreme, and acting on the strongest ties which force men to respect the laws, would have the tendency to stir up the worst feelings, and thus defeat the desired

honest calling. It would not be well to inaugurate a compulsory system on these farms, but surveillance would be necessary, and a discipline which would preserve the carnings of those employed until they legire to leave. With these farms other restrictions would be necessary, such as regulations making it obligatory on liberated convicts to forsake the scenes It has been found that a change of circumstances

who infest the perlieus of the large cities of our land, cases, into God-fearing christians. ____ Pennsylvania Veterans.-The Allentown (Pa.) Republican notices two aged ment now living in Letownship, which is about six in les from the present esidence in Upper Saucon. The old man said be wanted to take one more drink from the old spring le loved to visit in his boyhood, and around which he saw many a band of Indians assemble, near a contory ago. The other old veteran, Mr. Phillip Weitzel, of Lower Macungy towachip, must be a hearty "old block" of a Democrat. He is over

f timothy. He also assisted to mow in haymaking. Bedford County.—A sad accident occurred on Friday of hat week, near Bedford, by which a little son of Jacob Ringler of that county, only nine years old, was almost instantly killed. It occurred in this wise: Henry Shumper, one of the employ-ees of Mr. Stoner's foundry in Berlin, was driving a wagon on the Bedford pike, heavily laden with iron the boy was on the road in company with his uncle, PLOUR, CORN MEAL, AND HOMINY, Daniel Ringler, and while his attention was attract ed by a woman who had just passed on horseback, one of the horses attached to Shumper's wagon knocked him down, and before the wagon could be stopped the heavy wheels passed over his head, completely crushing it. He died almost instantly. No blame is attached to Shumper, as the boy was unseen by him at the time.

The Effects of Tobacco.—The Dublin Medical Priss asserts that the pupils of the Polytechnic School in Paris have recently furnished some curious statistics bearing on tobacco. Dividing the young gontlemen of that cellege into two groups—the smokers and non-smokers—it shows that the smokers have proved themselves, in the various competitive examinations, far inferior to the others. Not only in the examinations on entering the school are the smokers in a lower rank, but in the various ordeals that they have to pass through in a year, the average rank of the smokers had constantly fallen off, and not inconsiderably, while the men who did not smoke enjoyed a ccrobral atmosphere of the clearest kind.

Pickpockets.—For some time a gang of juvenile pickpockets has infested the vicinity of the railroad lepot on Grant street, and numerous small amounts have been stolen. On Friday morning, Mrs. Catharine West arrived at the depot and stopped on the platform, where she was immediately surrounded by some half a dozen of these expert rascals, and her some half a dozen of these expert rascals, and her pocket-book, containing some forty dollars, forcibly taken from her pocket. This occurred in broad daylight, at cleven o'clock in the morning. The police were put on the track, and succeeded in arresting

Tonic, Cathartic, and Anti-Dyspeptic PILLS PREPARED AND SOLD BY

WHOLESALE DRUGGISTS. AND PROPRIETOR OF

B. L. FAHNESTOCK'S VERMIFUGE, PITTSBURGH, PENN'A.

THESE PILLS HAVE NOW, TO A limited extent, been before the public in this section of the country for a period of over twenty years, and from the fact of their not being more generally known throughout the length and breadth of the land, it might, perhaps, out the length and breadth of the land, it might, perhaps, be inferred that they are lacking in some of the great easentials of a family medicine, or that there are other Pills their superior, exc.; but such, however, is not the case, their supply from a want of disposition or ability, on the part of the original proprietor, (Dr. Wilson,) was always limited to such an extent as at times to render it difficult to fill home orders, but with even this disadvantage wherever used they have never falled to call forth the strongest testimony in their favor—testimony in many instances unsnicited—not cotten.

never failed to call forth the strongest testimony in their tavor—testimony in many instances unsolicited—not gotten up expressly for publicity—but freely proffered to the inventor as expressions of gratitude for the great benefits derived from the use of these truly wonderful Pills, in proof of which we subjoin the following:—

We, the subscribers, Ministers of the Gospel, and members of the Pittsburgh Annual Conference of the Methodist Episcopal Church, having each and all of us, during the pest few years, had frequent opportunities of learning and trying the character of Dr. R. A. Wilson's Tonic, Cathartic, and Anti-Dyspeptic Pills, are prepared to, and now state with pleasure, in this communication, that we know them to be an excellent medicine, and, as such, recommend their use to our friends and acquaintances, not only as a specific for Sick-Headache and Dyspepsia for which they are recommended, but as a safe family remedy among children, and for the prevention and removal of Billions attacks, etc.

WILLIAM REEVES.

From the Rev. I. S. Hubbard, Ohio, Oct 27, 1839.

Ds. Wilson:—I feel myself a thousand times obliged to you. I have for some years been afflicted with the dyspepsia and, from the good effects already produced by your pills in my case, I am persuaded that the continued use of them will finally affect a thorough cure; I therefore, wish you to send me four boxes by the bearer of this, and oblige yours, etc. Surfact of a letter from Col. Camp, an clderly gentleman or Virginia, who has raised a numerous family, of som-medical reading, and much experience in the use o I do most carnestly hope that you will adopt some plan supply us with your most excellent Anti-Dyspeptic Pill. have been in the nobit of using it myself, and in my fami, from the time you first brought them into use in our neighborhood, and upon all occasions have found them to enswer the purpose for which they were administered. My wite has been very much afflicted with sick headache, an

wite has b.in very much afflicted with sick headache, and, by using one-half of one of the pills, has uniformly found relief. I think it superfluous to enumerate the different complaints for which I have administered these pills. Suffice it to say that, so far as the numerous complaints set out in the wrapper have fallen under my notice, the pill has had the desired effect in removing the same; and so far as myself have been concerned, I can say that they leave the bowels in better order than the use of any other cathaftic that I have need. that I have used I am, sir, your friend and well-wisher reliday
