## THE JOURNAL.

Those of our readers who so frequently have occasion to visit Tyrone, will find it profitable to call and purchase goods from F. M. BELL & Co. "See card in another column.

Raftsmen, who are going down the river in the Spring, are informed, by a notice in another column that "White Hall Boarding House,', near Frenchville, is prepared for their reception by the proprietor John W. Rider. If John's 'sour krout' is as well 'seasoned' as Mother Moore's, we have no doubt he'll get lots of custom.

Those of our merchant friends who desire to lay in a first rate stock of Drugs and Chemicals, and to buy from a first rate firm, should call 138 Market St., on their next visit to the City, at RUSSELL & SCHOTT'S.

Land speculators will see an opportunity offered them, by the Orphans' Court Sale advertised in another column.

We publish this week, the Receipts and Expenditures of Clearfield County, which will be found interesting.

It frequently happens that when our people are returning from the East they find the Stage full, and are compelled to walk or lie over at Tyrone. These difficulties will now be obviated since James Chowthen has opened his new Livery Stable, where horses and buggies may be had at all times on reasonable terms.

What Clearfield merchant is not acquainted with Jrw. Donaldson, and where will you find a better fellow? He may always be found at the corner of 3d & Race, Philadelphia, ready to supply his friends with a first rate article of Tobacco and Cigars. See Card.

Merchants and others desiring to purchase Tin and Sheet Iron ware, will find excel- about them! lent terms afforded by LYMAN GEBERT, at his Wholesale Factory, No. 16, Market street, Harrisburg, Penn'a. Price lists furnished on application, post-paid. See advertisement.

TF It isaid the "Kix-Weisers" were about New Washington at the late Election. We don't know how that may be, but we do know that D. S. Protxen keeps one of the best Temperance Hotels in the three counties. Give him a call. See card in another column.

The best natured, cleverest pair of fellows in the "Wild Cat district,"-FLEMMING & FORTER, have opened a Livery Stable in Curwensville, and are prepared to accommodate the public with all sorts of Vehicles, &c., on | imagine. reasonable terms. Viva la Good Intent.

The construction of the Railroad to Tyrone, would enable our citizens to make their purchases at the "Tyrone City Drug Store," with greater facility. But as this consumation so devontly to be wished has not yet come to pass, our friend Dr. Marrix has very proper'y taken the difficulties of access into consi loration, and reduced the profits on his goods. It is now emphatically the best and cheapest Pray Store in the country. Call and see.

DBy a card in another column the numerone friends of E. L. BARRETT, will observe that he has changed his House, and may now be found at 73 Market street, Phil'a. Enoch is a clever fellow, has a large number of friends in Clearfield County, and ought to do well. We wish him abundant success, and are glad to hear he is with a good firm. Go and see him.

DF A young man who understands the tailoring business, will find a good berth, either as a partner or foreman, with D. S PLOTNER, at New Washington, after the 1st of May next.

17 In passing through Philipsburg, some time ago, we had occasion to stop with David Jonnson, who keeps the Philipsburg Hotel, and we must say, we never sat down to a better table, or mot with a more gentlemanly, accommodating landlord. We advise all our friends who are fond of good accommodations to stop with 'Squire Johnston. See notice.

The general complaint about thard times' should induce us to be cautious, and endeavor tions from pleasure to study, from study to hundred years. He proposes to make a joint to purchase cheap and substantial goods. Those | pleasure; in my gayety forgetting the student, merchants who have this object in view, when laying in their stock, will do well to call at PAUL | friend, Mr. Leigh, though not unmindful of & TAYLOR'S Wholesale Boot, Shoe and Straw Goods Wharehouse, No. 255 Market St., Phil'a.

The best Tobacco establishment in Philadelphia is that of FRISMUTH & BROTHER, 105 Third St., five doors below Race. They keep at last, my enthusiasm will be rekindled; and every variety of tobacco and cigars. The best Havanas, Regalias, Principes, &c., are directly imported, by themseves, and can be confidently relied on as the genuine article.

Our friend the Brigade Inspector, at Glen Hope, has just received a new and splendid assortment of goods. Clark is a clever fellow, and we advise all our friends to give him a call.

BFAll lovers of good oysters, sardines, &c., should call at the new Restaurant, in the basement of Hemphill's Hotel, where our friend CHARLEY GREAFF, will be delighted to accommodate them. Charley's sound on the "goose question." See Card, in another column.

tion in New York has proved unfavorable, but the result of an examination of Jas. B. Gna-HAN's splendid assortment of fall & winter premises. They held a mock auction, and goods at his store in Grahampton, will prove | sold off what remained of building materials, highly satisfactory. Gall and try it.

We presume most of our citizens reccollect an estimable young man named J. B. Books, formerly of this county. He may now be found at the large and splendid Boot and rather considerable quantity has been discov-Shoe House of Boker, BROTHERS & JONES, No. | ered near the village of Contamines, between 158 & 169 Market St., Philadelphia, where he tain du Bonhomme. will be happy to meet his large circle of Clearfield acquaintances and to accommodate them with a cheap and elegant stock of city and eastern made boots and shoes. IF It was announced, a few weeks ago, that a wife of Brigham Young, the Great Ram of the Mormon fold, was to deliver a series of lectures on Polygamy, as practiced among that people—and especially her own experience on the subject. From a second letter from this run-away wife, in a recent number of the Boston Times, we are inclined to believe "Sarah Young"-she retains the patriarch's name-a great humbug, or Brigham a great rascal.-She expresses a fear that he will endeavor to reclaim her as a fugitive-but denies the legality of her marriage, alleging that he had more than twenty other wives when she married him-enough, we should say, to put a prudent woman on her guard! She also states that Brigham has a great secret-think of a man, with twenty or thirty wives, having a secret!
-no less than a plot to upset the Union.-

"There are two very important secrets in Mormonism, of which none but the head leaders are aware, and they are brought to it by the most solemn oath. A part of this information I obtained from papers that I found. One morning after Young left my bed, I discovered under the pillow a paper, of which I have a copy. It is a secret plot, contrived to overthrow this government. In that package I also found the plan of a fort; at the top of the plan it said, 'Three tiers, two hundred and six guns each.' I also heard one of the leaders say 'Uncle Sam would not disturb them before they got the under ground works done, and they should not then fear the whole United States army, with their Scotts and Wools.'-This I heard by eaves-dropping, besides a great deal more, of which I have not time to write. The Indians have had the promise that all of the land that has been taken from them thall be returned. Mr. Young pretends to be their friend, and they all, to a man, will fight for him and the Mormons. Not only one tribe, but all the chiefs in the far west are favorable to the cause and to that people. They will all follow their chiefs, and with their help, after they have the ground fixed for battle the emigrants to and from California will find no mercy. You will also hear them boast of their strength and bid deflance to any power. They say they will also appoint their Governor of Utah, and they mean to enlarge their Territory and extend it to the Pacific, and as far north and south as they like. I can tell more than I have time to writh."—Do, Sarah, tell us all

THE EXPECTED GREAT COMET .- The eminent astronomer, M. Babinet, member of the French Academy of Sciences, gives some very interesting details relative to the return of that great comet, whose periodical course is com-puted by the most celebrated observer at three

Our cyclical records shows that it was observed in the year 104, 683, 975, again in 1264, and the next time in 1556, always described as shining with the most extraordinary brilliancy. Most of the European astronomers had agreed in announcing the return of this comet in 1848; but it has hitherto failed to appear .-In fact, it is not so easy or simple a matter to compute those vast cyclical periods as some superficial persons, who do not look beyond the day of the year in which they live, may

We are, however, assured by Mr. Babinet, that, up to this moment, this beautiful star "is living on its brillant reputation;" so that Sir John Herschel himself was wrong when he despaired of its reappearance, and put crape on his telescope! We are now informed that a celebrated and accurate computer-M. Bomme, of Middleburg-with a patience and devotedness truly German, has gone over all previous calculations, and made a new estimate of the seperate and combined action of all the planets upon this comet of three hundred years; and he has discovered that it is not lost to us, but only retarded in its motion. The result of this severe labor gives the arrival of this rare and renowned visiter in August, 1858, with an ancertainty of two years, more or less; so that between 1856 and 1860 those who are then living may hope to see the great laminary which in 1556 caused Charles V. to abdicate.

## From the National Intelligencer, Feb. 22d. AN INTERESTING LETTER.

Every reader, we doubt not, will agree with us that the subjoined letter is not only an interesting one, but that the concluding sentence of it makes it a remarkable one. It is an exact copy of a letter written by General Winfield Scott, then a captain in the army, during a sojourn at his home in Petersburg, Va., on the 18th of June, 1811, just one year before the declaration of war. The letter was addressed to an old friend in this city, and is now in the possession of the son of J. L. Edwards, Esq. : "Perensurac, June 18, 1811.

"I believe we have very little village news to give you, nor do I know what would please

in the student forgetting my gayety. "I have generally been in the office of my the studies connected with my present profession; but you will easily conceive my military ardor has suffered abatement. Indeed, it is my design, as soon as circumstances will permit, to throw the feather out of my cap and resume it in my hand. Yet should war come then who knows but that I may yet write my history with my sword.

Yours, truly, WINFELD SCOTT. "Lewis Edwards, Esq., Washington."

RIOT IN KANSAS .- A Clergyman Mobbed and publishes an occount of a riot between a number of squatters in Kansas. It occurred in the town of Frement, and the following are said to be she facts:-

The mob, without provocation, entirely destroyed the premises of the Rev. Mr. Hummer, and after having beat and stoned his person to such a degree that all reasonable hope of his life was lost, they carried him off by force, together with his suffering wife, who was still clinging to his mangled body, and conveyed them five miles, and set them down on the open prairie, there to perish. The mob It is feared that the result of the Elec- then returned, with yells of triumph, to the residence of A. A. How to sell a Book .- "Doesticks" writes to the Detroit Advertiser, that he is going to publish a book, and the following idea is given as to the means which he will adopt to get it into extensive circulation. We commend it to some book publisher we wet of:

In order to cripple criticism, and disarm editorial oqinion, a copy will be sent to every editor, critic, reporter, writer, women's rights scribbler in the country—it will be advertised for many weeks in advance as the most witty, most learned, most laughable, most profound, most mirth-provoking and most solemn book of the season-favorable notices in the leading journals will be paid for, and in short, no trickery or stratagem omitted. It will be for sale wholesale, retail, and at auction. Those of you who have a dollar to spare will please buy it, and those who haven't will borrow a copy from the nearest editor, and never carry it back. It will be a "work which no gentlefinan's library should be without." It is considered necessary to the safety of the Union, that its democratic principles be thoroughly disseminated; and it is indispensable to the stability of the English throne, that its monarchial doctrines be thoroughly comprehended. Every man, woman, child, canal driver, billiard-marker, faro dealer, and member of Congress, will be provided with a copy, thereby preserving our Union, destroying our liberties, keeping unsullied the honor and dignity of "our flag," and at the same time contributing to the glorification, establishing the fame, and filling the cavernous pockets of

Volcanic Repeating Pistol.

We have seen and fired a pistol, recently invented and patented, which bids fair to excel every thing in that line that has yet been offered to the public attention. It seems to combine all that could be desired in such a weapon. Colt's pistol compared with it seems like a distortion, or a clumsy, uncouth, and ridiculous affair for a firearm. The volcanic pistol carries a Minie or conical ball, in a rifle barrel, and will put it through a three inch plank at a distance of ninety rods. The receiving tube will hold ten ball cartridges, which may be deposited in two seconds of time. The pistol may be discharged thirty times in fifty seconds. It is so contrived that it is not liable to accidental discharge. There is no priming, no caps, and therefore no danger to the eyes from any ignition near the breach. Neither is there any recoil, so as to jar the arm or disturb a sure aim. The whole construction is so simple as not to get out of order even from long use. The powder and ball are enclosed in the same metallic cover, so that a person could swim a river with one of these in his belt without in the slightest degree injuring the powder. In short, the weapon is in all respects one of the most perfect things in the shooting line that we ever took into our hands .- New Haven Palladium.

ADULTERATED LIQUORS ... The Toronto (Can- Hemlock Joist and Scantling. ada) Patriot, professes to have made some startling discoveries respecting the adulteraion of liquors in that Province, and calls for legislative interference, to arrest the evil. All kinds of liquers are extensively counterfeited. The Patriot says :- "The public has little idea of the extent to which the adulteration of liquor is carried on in this country. Some time ago, during a preliminary investigation of a criminal case, the fact was incidentally elicited, that all the liquors retailed in a particular hose, in this city, were smade up' in Toronto! So striking a disclosure did not arrest the public attention, which was exclusively fixed upon other features of the case. We have recently been led to make inquiries into the extent to which this system of adulteration is is carried, and the result will cause some surprise to the uninitiated. Probably nine-tenths of the liquors sold in this city are adulterated in differtain not a drop of the liquor under the name of

MURDER BY A KING .- A continental correspendent of the London Morning Advertiser writes : "A very unfortunate event has just occurred at the Hague, an event of so distressing but that it comes to me from unquestionable Frenchville. authority. The King of Holland lately went to visit one of his mistresses, and found one of his aides-de-camp closeted with her. The king rushed upon his officer and stabbed him: the wound, it is said, has proved fatal, and great exertions are being made in high places to keep this horrible tragedy from the public."

> SPOTS ON THE SUN .- A correspondent of the Providence Journal states, for the information of those who believe that there is a connection between the temperature of our planet and the state of the sun's disc, that there are now two spots on the sun of uncommon size and great regularity of figure, almost circular, which are surrounded by a penumbra, very distinct, also circular.
