thoughts on Popery." The author will bear with us a short time, until we get things fixed. The Riots-The City Councils of Louisville have passed resolutions declaring that the foreign pop-

ulation provoked the recent riots. Large Beet!-A lady in Burnside township named Beet, gave birth to a "young un," last week that weighed over ten pounds! Burnside can't

be "beet," for raising 'wegitables.' A suggestion .- Before our neighbor down street slanders the Know Nothings so strong, he ought to purge the Committee of vigilance and list of candidates. There are no "Know Nothings" among

them! Oh no! An arrival .- It will be seen that Mr. Graham has just received a large assortment of new goods at his store at Grahamton. Our readers in that country should call and see them. They cant deal with a better man.

New corn .- We are indebted to David Winternitz for a mess of 'roasting-ears.' He's a clever fellow, and those who want to purchase vegetables should give him a call. We are waiting anxiously for those tomatoes, David.

Thanks-to Wm. McBride of Curwensville, for a bunch of most excellent eigars. Lover's of "the werd," in his neighborhood cannot do better than to call on Billy, who is a judge of the article, and always keeps the best quality.

Is it so?-It is said the Loco candidates will be compelled to "kiss the ealf skin," or in other words, swear that they are not "Know Nothings." What's the use of administering an oath to men who "have swore to perjure themselves?"

Truly a compliment.-Three poor German minstrels found their way, the other day to Undarcliff, the country seat of General George P. Mon-RIS, on the Hudson, and sang "Woodman spare that tree,,' in Dutch! The coincidence was purely acoidental, and quite unknown to the hurdy-

Rich.-We are informed that one of the "millonares." of this town, refused the other day to contribute to the repairing of "Centre Church." because "the Methodists had all joined the Know Nothings." We believe he is the same man who once gave part of a keg of white lead to paint the front of the church in this place, and stood down there all day swearing at the fellow for putting it

Queer people. We are to'd there are a number of singular people about Bridgeport, above Curwensville, who have been attracting considerable attention lately. They dress in an odd style, say but little to outsiders, dodge all the questions they are asked, and have plenty of money. They are and another taking their place who have not been seen before. There's a mystery about them which | sions, but for the fearlessness with which error is will defy the Know Nothing hunters to develope.

Fire.-The house of James Crossly, at the Turnpike Gate above Lumberville, with nearly all its contents was destroyed by fire on Saturday, night last Mr. Crossly and his wife were absent, and two young men were staying in the house. They were waked up about the middle of the night by the explosion of some rock powder which had been standing on the cupboard, in an old coffee Pot. They found the house in flames, and were only able to save a bed, a chest, trunk, stand, and one or two other articles. Everything else belonging to the family was entirely destroyed. Mr. Crossly is an industrious blacksmith, and by long see S American. A CALL FOR PREPARATION FOR DISUNION.— The Richmond (Va.) Enquirer has a long article on the present aspect of the slavery discussion, in which it says the refusal to admit Kansas into the Union as a Slave State must make Madison and Dixon's line the boundaries of foreign States, and in view of that result asking the Legislature to take steps immediately to have the State put into a condition of mili tary defence. The writer says there are two hundred thousand fighting men in Virginia, and that one tenth, or twenty thousand, ought carefully drilled by the graduates at the military school. These, with railroads to move the troops, it thinks, will make Virginia impregnable. The Union, very unfortunately, is not easily dissolved. It has passed through many a severe trial triumphantly heretofore and will do it again, despite treason, fanaticism, ultraism, and all other isms. It exists election. in the hearts of the people—the sound, con-servative, truly patriotic people—who constitute an overwhelming majority. They must be consulted on such a monstrous question, and the Enquirer may rest assured that when Improved Premium they speak, ultraism of every kind, and in every section of the Union, will be overwhelmed. They will truly be found a "military defence" that is "impregnable."

THE TABLES TURNED .- A warrant was issued, upon the affidavit of William Still, on Saturday last, for the arrest of John H. Wheeler, whose slaves lett him in Philadelphia, some time since. The complaint charges Wheeler with riotously and tumultuously seizing upon Jane Johnson, and attempting to carry her away, contrary to her wish, and claiming her as a fugitive from servitude or labor, contrary to the Act of Assembly of March 3, 1847 .- Wheeler is also charged with an attempt to Not yet examined-the article entitled "a few kidnap the woman, and with assault and battery. There seems to be some trouble in store for the Minister, although the difficulty. thus far, has been all on one side. It is said he has made good his exit from the city.

GOVENOR OF KANSAS.-The President has appointed the Hon. Wilson Shannon of Ohio Govenor of the Territory of Kansas, in the place of Hon. John L. Dawson, who declined the appointment. Shannon was a member of the last Congress, and a supporter of the Kansas-Nebraska bill. He formerly filled the office of Govenor of Ohio, and under President Polk, was United States Minister to Mexico. Mr. S. has accepted the position, and will proceed at once to fill the vacant place.

EAR AND EYE. DRS. Le BRUNN & DUFTON, Occulists and Aurists.

Deafness and Ear Diseases Radically Cured. DR. LE BRUNN offers to those suffering from Deafness his INFALLIBLE AURAL REMEDIES, which have been successful in nearly 3,000 cases of confirmed deafness. These remedies comprise different courses for diseases of the internal mid-dle and external ear, and have been pronounced by those celsbrated aurists. Drs. Cramer, of Ber lin, Itard, and Delan, of Paris, Curtis, Pilcher and Yearsly of London, as being the MOST WONDER-FUL and EFFECTUAL ever applied for diseases of the internal and middle ear. Dr. LeB., WAR-RANTS A CURE in every case where the ear is perfect in formation. He has eighteen certificates cures from those who had been DEAF AND DUMB, and whose hearing is now completely res-tored and are now enabled to learn the language. The names of 2.700 persons who have been cured by Dr. LeB., may be seen on application. Patients, by sending a description of the case, can have remedies sent to any part of the United

In case of mucus accumulations in the Eustachain Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrane tympani, called "the drum, when the disease can be traced to the effects of fevers or colds, the use of quinine or mercurial medicines, gatherings in the ears in children, &c. this treatment STANDS PREEMINENT. When the auditory is dry and senly, with little or no secretion; when the deafness is accompanied with noise in the ear, like falling water, chirping of insects, ringing of bells, rustling of leaves; continual pulsations, and discharge of matter, or when in stooping, a sensation is felt as if a rush of blood to the head had taken place; when the hearing is less accute in dull, cloudy weather, or when a cold has been taken, this method of treating the disease is infallible.

Dr. Dufton is the only Occulist in the United States who practices the new painless, and successful method in treating all the diseases to which the eye is subject. Where every other means have failed to afford relief, he asks from such a

fair and impartial trial. TESTIMONY .- The undersigned practitioners in medicine in the city of New York, having had frequent occasion to witness the practice of Drs. LeBrunn and Dufton, in diseases of the Ear and Eye, laying aside all professional jealousy. freely admit, that the course pursued by them in treating diseases of these delicate organs, from the unparalleled success attending it, is well worth the attention of our professional brethren throughout the United States, feeling assured as we do, that Aural Surgery has not met with that attention which its importance demands. Their system of treating diseases of the middle and internal Ear, by "Medical Vapors," particularly in chronic or complicated cases, forms a new era in the practice of Aural Surgery; such cases yielding in almost every instance to this new and powerful agent.— This practice fills up a void which has long been felt by the general practitioner, enabling him to cope successfully with every case where perfect formation exists.

In diseases of the Eye, they seldom require to resort to the operation.
As skillful Aurists and Oculists, onthusiastically devoted to their profession, we cordially recommend them to such as may require their aid
