PITTABURGS, September 39, 1868
Hon. D. Taggart—Sir:—Your friends west of the mount Hon. D. Taggart—Sir:—Your friends west of the mountains bid you welcome to this the workshop of Pennsyl vanis; and we avail ourselves of this, your first visit as "President of the State Agricultural Society," to tender you a public entertainment at such time during your sojourn as may best comport with your leisure.

We are well aware of the arduous duty in which you are engaged; but no person can be insonsible to the many advantages that will be derived from the knowledge and seal and industry you brin; to bear on this important branch of wealth to our wreat and growing Commonwath; and to you, sir, we field, as citizens of Pennsylvania should ever you, sir, we field, as citizens of Pennsylvania should ever feel, that you have done much to uphold the character and standing of the farming interests and the industry of our people.

MONONGABELA HOUSE, October 2, 1858 DENTIFIER: —I am both surprised and gratified that are been able to win from you so decided a mark of you pprobation. I am the more gratified, because it is proved by the citizens of Pittsburgh and its vicinity, for who generally, and for you especially, gentlemen, I entertain an admiration and regard which I have not hesitated to express on all occasions.

The carnest zeal you have manifested, and the efficient services you have rendered to the Institution which I am proud to represent, entitle you to the gratitude of every friend of the Society in Pennsylvania. Our cheering success is much more attributable to the energy and public spirit of the people of Allegheny county, than to the willing, but comparatively feeble, efforts of my cetimable contributers and preself. Emigrantly a city of workers, Pittaburch ing, but comperatively feeble, efforts of my cetimable coad-jutors and myself. Eminently a city of workers, Pittsburgh has given additional evidence of her skill, her enterprise, and the greatness of her resources. Never before has there been witnessed in Pennsylvania so wonderful a display of the products of agriculture, mechanical and manufacturing industry—newer before so commendable a disposition among the people to foster, by their patronage and good-natured approval, a worthy and benificent cause.

I am sorry to decline your hospitable and generous offer, i shall be compelled to return home at the earliest possible moment.

With assurances of the highest regard, I remain, very truly, your friend, DAVID TAGGART. To Hon. H. A. Weaver, Wm. Wilkins, R. H. Kerr, Jonas R. M'Clinteck, W. J. Morrison, W. A. Stokes, Thos. M. Mr. Roberts, the Tragedian.—This talented notor made his first appearance this season at Porter's presented by many of his admirers. Mr. R. is a garateman of rare histrionic merit, and his acting is a relief after the dall communiplaces we are too often obliged to endure. His personation of the "crock-back'd tyrant" last evening was the best we have seen since the lamonted Booth. This evening he appears as Richelicu. Cold Rolled Shafting .- We have more than once adverted to the superiority of the shafting manufac-tured by Jones & Lauth, of the American Iron Works, under the patent of Mr. Lauth. We learn incidentally that this shafting is now used exclusively by Hee & Co., pross manufacturers, of New York, who have tested it and found its good qualities, and its superiority over hammered and turned shafting. The shafting manufactured by this firm Ard all pertaining to the business. With eighteen years is compressed to the required size, and is said to be more than double the strength of ordinary turned shafting. Its great advantage, however, is the reshafting. Its great advantage, however, is the reduced price at which it can be furnished. Mesers. J. & L. will sopply it at the rate of six cents per pound for any size, while that usually sold brings ten to twenty cents, the former being fully equal in appearance and finish. This popular firm have filled many orders for this valuable invention, and are

Karl Formes in Cincinnati.-Kerl Formes and the troupe accompanying him have been well received in Cincinnati, but on last Wednesday evening a portion of the Orchestra "got under a cloud." They per-formed in Smith & Dixon's Hall, where a portion of the scenery belonging to the Mursh Junoniles yet re urulched. mained. The Commercial says: "During the performance, by the orchestra, of the Cricket Pelka, on Wednesday evening, one of the trap-doors, through which the fairies come and go, gave way under the more solid proportions of the Formes Troupe, and, amid shouts of laughter from the audience, the ketthe drams and several of the performers made a most "effective disappearance," throwing the orchestra in-to some confusion, and for the moment startling the Cricket into silence. The interruption, however, was but momentary, though more than once before the

Dn. WILSON:—I feel myself a thousand times obliged to you. I have for some years been afflicted with the dyspepsia and, from the good effects already produced by your pills in my case, I am personaded that the continued use of them will finally effect a thorough cure; I therefore, wish you to send me four boxes by the bearer of this, and oblige yours, etc.

Extract of a letter from Col. Camp, an elderly gentleman of Virginia, who has raised a numerous family, of some medical reading, and much experience in the use of medicine. do most earnestly hope that you will adopt some plan

I do most carnestly hope that you will adopt some plan to supply us with your most excellent Anti-Dyspeptic Pill. I have been in the nabit of using it myself, and in my family, from the time you first brought them into use in our neighborhood, and upon all occasions have found them to answer the purpose for which they were administered. My wife has been very much afflicted with sick headache, and, by using one-half of one of the plils, has uniformly found rellef. I think it superfluous to enumerate the different complaints for which I have administered these pills. Suffice it to say that, so far as the numerous complaints set out in the wrapper have fallen under my notice, the pill has had the desired effect in removing the same; and so far as myself have been concerned, I can say that they leave the bowels in better order than the use of any other cathartic that I have used, that I have used

Its advantages ever other Scaps are:—ist. It is cheaper to use, one pounded in general to three of common rosin Scap. 2d. Mait increase in place of other Scap. 3d. Labor in washing when this Scap is used in place of other Scap. 3d. Labor in washing can be nearly dispensed with, as the clothes will require little if any rubbing, thus avoiding their wear on the weak-board. 4th. Boiling the clothes is unnecessary when this Scap is used, and hard or salt water answers equally as well as soft. 5th. Printers Machinists, Paintors and others, find k far superior to other Scaps. It speedily removes grease, 62, paint, printers ink and dirt from the hands, leaving the skin soft, and free from chapping.

To avoid the labor of rubbing the clothes, and the use of the weah-board, the following directions should be followed:

For the washing of eight or ten of a family, take one pound of Scap, cut it into enavings and dissolved in one gallon of het water; put the clothes into a tub containing about ten gallons of warm water; put in the dissolved Scap, and stir thoroughly. Let them scak twenty to thirty minutes, wring out, and rinse in water water once, cold water twice. A very dirty wrist-band, or scam, or grease spots, may require a slight rubbing, but otherwise the clothes will come out clean and white, without rubbing or boiling. Cold water may be used in place of hot, requiring about double time in scalking.
