

The crown had proved abortive. He embarked at Corsica on the 28th Sept. with about 250 men in a number of barges, and after encountering severe weather, they succeeded in landing on the coast of Calabria, about the 6th October; but the people being averse to him, he was met after a few days, and after a hard fought action, was defeated and taken prisoner. It was reported at Leghorn on the 17th, that he had been tried by a military tribunal and shot.

PHILADELPHIA.

France.

We have been informed by a gentleman from Havre de Grace, in the Terrier, that Marshal Ney had escaped from his imprisonment; but of his destiny he is not informed.

He further states that the presence of the allied forces, alone, prevents revolutionary scenes in France.

We believe that terrible times are at hand in that devoted country. In the present temper of the nation, nothing but a despotic military government will satisfy the people. They are not republican, nor are they to be governed by constitutions and laws. The will and power of a military despot can alone control their turbulent and belligerent character and propensities. Nothing can be more farcical than the imbecile superannuated Louis attempting to govern such a people. Our philosophical president was just as able to command respect for our naval establishment, by his ridiculous gun-boats, as the old dotard king to restrain his children.

COMMERCIAL TREATY WITH ENGLAND.

The London papers have given an outline of the commercial treaty, which they say has been, or is about to be concluded between Great Britain and the United States.

The first article of said supposed treaty, is the dispensing with the Navigation Laws of both countries, or in other words, the foreign Tonnage duty is mutually given up.

The 1st article according to the reasoning of the London Morning Chronicle, will operate in the ratio of 12 to 1 in favor of the American merchants.

The second great article in the treaty is a grant on the part of great Britain to the Americans to trade to Calcutta, the Peninsula of Hindostan; while the trade of China belongs to the East India Company, which has no power to obstruct the intercourse of either Americans or any other foreigners there.—The United States will therefore have access to traffic with every possession the British hold in the East Indies.

According to the ideas of Europe; (continue the London editor) this grant must not only be viewed in the light of a great commercial advantage, but also of a political favor.

The third article prohibits the British from trading with the Indians within the jurisdiction of the United States.

The London editor concludes by observing, that by this treaty the Americans are the gainers; while all the concessions, favors, &c. come from Great Britain.

PROPOSALS OF

Gillmor & Hamilton,

EDITORS OF

THE CHRONICLE OR HARRISBURG VISITOR.

The Chronicle has heretofore been published by Gillmor alone. During this time it has obtained, throughout the state, the character of an independent republican print, untrammelled by party prejudice, and uninfluenced by men in power. As it has been, so it will continue to be conducted, by its present editors, on the liberal and broad basis of republicanism. To men of merit, and of integrity, the Chronicle will always be devoted in times of political contention.

To Hamilton, now an assisting editor, the Chronicle was indebted, last winter, for the legislative debates and proceedings. An increased attention will be given to this department of the Chronicle during the present and succeeding sittings of the General Assembly of Pennsylvania.

A large surplus number of the Chronicle was printed at the commencement of the last session of the legislature; yet the demand for the debates so much exceeded expectation that many were disappointed in not obtaining a file. To prevent a like disappointment our friends to whom subscription papers have been forwarded, are requested to detain them no longer than is necessary for their neighbors to subscribe; they will then please to forward them, without delay, to the office of the Chronicle.

Subscribers for the session of the legislature will please to write "SESSION;" and so on for six months or a year.

CONDITIONS.

1 The Chronicle is published weekly at two dollars a year, exclusive of postage; one dollar to be paid in advance every six months.

2 Subscriptions during the sittings of the legislature will be seventy-five cents, paid in advance, otherwise the paper will not be forwarded.

3. The Chronicle will be printed every Monday evening, and forwarded to subscribers by the first conveyance.

Subscriptions received at this Office.

NOTICE.

ALL persons indebted to the subscriber in any way whatever, are particularly requested to make payment on or before the 15th of March next, as I must at that period, myself, have made up a considerable sum of money.—If this notice is not complied with, costs, however disagreeable, will most assuredly be the consequence.

Archibald Vandyke.

PRINTING,

of ALL KINDS,  
Neatly executed at this Office.

IMPORTANT.

Some time ago, we made a demand upon those indebted to us, to call during the week of the November Court, and make payment. The little attention paid to that end has induced us to try whether there is not a surer, and more ready mode of collecting money. We, therefore, respectfully inform our subscribers and advertising customers, that they will shortly be waited upon with their bills, in the hope that all those who can, possibly, will be prepared to discharge them.

No class of laboring men, perhaps, in the community, are more badly paid than the Printers. Why is this the fact? We do not suppose they are less worthy of their hire, nor that the sums respectively due them are so large as to render payment difficult or embarrassing. Quite the contrary. None are more easily paid, and none labor harder or more usefully for their little pittance than they do, and none, we believe, pay a greater proportion of expense to the product of their labor. Discerning men cannot but see the propriety and necessity of paying a printer punctually, and generous men will never withhold that which they know to be justly his due, longer than they can conveniently avoid it.

For Sale,

A Surveyor's Compass, with all the instruments belonging thereto. It will be sold reasonable. Any person desirous of purchasing, can have an opportunity of doing so by calling on the subscriber, near Spring Mill, Haynes township, Centre county.

To this demon have thousands fallen a sacrifice, in the direful transports of its rage.

The most common symptoms of its commencement, are, weakness, flatulence, palpitations, watchfulness, drowsiness after eating, timidity, flashes of heat and cold, numbness, cramp, giddiness, pains in the head, back, and loins, hickup, difficulty of respiration and digestion, anxiety, dry cough, &c.

The Vegetable Nervous Cordial is also a great Antiscorbutic Medicine, and is of infinite service for purifying the blood, and curing those foul disorders of the skin which commonly appear in the form of Scoury, Surfeit, Red Blotches, Carbuncles, Ulcers, &c. &c. A dose of the Anti-Bilious Pills, taken occasionally with this medicine, proves of additional service in the last mentioned cases.
