THE PAPAL CHURCH-MACAULEY'S TESTIMOsy .- The great historian of England, in refcrence to the Church of Rome, has made, for the benefit of the future ages, the following clear, pointed, truthful, and enduring record "During the last three centuries, to stunt the growth of the human mind has been her chief object. Throughout Christendom, what- held near New Wasnington, on ever advance has been made in knowledge, in freedom, in wealth, and in the arts of life, has been in inverse proportion to her power. The loveliest and most fertile provinces of Europe in political servitude, and in intilectual torpor-while Protestant countries, once proverbial for stertility and barbarism, have been

turned, by skill and industry, into gardens, and can boast of a long list of heroes and statesmen, philosophers and poets. Whoever, knowing what Italy and Scotland naturally give him a call, at his are, and what four hundred years ago they actually were, shall now compare the country around Rome with the country around Edinburgh, will be able to form some judgement

of the tendency of papal domination. The descent of Spain, once the first among monarchies, to the lowest depths of degredation, the elevation of Holland, in spite of natural disadvantages, to such a position as no Commonwealth so small has ever reached, teach the same lesson. Whoever passes in Germany, from a Roman Catholic to a Prot- for the office of County Treasurer, at the coming estant principality, in Switzerland from a Ro- election. man Catholic to a Protestant canton, in Ireland from a Roman Catholic to a Protestant county, finds that he has passed from a lower to a higher grade of civilization. On the other side of the Atlantic the same law prevails. The Protestants of the United States have left behind them the Roman Catholics an American Anti-Nebraska County and District of Lower Canada, who remain inert, while the whole country around is a ferment of Protestant activity and enterprise. The French have doubtless shown an energy and an intelligence, even when misdirected, which have justly entitled them to be called a great people. This apparent exception, when examined, will be found to confirm the rule; for in no country that is called Roman Catholic has the Roman Catholic Church, during several generations, possessed so little authority as in France.'

SLAVERY IN KANSAS .- Stringfellow, who is Speaker of the Kansas House of Representa- the State. tives, and editor of the Squatter Sourcign, at Atchison, discourses as follows in regard to the security of slave property in Kansas :---We receive letters by nearly every mail asking our opinion as regards the security of slave property in Kanses Territory. We can truly English, \$2.50; High English, \$5.00; Classics, \$8.00. answer that no Territory in Uncle Sam's do-Mathematics, above Algebra, \$3; French, Drawminion can be found where the slave can be | ing, and Painting. S5 each. made more secure, or his work commands a higher price. Kansas is adapted to slave labor, as all can testify who have experimented in the matter. Our slave population is gradually increasing by the arrival of emigrants and settlers from the slave States, who, having an eye to making a fortune, have wisely concluded to secure a farm in Kansas, and stock it well with valuable slaves. There are nearly one hundred slaves in this immediate neighborhood, and we have yet the first case of one escaping to record. Situated as Missouri is,

DRS. Le BRUNN & DUFTON, Occulists and Aurists.

Deafness and Ear Diseases Radically Cured.

DR. LE BRUNN offers to those suffering from Deafness his INFALLIBLE AURAL REMEDIES, which have been successful in nearly 3,000 cases of confirmed deafness. These remedies comprise different courses for discases of the internal, mid-dle and external car, and have been pronounced by those celebrated aurists, Drs. Cramer, of Ber lin, Itard, and Delan, of Paris, Curtis, Pilcher and Yearsly of London, as being the MOST WONDER-FUL and EFFECTUAL ever applied for diseases of the internal and middle ear. Dr. LeB., WAR-RANTS A CURE in every case where the ear is perfect in formation. He has eighteen certificates of cures from those who had been DEAF AND DUMB, and whose hearing is now completely restored and are now enabled to learn the language. The names of 2,700 persons who have been cured by Dr. LeB., may be seen on application. Pa-tients, by sending a description of the case, can have remedies sent to any part of the United States.

In case of mucus accumulations in the Eustachain Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrane tympani, called "the drum," when the disease can be traced to the effects of fevers or colds, the use of quinine or mercurial medicines, gatherings in the ears in children, Ac., this treatment STANDS PREEMINENT. When the auditory is dry and sealy, with little or no secretion; when the deafness is accompanied with noise in the ear, like falling water, chirping of insects, ringing of bells, rustling of leaves, continual pulsations, and discharge of matter, or when in stooping, a sensation is felt as if a rush of blood to the head had taken place; when the hearing is less accute in dull, cloudy weather, or when a cold has been taken, this method of treating the disease is infallible.

Dr. Dufton is the only Occutist in the United States who practices the new painless, and successful method in treating all the diseases to which the eye is subject Where every other means have failed to afford relief, he asks from such a fair and impartial trial.

TESTIMONY .- The undersigned practitioners in medicine in the city of New York, having had frequent occasion to witness the practice of Drs. LeBrunn and Dufton, in diseases of the Ear and Eye, laying aside all professional jealousy, freely admit, that the course pursued by them in treating diseases of these delicate organs, from the unparalleled success attending it, is well worth the attention of our professional brethren throughout the United States, feeling assured as we do, that Aural Surgery has not met with that attention which its importance demands. Their system of treating diseases of the middle and internal Ear. by ... Medical Vapors," particularly in chronic or complicated eases, forms a new era in the practice of Aural Surgery; such cases yielding in almost every instance to this new and powerful agent.— This practice fills up a void which has long been felt by the general practitioner, enabling him to cope successfully with every case where perfect formation exists.

In diseases of the Eye, they seldom require to resort to the operation. As skillful Aurists and Oculists, enthusiastically

devoted to their profession, we cordially recon mend them to such as may require their aid Signed.

Creditable business-spying round after the Know Nothings! The man who was engaged in it on Friday evening last, did'nt make much. Camp Meeting .- We attended the Camp Meeting at Millport, under the charge of the Rev. Dr. Linthicum. on Sabbath last. It was, perhaps the largest ever held in the County, and we have no doubt will be productive of much good. There were over twenty tents, and we were at a loss to imagine where the vast number of people who

tier counties to Kansas, where they are comparatively safe. Abolitionists too well know the character of the Kansas squatter to attempt to carry out the nefarious schemes of

the under-ground railroad companies. An act is before the Legislature of Kansas Territory, regulating oaths, and prescibing the forms of oaths of office. The substance of this act is, that all officers of the Territory shall take an oath to support the constitution of the United States, to 'sustain and support' the provi-

sions of the Kansas-Nebraska act, and the laws of the United States, particularly that commonly known as the Fugitive Slave law."

RICH SCENE .- The following rich scene occurred in the Locofoco Hard Shell State Convention which met in Syracuse N. Y. last week

Mr. Haskins then proposed his resolution, denouncing the National Administration, and while the ayes and noes were being taken on the question of its indefinite postponement, Mr. Barr, of New York, charged Mr Haskins with not offering the resolution in good faith, whereupon Mr. H. replied that B. had no right here except in sufferance, and that he, Barr, voted with the Whigs on every question in the Legislature, last winter, and was now under the pay of the Seward Whigs.
