cheap for cash. Send on your funds.

We have the best apology in the world for not issuing a paper last week-we had none to issue. It was not our fault,-we sent the order and the money in ample time, but there was no paper to be had, and its just as impossible to print without paper as to live without food, both of which articles are exceedingly scarce just now. Our readers will have to bear with us these hard times, and always remember that the more money they furnish us, the easier we'll get along.

APPOINTMENT BY THE GOVERNOR. One of the first Commissions issued by Gov. POLLOCK, was to our friend HARRY PATTON of Curwensville, appointing him an Aid, with the rank of Left. Col. He couldn't have made a better selection; and we'll guarantee that Harry will never be found with his back to friend or foe. Three cheers for the gallant Col.! and may he never get a bullet it in his body, or a "brick in his hat!"

THE NEW STAGE ARRANGEMENTS.

The new proprietors of the Stage line from this to Tyrone, have reduced the fare to itsold rates, and seem determined to leave no means untried to render satisfaction to the traveling public. They are making arrangements to repair and re-fit all their coaches, and are purchasing new stock, employing good drivers, and using every exertion to 'make good time.' We wish them success, and are glad to find

# AN INFERNAL LIE.

"Is it any wonder that the platform on which he (Gov. Pollock) stood, gave way and fell from under him, at the very moment he wastaking the necessary oath to support the Consti-States .- Washington Correspondent of a certain "Democratic Paper."

If it were even true (and it is a most unmitigated lie) that the platform broke down during the ceremonies of the recent inauguration, we can see nothing in it to frighten anybody, except old women and nervous individuals like the writer, who believes that if you put your stocking on wrong side out you are to have good luck, or if you upset the salt cup you are to get a "divil of a trouncing." But, as we have said, it is not true. We stood, during all of the ceremonies, close by the platform, and the only thing that occurred was the breaking of the end of a board which protruded over the | fonte, Secretary of the Commonwealth; Thomsleeper, or support on which it rested. This as E. FRANKLIN, of Lancaster, Attorney Gentriffing occurrance has been magnified into a eral; John M. Sullivan, of Butler, Deputy most lamentable catastrophe, by this corres. ALEXANDER CALDWELL.

An outrageous attack has been made on our representative, ALEX. CALLWELL, Esq., by the posey who presides over the editorial columns of a sort of milk-and-water, popish, locofoco sheet, not a thousand miles from Clearfield, charging him with being untrue to his constituents, and stigmatizing him (in plain language) as a liar. Among those who are acquainted with the character and high standing of Mr. Caldwell in this community, no denial of these charges is necessary, as they know them to be as false and malicious as the heart of the miserable creature that conceived them, but lest persons at a distance may receive erroneous impressions of a man as honest and upright as any other beneath the fair face of heaven, we desire to give a brief explanation.

voting for American, and against the Loocfoco nominees in the recent organization of the Session for Mr. Caldwell in the Legislature .-The first time he ran as on independent candidate, and was elected over the regular Democratic nominee. The last time he was regularpæna, and Executions, which we will furnish ly nominated by the Native American Convention which met in Curwensville, which nomination he accepted. Not only was his name printed on their ticket, and his election openly advocated in this paper as an American, but when a self-constituted locofoco committee undertook to interrogate him, he refused to answer, on the ground that they had no right to question him. In addition to this, it was well understood, by the locofoco politicians of this town, who circulated it through the county, that Mr. Caldwell was an American, and opposed to Bigler. So far from there being no kind in the State. "organized opposition" to him among the Democracy, he was opposed by a "secret band of conspirators," led on by some of the "trundle bed lawyers' of this town, who, ashamed of their dirty, contemptible, and disgraceful scheme, worked in the dark to defeat him, and elect Seth A. Backus, of whom the greater portion of our people never heard until they found his name in the election returns. Yet, these were the same men who traveled over the county preaching a crusade against "Know Nothingism!"

Now we ask any candid man, to whom is Alexander Caldwell responsible for his Legislative conduct? Is it to the Locofocos, who never nominated him, but secretly opposed him, or to the Native Americans, who made him their candidate, and whose nomination he accepted? He "claimed to be a Democrat?" True, and claims to be one yet, like every other true hearted American, but does this give the locofocos the right to slander and abuse Caldwell is an American, -as such he run, and as such he was elected. His votes, therefore, so far, have been in strict accordance with the wishes of those who nominated him, and we doubt not of all who voted for him, among which class the enraged editor certainly will not ask to be numbered.

In conclusion, we desire to say to the 'posey' who has been spitting forth his gall, that he had better let the Americans alone, and continue to write of subjects within his comprehension, such as 'bachelor clubs,' and 'baby shows.' American Magazine, cannot be surpassed for When he departs from these to interfere in beauty of execution or design. In addition to polities, he only betrays his ignorance, and dress, conveying in language not to be misunsuch veteran christians as Alexander Cald-WELL, he only excites a smile of derision and scorn on all those who admire truth, honesty,

As to the ability of our monied men to keep up a bank, with a capital of one hundred thousand dollars, and always to keep their notes at par, there can be no question. It would undoubtedly, be the soundest institution of the

These are some of the reasons of our citizens for asking the Legislature to charter a bank in Clearfield, and if it will prove of such benefit to the whole community as they anticipate, we sincerely hope it will be granted. As there is no bank located nearer than Williamsport, and as our men ask it with "the individual liability clause," fully confident of their ability to manage it successfully, we can see no reason why the Legislature should refuse them a charter.

#### THE GOV.'S INAUGURAL.

In our last paper we laid before our readers the Inaugural of Governor Pollock-Pennsylvania's first American Executive-but being absent from home we were unable to make any comments. It is certainly an able document, and one that must command the respect of all men possessed of common sense and common honesty. That there were those occupying the position of editors, who would find fault with it, we anticipated, well knowing that nothing, however wise, good, and patriotie, that would eminate from Governor Pollock, could meet the approval of those who are devoid of that magnanimity which would induce them to speak fairly and impartially of a political opponent. We are not surprised. therefore, that it is denounced and ridiculed by a few would-be critics, destitute alike of brains and gentility, who are still mourning over their recent defeat, and trembling at the prospect of loosing more of the public plunder.

The Governor has started on the right track, and his diguified, plain, frank, and manly adwhen he undertakes to impeach the veracity of derstood his views on the policy marked out for his Administration, cannot fail to comend its author to the great mass of the citizens of true spirit of an American Freeman, and is the bright harbinger of an enlightened, economical, and successful Administration.

Mr. Killinger, of Lebonon, has offered a reselution in the Senate, instructing the Committee on Malitia to inquire into the expediency of reporting a bill disbanding all volunteer companies in the State, and forbidding the formation of new ones, of which two-third, of the members and officers are not American born citizens. The resolution gave rise to an interesting debate, but finally passed by a vote of 17 to 13.
