The State Fair. The Fair Grounds presented quite an animated appearance yesterday. In every quarter the note of preparation was heard, wagons were removing t and fro, and workmen were employed in a hundred different employments on the grounds. Everything locks encouraging, giving indications of a fine display of articles, and, in consequence, a large con-All the stalls now erected have been taken, for

Young, who has charge of the grounds, informs us that a number of additional stalls for horses must necessarily be sreeted to day, there being nearly two hundred already entered. In the Mechanics', Machinists' and Artists' Halls every available foot of space is taken, and will be cocupied to-day.

Capt. J. S. Negley, in the Floral Hall, is working wonders. He is erecting a beautiful circular nook, composed of stones, mattress and flowers, in which a fountain will be kept playing continually.

The display in this department will be very flue, as our horticulturalists seem to be taking a deep nterest in making this excel any Fair yet held. Mr. John Price, a well known caterer, has charge of the refectory, and will supply the wants of the inner man in the best style. The programme for the distinct days has not yet been fixed, but we learn that on Thursday afternoon a silver cup will be awarded as a prize to the best emale equestrian, and also one to the best male rider. The interest will concentrate about the ring on that day, which will be in fine order, if the weather continues good. We observed, yesterday, that the track was in excellent condition.

THE first place in public estimation is now Justly accorded to the GROVER & BAKER MA-CHINE, for family Sewing, for the following reasons:lst. It is MORE SIMPLE and HASILY KEPT IN ORDER han any other machine. 2d. It makes a seam which will NOT RIP or RAVEL though every third stitch is cut. 8d. It sews from two ordinary speed, and thus all trouble of winding throad is avoided, while the same Machine can be adapted, at pleasure, by a mere change of spools, to all varieties of work. 4th. The same Machine runs silk, linen thread and spool otton, with equal facility.

6th. The seam is as elucitic as the most elastic fabric, so that it is free from all LLABILITY to BREAK, In WASH-ING, IRONING, or otherwise.

6th. The stitch made by this Machine is more BEAUTI-WIL than any other made, either by hand or machine. OPINIONS OF THE PRESS.
